

Guide

Applying for an **Agricultural Site Development Review**

What is it?

An Agricultural Site Development Review ensures that new single-family dwellings are: 1) compatible with their sites and with the surrounding environment; 2) not obtrusively visible from scenic corridors and do not interrupt ridgelines; and 3) have adequate access and fire protection.

When is a Site Development Review required?

In all Agricultural (A) zoning districts and all Limited Agriculture (L) combining districts, Site Development Review is required for all new construction of single-family dwellings, including permanent mobile homes. In all Cultivated Agriculture (CA) combining districts, Site Development Review is required for every new building greater than five hundred (500) square feet or thirty (30) feet in height.

Who approves it?

The Planning Director.

What is the process?

1. **Prior to application submittal** – Talk to a Planning Department staff member and relevant County Agencies to determine what materials you need to prepare.
2. **Application Filing** – Submit the required applications and materials to the Planning Department. Contact the Planning Department to discuss the application materials to be submitted (these are listed at the end of this Supplement).
3. **Staff Review** – Planning Department staff will review the materials to ensure that the proposed project meets the minimum zoning requirements, and then refer your application to public agencies such as school, park, and fire districts. Staff will visit your property, and notify you if a public hearing will be held, and if so, will prepare a staff report for that hearing.

4. **CEQA Review** – Many applications of this type are **not** exempt from the California Environmental Quality Act (CEQA). Projects may require either a negative declaration or a mitigated negative declaration, depending on the specifics of the project.
5. **Public Hearing** – If there is a hearing, staff will present a staff report with a recommendation and take public comments. After the hearing, the Planning Director makes a decision on your project. The action is effective after ten days, unless a written appeal is filed.
6. **Appeal Period** – There will be a 10-day appeal period, after which time the Planning Director's action will be final, unless a written appeal is filed with the Planning Commission.

What must I submit?

- A complete **Standard Application** form signed by the property owner.
- A complete **Application Supplement Agricultural Site Development Review** form.
- A deposit of **\$2,000**.
- Project drawings drawn to a reasonable (legible) scale. A list of the required drawings and a sample plot plan is included at the back of the **Application Supplement Agricultural Site Development Review** form.
- A visual analysis that analyzes the visual impact of the proposed dwelling from critical vantage points.
- A feasibility statement from the Alameda County Environmental Health Department regarding septic tank system and water supply.
- Calculation of the number of acres to be removed from agricultural production.

Alameda County Planning Department

224 West Winton Avenue, Room 111, Hayward, CA 94544

Phone: (510) 670-5400 Fax: (510) 785-8793 Web: <http://www.acgov.org/cda/planning>

Guide

Applying for an **Agricultural Site Development Review**

- Statement regarding access easements.
- Any additional materials requested by the Planning Department.

How long is the process?

In most cases, two to three months, depending on the proposed use and the complexity of the project. Some applications will require much more time to process. An appeal will add approximately two months.

What is the cost?

The County charges the cost of processing the application. You must submit a deposit when you file your application. The amount of the deposit (\$2,000) is based on Planning Department and Public Works Agency costs plus the cost of an environmental review, if required. The actual cost may be more or less than this amount, depending on the complexity or magnitude of the proposed Site Development Review. If the deposit is depleted, additional money must be deposited for application processing to continue. Any excess funds will be refunded after the final action on your application.

What information or material might be requested?

You may provide maps, photographs, exhibits, studies, factual data, or other information depicting the property, its location and its relationship to surrounding uses in order to demonstrate that the Agricultural Site Development Review would be in the public interest.

Is there a public hearing?

A public hearing is not normally required for these applications. However, under special circumstances, a public hearing may be held. Staff will notify you if one will be held as soon as we make that determination. Ten days before the hearing, The Planning Department will formally notify you and all adjacent property owners when and where it will be held. At the hearing, a staff member will present the application, written agency and public comments, and staff recommendations. No action will be taken at the meeting. Usually within two weeks

after the hearing, the Planning Director will decide to approve, deny or require changes or conditions in the proposed project.

What if my application is denied?

You or any other person may appeal the Planning Director's action by filing a written appeal and paying the required fee (\$250 for applicant or other interested parties) within 10 calendar days. The appeal fee varies according to the nature of the proposed project. Consult with the Planning Department to determine the appropriate fee. Usually the Planning Commission hears the appeal. If the appeal is denied you may re-appeal to the Board of Supervisors. However, if your Site Development Review requires a concurrent Variance, the appeal goes directly to the Board of Supervisors.

Can a Site Development Review condition be changed?

You may apply to modify a plan approved under a Site Development Review. You may also apply to modify a condition set forth in an SDR. The procedure and requirement are the same as in the original application, and there is no guarantee that they will be approved.

Where are public hearings held?

Municipal Advisory Council (MAC) hearings are held at various locations, depending on which MAC body has jurisdiction: Castro Valley MAC, Eden MAC, Fairview MAC, or Sunol. Staff will let you know the place and time of the public hearing, if one is held.

The Alameda County Planning Commission hearings are held on the 1st and 3rd Mondays of the month. Times vary; we will let you know the time of the public hearing, prior to the hearing date. The Commission meets in room 160 of the Alameda County Community Development Agency offices at 224 West Winton Avenue in Hayward.

The Alameda County Board of Supervisors holds hearings on planning and zoning matters on the 2nd Tuesdays of the month at 1:00 p.m. in the Board of Supervisors chambers, 5th floor, 1221 Oak Street in Oakland.

Agricultural Site Development Review Application Supplement

Agricultural Site Development Review

- For complete filing instructions, see the **Standard Application** form.
- For general procedures and guidelines, read the handout “*Applying for an Agricultural Site Development Review*”
- You must make an appointment with a Planning Department staff member to determine if materials or information (in addition to those listed below) are needed to evaluate your project.
- If you have any questions, please call (510) 670-5400.

1. Applicant Name: _____
2. Contact the Planning Department at (510) 670-5400 to make an appointment with a Senior Planner to submit the following materials to the Alameda County Planning Department (Permit Center) at 399 Elmhurst Street, Room 141, Hayward, California. **Incomplete applications will not be accepted.** Please use the following checklist to ensure the application is complete.

Required

- Standard Application** form.
- Application Supplement:** *Site Development Review* form.
- Filing Fee Deposit: \$2,000.** Make check payable to “**Treasurer, County of Alameda.**”
(**Note:** If fee deposit is depleted, additional funds must be deposited to continue application processing. Any remaining money will be refunded.)
- Project Drawings:** Show all information as shown on the **Sample Plot Plan** on the back of this form.

To start the submittal process:

- Electronic files of the drawings, .pdf formatted.
 - Site Plans
 - Floor Plans
 - Building Elevations (including color drawings)
 - Preliminary Grading Plan
 - Preliminary Landscape Plan (including color drawings)
 - If on a Hillside: Building Section Drawings

During the project review phase:

- Paper drawings in the quantity and paper size as requested by Planning Department staff.
- Materials and Color Board

S-	Agricultural Site Development Review Application Supplement
-----------	--

- Statement from Environmental Health Department:** Regarding feasibility of septic tank system, including Percolation test and water supply, specifying quantity and quality.
- Statement Regarding Access Easements:** If parcels do not have direct frontage on a County road or are not utilizing a County road for access, applicant should submit copies of any pertinent access easements.
- Number of Acres to be Removed:** Calculation of the number of acres to be removed from agricultural production as a result of constructing the access road and structures.
- Visual Analysis:** When necessary, a visual analysis of the impact of the proposed dwelling from critical vantage points, such as open space areas, highway and nearby residential development may be required. The analysis may be done graphically using drawings and maps, or by creating a scale photomontage of the proposed structure(s) on the site. In rare cases, the applicant may be required to simulate the building massing on the site in order to better assess the visual impact.
- Other Information requested by planner:** _____

- Call for appointment to meet with a Senior Planner for submittal.**
- Applicant Signature verifying that the applicant understands the application process:**

Applicant Signature Date

S-

Agricultural Site Development Review Application Supplement

- The following preliminary plans must be prepared and signed by a registered Civil Engineer or a licensed Land Surveyor, Architect, Landscape Architect, or Building Designer
- Graphic Information must be drawn to scale and must be legible on originals and reductions.
- The Planning Department may request more information as needed to fully review the project.
- The Planning Department may allow certain site Development Plan requirements to be consolidated, reduced or deleted depending on the size, nature and complexity of the proposed project.

1. Site Plan

- Title Block** showing: **Applicant** name, address, signature and phone number;
 Property Owner name, address, signature and phone number
 Plan Preparer name address and phone number
 Project Address
 Assessor's Parcel Number(s)
 Note (if applicable) "Proposed modifications to approved S- _____"

- Statement by Plan Preparer**

"I, _____, certify that this Site Plan has been prepared by me or under my direction and do attest to the accuracy of all information indicated hereon. Signature _____
Title _____ Reg no. _____ Date _____"

- North Arrow and Scale:** Minimum scale is 1" = 20".
- Boundaries:** show parcel dimensions in distance and bearing. Show distance from parcel to nearest street intersection and distance from parcel to centerline of street. Show centerline of all creeks and the watercourse ordinance setbacks.
- Buildings and Structures (existing and proposed):** Show dimensions, location and proposed uses. Delineate each residential unit or space, including water tanks, wells, etc..
- Adjacent Properties:** State use of all abutting properties. Show location, height and number of stories of buildings.
- Building Appurtenances:** Show location and dimensions of balconies, exterior corridors, steps, stairs, and roof lines.
- Access:** Show driveways, pedestrian walks, access, internal circulation, location and access of service areas (including trash enclosures), and points of entry to all structures.
- Yards and Open Space between Buildings:** Show dimensions between structures. Indicate ground material such as paving, lawn, ground cover or other landscaping. Show signs, mailboxes, and trash enclosures.
- Statistical Data:** Indicate total square footage of site area, building coverage and Usable Open space (as defined by the Alameda County Zoning Ordinance) on project site. Indicate number of parking spaces. Indicate number of bedrooms and floor area of each residential unit.
- Utilities:** Show the location and type of all existing and proposed utility systems, including fire hydrants, PG&E transformers, meter boxes, water pumps, and underground lines

2. Floor Plan

- Floor Area:** Show dimensions, size height, conceptual floor plan, and total square footage of floor area in existing and proposed buildings.
- Use:** Indicate use of each room.

3. Grading Plan

- Topography:** Indicate existing and proposed contour lines extending 60 feet beyond project site boundaries. Use one (5) foot contours for slopes of less than 5% and two (10) foot contours for slopes in excess thereof. An enlarges USGS 7.5' Topographic Map with property lines depicted, may be substituted for this requirement upon approval by the Planning Department.
- Grading:** Show finished grades, uniform cut and fill slopes, and finished floor elevations. Quantify the amount of cut and fill and off-haul off materials required. Show finished ground elevations at all corners of buildings, basements, grade breaks, lot corners and all drainage connection points.
- Retaining Walls:** Indicate location, height and materials used for all retaining walls. Indicate finished ground elevations at top and bottom.
- Storm Drainage:** Indicate storm water disposal plan. Show all catch basin elevations, pipe type, and size.

Note: A final grading plan, prepared by a licensed Engineer may be required prior to issuance of a building permit.

4. Landscape Plan

- Landscape Structures:** Show location and dimensions of major landscape structures such as fences, walls, walks, pools and trellises.
- Paving Materials:** Indicate paving materials to be used.
- Planting Plan:** Show proposed generalized planting plan.
- Existing Trees:** Indicate location and size of all trees four (4) inches in diameter or larger.

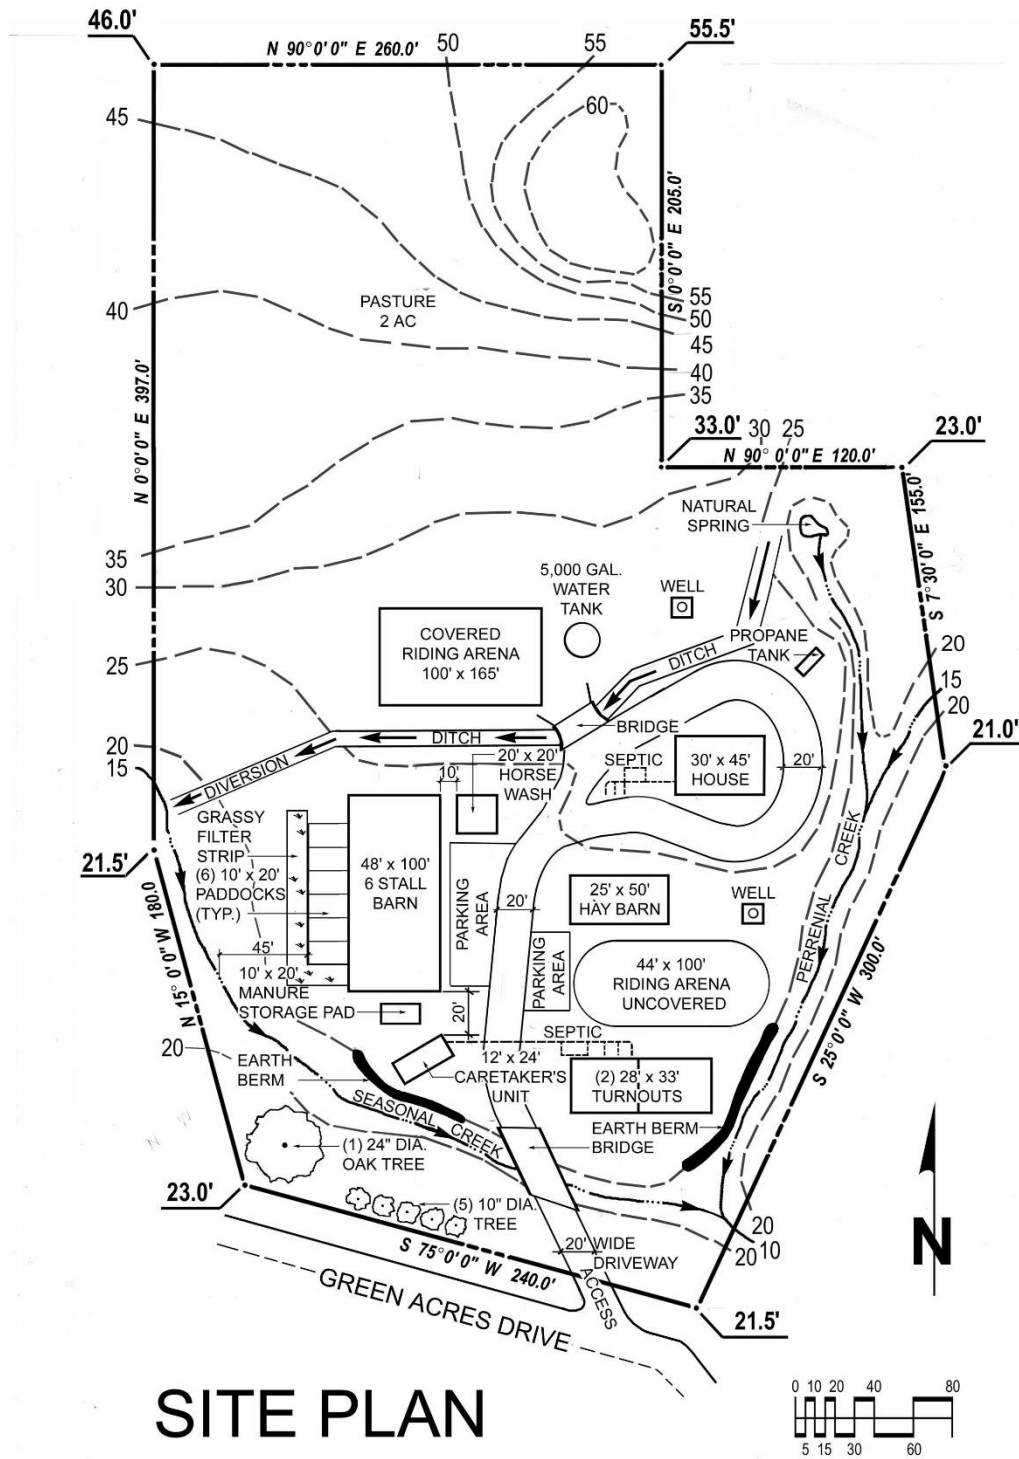

Note: A final landscaping plan, prepared by a licensed Landscape Architect, must be submitted and approved before a building permit can be issued.

5. Building Elevations

- Building Exterior:** Show front, rear and side views of existing and proposed buildings.
- Color Board:** Indicate color and materials for proposed building facades.
