COUNTY ADMINISTRATOR'S OFFICE

Honorable Board of Supervisors
Administration Building
Oakland, CA 94612

Dear Board Members:

SUBJECT: APPROVE FY 2003-2004 FINAL/AMENDED BUDGET ADJUSTMENTS

RECOMMENDATIONS:

It is recommended that your Board:

1. Approve the one-time use of contingencies and capital reserves to offset the final State Budget reductions;
2. Authorize the Auditor-Controller to make the financial adjustments detailed in Attachments I and II to reflect the State's final budget allocations;
3. Direct Agency/Department Heads to immediately begin identifying program priorities and developing reduction plans in 5% increments in preparation for FY 2004-2005 budget balancing; and
4. Direct Agency/Department Heads to continue monitoring current year expenditures and revenues and to fill only positions that are critical (life/safety), mandated or cost-effective to generate current year savings to help mitigate anticipated funding reductions in FY 2004-2005.

DISCUSSION/SUMMARY:

On June 20, 2003, your Board adopted the County budget for FY 2003-2004 which closed a \$112.6 million funding gap by cutting programs and services and eliminating 320 positions. While the budget was balanced, it contained \$52.1 million in one-time strategies that may not be available again in future years, including the use of Fiscal Management Reward savings, liquidation of prior year encumbrances and deferral of capital projects. Our ability to achieve a balanced budget without a significant number of layoffs was in large measure due to the diligent efforts of Agency and Department Heads to closely monitor expenditures and revenues to achieve savings to be used for budget balancing.

A pending factor at budget adoption was the potential for additional reductions caused by State budget actions. On September 13, 2003, the Legislature adjourned after taking a number of actions that will impact the County General Fund by an estimated \$27.3 million through funding reductions and revenue losses (Attachment III). The actions by the Governor and State Legislature increased Alameda County's funding gap from \$112.6 million to \$139.9 million, the largest since FY 1993-94.

The following summarizes State budget actions that impact County funding for the remainder of this fiscal year:

General Impact: \$25.0 million

Prior to adjournment on September 13, 2003, the State Legislature passed a number of bills that will impact County funding and programs in the current year and beyond. The most significant action involves the “loan” of vehicle license fee (VLF) backfill revenue that counties would have received during the period between the time the VLF was increased on June 20, 2003 and when the fees begin to be charged on October 1, 2003. The “loan” is to be repaid to cities and counties in August 2006. The estimated revenue loss to Alameda County from this action is \$23.4 million.

Another legislative action passes on to counties 25% of the federal penalties for the State’s failure to develop and implement a statewide child support system. Clearly, the State is shifting costs and “sharing the pain” as counties had no direct responsibility for the State’s failure to automate child support collections. Alameda County’s share of the State’s penalty is \$1.6 million.

The most complicated component of the State budget is arguably the so-called “triple flip.” AB 7X, known as the California Fiscal Recovery Financing Act, authorizes the State to issue bonds for the purpose of funding the accumulated State budget deficit. These bonds will be paid back with the revenues from a one-half cent increase in the State’s share of sales taxes. This measure reduces the local sales tax rate by a corresponding amount, resulting in “no net increase” to the taxpayer. AB 1766, the budget trailer bill, provides the implementation mechanisms for the “triple flip.” It outlines the procedures for county auditor-controllers to transfer an equal amount of local property tax revenues from Education Revenue Augmentation Funds (ERAF) to cities and counties as reimbursement for lost local sales tax revenues. Thus, the “triple flip” legislation is assumed to be revenue neutral. It becomes effective on July 1, 2004; however, it is facing legal challenges.

Public Protection Impact: \$0.9 million

Reduction of State funding for the Citizens’ Option for Public Safety (COPS) program will result in the loss of \$0.2 million in the District Attorney and Sheriff’s programs. In addition, the State Office of Criminal Justice Planning was eliminated and its funding for a variety of criminal justice grants was reduced by 50%, resulting in the loss of \$0.5 million in grant funds for the District Attorney. The State also will increase the sliding fee scale paid by counties for commitment of court wards to the California Youth Authority from an average of \$160 to \$176 per month, an estimated cost increase of \$0.2 million to the Probation Department.

Health Care Impact: \$0.8 million

A 5% reduction in Mental Health Managed Care and other reductions in Alcohol and Drug programs will reduce revenue in Behavioral Health Care Services by \$0.8 million.

Social Services Agency Impact: \$0.6 million

Legislative restoration of the CalWORKs cost-of-living adjustment slated for June 2003 will result in an increase in the County’s cost for both CalWORKs and General Assistance of approximately \$0.5 million. Furthermore, the State reduced funding for Community Care Licensing by about \$0.1 million.

In addition to the General Fund impacts described above, the Community Development and Public Works Agencies will receive reduced funding for redevelopment and road maintenance projects totaling \$12.9 million.

Closing the Funding Gap

As noted above, the most significant components of the funding gap are the loss of \$23.4 million in VLF revenues for the period from June 20 through September 30, 2003, considered a loan from the County to be repaid by the State in 2006, and a \$1.6 million share of the State child support penalty – a total of \$25.0 million. No adjustments are recommended for the program-specific reductions in Sheriff, District Attorney, Health Care Services Agency, Social Services Agency, Community Development Agency and Public Works Agency as they were either anticipated in the adopted budget or will be absorbed within existing resources or savings. A funding increase will be required to pay the one-time child support penalty because the Department of Child Support Services is fully funded by the State and has no General Fund resources or reserves with which to pay the State's penalty.

At the close of the last fiscal year, your Board announced that unrepresented managers would forego salary increases for FY 2003-2004 and that SEIU had agreed to forego salary increases, as well. These concessions were made to assist in balancing this year's budget and resulted in an estimated savings of \$10 million in the Appropriation for Contingencies. Given the one-time nature of funding impacts caused by State budget actions, I am recommending that these savings be applied to the funding gap and that the balance of the \$25.0 million funding shortfall created by the one-time Vehicle License Fee loan and child support penalty be mitigated with an internal borrowing from capital reserves. The use of capital reserves may delay some projects, including major maintenance. These strategies will enable County services to continue this fiscal year while we focus our efforts on the significant funding shortfall anticipated in FY 2004-05.

Pending Issues

There are a number of significant pending factors, which bear careful monitoring and have the potential to increase future costs. The State budget in the current year was not fully balanced and the State's plan to issue deficit bonds is facing legal challenges. Thus, additional mid-year State budget cuts may be proposed by the Governor to balance the current year State budget. In addition, the State has an \$8+ billion deficit going into FY 2004-2005. The federal deficit is now over half a trillion dollars and continues to grow. Given our reliance on federal and State funding, counties remain extremely vulnerable to further reductions in State and federal programs and cuts in local general purpose revenues.

Several other pending factors that could also impact current and future year budgets include:

- General Assistance caseload increases
- Delay in receipt of Realignment revenues
- Unfunded October 7th special election costs
- Public Safety Sales Tax revenue decline
- Escalating employee benefits and retirement costs
- Alameda County Medical Center budget deficits

FY 2004-05 and Beyond

While the County has closed a funding gap of nearly \$140 million this year without significant layoffs, the solution relied on several one-time strategies including Fiscal Management Reward Program savings, liquidation of prior year encumbrances, and suspension of funding for capital projects. The loss of 320 full-time equivalent positions was largely achieved through attrition and Agency/Department Heads' commitment to filling only essential positions.

The economic recovery continues to be sluggish with slow growth in general purpose revenues. The most recent UCLA Anderson forecast reports that California is recovering from the recession more slowly than expected, with faster growth not likely to get under way until well into 2004. While California has lost jobs at a slower pace than the nation, personal income growth has lagged in California. As a result, tax receipts will be less than previously projected. Combined with the pending issues noted above, it is clear that economic recovery will not keep pace with the costs of providing services at both the State and local levels. Therefore, it is critical that departments continue to closely monitor and curtail expenditures and maximize revenues in order to avoid massive program reductions next year. In addition, I am recommending that departments:

- Continue to hold positions vacant, filling only those that are critical to life or safety, mandated or cost effective; and
- Begin prioritizing programs and preparing reduction plans in 5% net county cost increments in anticipation of next year's budget shortfall.

Clearly, counties across the state are faced with a level of fiscal uncertainty that parallels the early 1990s when the recession caused the State to raid local property taxes to satisfy its own budget obligations. Alameda County alone has transferred over \$1.9 billion to the Education Revenue Augmentation Fund (ERAF). As a result, your Board will be faced with more difficult decisions as you weigh growing service demands against declining financing. Agency/Department Heads are to be acknowledged and commended for their diligence in monitoring their spending and revenues and maintaining balanced budgets. I strongly urge them to continue these efforts in anticipation of further funding reductions in FY 2004-2005. We will continue to strive to do more with less while maintaining the highest level of services possible within limited financial resources.

FINANCING:

Final/Amended budget adjustments, as detailed in the attached Financial Recommendations reflect a reduction of \$23.4 million in the VLF revenue estimate; an appropriation increase of \$1.6 million to pay the child support penalty; a reduction of \$10.0 million from the Appropriation for Contingencies; and \$15.0 million reduction in reserves.

The Final/Amended Budget for all funds totals \$1.9 billion and provides funding for 9,006 full-time equivalent positions. The Final/Amended Budget for the General/Grant Funds portion of the budget totals \$1.7 billion and provides funding for 7,302 full-time equivalent positions.

Very truly yours,

Donna Linton, Assistant County Administrator

June 20, 2003

Honorable Board of Supervisors
Administration Building
Oakland, CA 94612

SUBJECT: ADOPTION OF THE 2003-2004 FINAL BUDGET

Dear Board Members:

RECOMMENDATION:

It is recommended that your Board:

1. Approve the allocation of \$240,645 from the Public Benefit Fund: \$100,000 to support four local initiatives as described below, with the balance of the Fund to be distributed equally among supervisorial district budgets;
2. Adopt the policy statements and directives as presented during your Board's final budget deliberations (see Attachment);
3. Adopt the Capital Improvement Plan for 2003-2008;
4. Authorize the Auditor-Controller to make necessary final adjustments and other technical adjustments as presented during the budget hearings and your Board's deliberations;
5. Adopt the Resolutions approving the fees for the County Service Areas, Benefit Assessment Programs, Vector Control Program, Emergency Medical Services Supplemental and Paramedic Supplemental Special Taxes as presented June 17, 2003; and
6. Adopt the 2003-2004 Final Budget.

DISCUSSION/SUMMARY:

The 2003-2004 Final Budget, which incorporates adjustments approved by your Board during budget deliberations, is balanced. The Final Budget for all funds totals \$1.9 billion and provides funding for 9,006 positions. The General/Grant Fund budgets total \$1.7 billion and provide funding for 7,302 full-time equivalent positions.

The Budget closes a \$112.6 million funding gap, the largest since 1993-94, through a combination of program reductions, Fiscal Management Reward Program savings, and countywide strategies. To the extent possible, your Board's Values-Based Budgeting criteria have been used to develop reductions within each program area. The table below summarizes how the funding gap was closed:

General/Grant Funds

Agency/Department	Net Reductions	Fiscal Mgmt. Reward	Total Reductions (millions)	F.T.E. Reduction
Program Reductions:				
General Government	\$ 3.1	\$10.7	\$13.8	37*
Health Care Services Agency	\$14.7	\$14.0	\$28.7	68
Public Assistance	\$20.2	\$ 3.5	\$23.7	101
Public Protection	\$15.5	\$ 6.5	\$22.0	114
Total Program Reductions	\$53.5	\$34.7	\$88.2	320
Countywide Strategies:				
Encumbrances/AFB	\$14.0	\$0.0	\$14.0	---
Capital Projects	\$ 3.4	\$0.0	\$ 3.4	---
Discretionary Countywide Expense	\$ 1.0	\$0.0	\$ 1.0	---
Retirement Adjustment	\$ 6.0	\$0.0	\$ 6.0	---
Total Countywide Strategies	\$24.4	\$0.0	\$24.4	---
GRAND TOTAL	\$77.9	\$34.7	\$112.6	320

*includes Internal Service Fund Departments FTE reduction

Most of the positions eliminated are vacant and Agency and Department Heads are committed to mitigating layoffs if possible through attrition and transfers.

- **Fiscal Management Reward (FMR) Program savings of \$34.7 million** were contributed by the Board of Supervisors and nearly all Agencies and Departments and are included in the reductions noted above. These savings are the direct result of Agency/Department Heads' commitment to prudent fiscal management and their anticipation of budget shortfalls related to the economic downturn and the State budget.
- **Countywide Strategies** contribute \$24.4 million towards the Proposed Budget balancing strategy:
 - Liquidation of prior year encumbrances and a proposed year-end available fund balance provides a total of \$14.0 million in one-time financing.
 - A reduction of \$3.4 million by suspending for one year the Board's policy to allocate one percent of discretionary revenue to Capital Projects.
 - A reduction of \$1.0 million in discretionary countywide funds will further limit expenditures for membership dues, subscriptions, travel, training and equipment.

- A retirement rate reduction of \$6 million results from the Retirement Association's recent decisions and adoption of its 2002 actuarial valuation report, including amortizing the unfunded liability over a 30 rather than 16-year period.

Other countywide strategies were also examined as we struggled to close the funding gap. Some, like reduced work hours, mandatory time-off without pay, or closing County facilities, will require meet and confer with all labor organizations before implementation. These strategies are being pursued in anticipation of further cuts related to State budget actions and to replace one-time funding strategies.

The funding gap was closed using a combination of permanent ongoing program reductions, revenue increases and one-time strategies. Ongoing strategies represent 53.7%, or \$60.5 million; and one-time strategies are 46.3%, or \$52.1 million.

Board Budget Actions

Your Board amended the Proposed Budget by approving the following:

- One-time allocation of \$100,000 from the Public Benefit Fund to support:

\$40,000	Social Services Agency – Mass Enrollment Events
\$38,000	Health Care Services Agency / Public Health – Reducing Health Disparities: Mothers and Babies
\$20,000	Interagency Children's Policy Council – Sexually Exploited Minors Project
\$ 2,000	Health Care Services Agency / Public Health – Oakland/Berkeley Community Action to Fight Asthma

During deliberations, your Board agreed that consideration of any funding adjustments should be deferred pending the outcome of the State Budget, and provided a number of directives to staff, as outlined in the Attachment including:

- Restoring \$727,449 in funding for Probation's community-based organization contracts and for the restoration of 15 beds at Camp Sweeney offset by eliminating 11.17 FTE vacant funded positions in Adult Probation and reducing discretionary services and supplies;
- Establishing a \$300,000 one-time funding pool to provide phase-out support for four Family Assessment contracts and the African Immigrant and Refugee Resource Center to serve CalWORKs clients; and
- Restoring \$1.7 million in proposed Sheriff's Department staffing reductions offset with prior year FMR savings.

State Budget

The outcome of the State Budget remains a major pending factor. Discussions in Sacramento currently slate local governments to take a potentially permanent \$1.2 billion share of budget cuts on top of our annual ERAF property tax shift. Additionally, there is no guarantee that the VLF trigger will be pulled or that the VLF backfill will continue.

As a result, Agency and Department Heads must continue their efforts to curtail spending and pursue additional revenue in anticipation of State Budget actions that will require further budget cuts. In the interim, I will work with your Board, Agency and Department Heads, and other stakeholders to identify countywide strategies and other options for maintaining a balanced budget for 2003-2004 and begin planning for the next fiscal year.

Looking to the Future

Each year, I highlight some of the noteworthy programs and services funded in the new budget to acknowledge the tremendous level of vital services that are provided to our residents. This year, it is far more challenging to celebrate that effort.

Children's Services

Progress continues to be made in providing a full range of services to improve the well-being of children and families – and we are beginning to see real results. The foster care caseload has decreased nearly 15 percent from over 4,100 children and youth in 1999 - 2000 to approximately 3,500 as of June 2003. These reductions come after several years of efforts to develop new programs, such as Another Road to Safety, the Assessment Center and the Kin-GAP Program that are designed to strengthen families and improve the lives of children. Cost savings in the foster care program is a secondary benefit of these programs.

The Budget also uses tobacco master settlement funds to leverage additional Early Periodic Screening Diagnosis and Treatment (EPSDT) funds to expand school-based mental health services. It is anticipated that intervening earlier to provide targeted services to at-risk youth will prevent more serious problems later.

Capital Projects

Construction has begun to transform a vacant County-owned building into Project YES!, a comprehensive youth empowerment center. It is expected that this project will be completed in the budget year. Following an extensive environmental review process, construction will also begin on a 360-bed Juvenile Justice Facility on County-owned land in San Leandro. We also expect to break ground to construct a new East County Courthouse in Dublin.

While we anticipate numerous accomplishments in the upcoming year, we must be mindful of the growing projected budget imbalance that looms ahead. Program costs will continue to grow at a faster pace than revenues over the next several years. Additionally, the use of one-time financing and the outcome of the State Budget will require that we begin immediately to find ways to further reduce expenditures. Preliminary projections suggest a \$75 million budget gap going into the 2004-2005 fiscal year. This gap is projected to grow to almost \$200 million by 2008, using conservative assumptions and without knowing the impact of the State budget.

CONCLUSION

I appreciate and thank Agency and Department Heads for their efforts to curtail expenditures in anticipation of this difficult budget year and for their contributions in achieving a balanced budget. In addition, I would like to acknowledge the guidance and support of the Budget Work Group through the difficult process of developing a reduction strategy that will have the least impact on priority programs and County residents. And, on a final note, I would like to thank your Board for the strong support and leadership you have provided during the 2003-2004 budget process as well as your ongoing commitment to an open and inclusive process that has involved all stakeholders.

Very truly yours,

/s/

FY 2003-2004 FINAL BUDGET BOARD DIRECTIVES

During its final deliberations, the Board of Supervisors provided the following directives to staff:

Probation Department

- Modify the Values-Based Budgeting reduction strategy for the Probation Department to provide for the restoration of \$727,449 in funding for community-based organization contracts and for the restoration of 15 beds and 4.58 FTE at Camp Sweeney. These restorations can be accomplished by eliminating 11.17 FTE vacant funded positions in Adult Probation and reducing discretionary services and supplies. This action will include full restoration to the Youth Service Center and Case Management contracts under the TANF program, and will partially restore funding for Local Service Area contracts, per the recommendation of the County Administrator and the Interim Chief Probation Officer (Attachment 2). These modifications will enable the Probation Department to enhance and restructure juvenile services with priority for truancy and other prevention services provided both by the Probation Department and community-based organizations. Further, your Board requested that the Local Planning Council and Probation Department consider flexible, rather than categorical funding of TANF programs.

Social Services Agency

- Establish a \$300,000 one-time funding pool to partially restore and provide phase-out support for each of four Family Assessment contracts and the contract with the African Immigrant and Refugee Resource Center per the recommendation of the Director of the Social Services Agency (Attachment 3).

Sheriff's Department

- Restore \$1.7 million in proposed staffing reductions financed with \$1.7 million in prior year departmental FMR savings.
- Work with the County Administrator, the General Services Agency Director and the County Counsel to refine and expedite the contracting process required to lease out the Glen E. Dyer Detention Facility to a third party, and report back to the Public Protection Committee (Attachment 4).

Superior Court – George E. McDonald Hall of Justice in Alameda

- Meet with the Presiding Judge of the Superior Court to discuss the feasibility of consolidating court operations by closing the George E. McDonald Hall of Justice in Alameda.

Behavioral Health Care Services – Drug and Alcohol Program

- Establish as a priority, restoration of a total of \$100,000 in funding to two community-based organizations, Mandana Community Recovery Center (Horizon Services, Inc.) at \$40,000 and Community Recovery Services at \$60,000 if the State budget outcome does not result in further reductions to Drug and Alcohol Programs.

Public Defender

- Work with the County Administrator's Office to identify or redirect resources to supplement attorney staffing so that Supervising Attorneys are not required to carry caseloads.

Dear Board Members:

SUBJECT: FISCAL YEAR 2003-2004 PROPOSED BUDGET

Following four years of a steadily improving Alameda County financial outlook, for the second consecutive year I am presenting a Proposed Budget that reflects a deteriorating economy. The effects of a prolonged State and national economic downturn are painfully evident in the FY 2003-04 Proposed Budget that closes a funding gap of \$112.6 million - the largest gap since 1993-94 when the County faced a shortfall of \$172.3 million.

Alameda County's funding gaps over the past 10 years are directly attributable to the State's action in 1992-93 to address its budget deficit by shifting local property tax revenues from local governments to schools. This shift, known as the Education Revenue Augmentation Fund (ERAF), continues today despite an improved economy and unprecedented State surplus in the late 1990s. Alameda County has shifted \$1.6 billion since 1992-93 - the equivalent of about \$230 million per year - to enable the State to balance its budget. With the State now facing a staggering \$38 billion deficit and few signs of economic recovery, counties are once again faced with more cuts in State funding, increasing service demands and declining revenues.

FUNDING GAPS SINCE ERAF INTERCEPT

The Proposed Budget for FY 2003-2004 is balanced based on our current projections of local revenues and spending requirements. However, it **excludes** the potential impact of actions that the State Legislature and Governor may take to close the State's \$38 billion funding gap.

The Proposed Budget reflects significantly lower revenue estimates coupled with major operating cost increases, such as retirement contributions, salaries and benefits, and higher service demands brought on by the depressed economy. To illustrate these trends:

- Property tax revenues are projected to grow only 5% in the budget year as compared to 9-11% percent in the late 1990s.
- Sales tax revenue has declined in the current year by 6% from 2001-02 when the economy was stronger. In addition, Public Safety Sales Tax revenues are projected to be 5% below the budgeted level in the current year and to remain relatively flat next year.
- Motor Vehicle in Lieu revenue, also known as Vehicle License Fees (VLF), is not expected to grow significantly next year; however, the State backfill portion of this revenue is at risk of budget-cutting actions until the State resolves its budget deficit. The loss of this revenue would add another \$65-\$68 million to the \$112.6 million funding gap closed in the Proposed Budget.
- Investment losses portrayed in the County Retirement Association's valuation study are largely responsible for the retirement system's dramatic drop in funded ratio over the past year – from 105.8% in December 2001 to the current under-funded level of 92.5%. This results in a significant increase in the County's contribution to the pension fund, without enhanced benefits.

Unfortunately, most experts do not predict a swift economic turnaround. The Anderson School at UCLA indicates that while the East Bay has been performing well relative to our neighbors, we face the same funding problems and economic issues as the State. In fact, the UCLA Anderson Forecast states that "the largest threat to the recovery of the US, and California in particular, remains the State budget issue. Despite clear warning signs, Sacramento has yet to make tough decisions...In the meantime the deficit continues to grow, with the potential impact on the economy unclear and potentially severe."

Given the multi-year predictions of a slowed economy, the Proposed Budget balances the need to make permanent ongoing reductions whenever practical and the use of one-time funding strategies. My office forecasts a widening gap between County revenues and expenditure requirements over the next five years. We must be cautious about restoring program levels using one-time funds and should regard the one-time strategies as merely allowing for a more gradual decline in program levels rather than as a permanent funding commitment.

OVERVIEW

The Proposed Budget for all funds totals \$1.9 billion, an increase of \$23.1 million, or 1.2% from the 2002-03 Final/Amended Budget. The General/Grant Fund budgets, from which most programs are funded, total \$1.7 billion, an increase of \$33.6 million, or 2.0%, from the Final/Amended Budget.

The proposed workforce of 8,973 full-time equivalent positions for all funds represents a net decrease of 213. The General/Grant Funds support 7,276 full-time equivalent positions, a net decrease of 211. These changes reflect mid-year Board-approved increases of 124 positions, fully offset by revenue, and 337 positions eliminated to help close the funding gap.

The Proposed Budget also provides over \$280 million for contracts with 267 community-based organizations (CBOs), including cost-of-living adjustments for eligible county-funded programs. Organizations include community-based non-profit providers, cities and school districts, and local hospitals including the Alameda County Medical Center. The Proposed Budget provides \$102.4 million for contracts with the Medical Center, including cost-of-living adjustments. A list of all CBO contracts with funding recommendations is contained in the Proposed Budget.

The Proposed Budget also includes a contingency for pending salary and benefits adjustments and a \$3.4 million increase in the General Reserve, consistent with your Board's financial management policies.

Closing the Gap

The Proposed Budget closes an estimated \$112.6 million funding gap that was projected on the Maintenance of Effort (MOE) funding requirement. The funding gap was determined by identifying the difference between the amount of funding needed to maintain existing programs and available financing. The MOE Budget for General/Grant Funds totals \$1.786 billion, an increase of \$93.9 million, or 5.5%. Available revenues total \$1.674 billion, a decrease of \$18.6 million, or 1% .

To the extent possible, your Board's Values-Based Budgeting criteria have been used to develop reductions within each program area. The table below summarizes the total funding reductions and elimination of full-time equivalent (FTE) positions by program area:

General/Grant Funds

Agency/Department	Net County Cost Reductions (millions)	F.T.E. Reduction
General Government	\$ 13.8	36.69*
Health Care Services Agency	\$ 28.7	68.29
Public Assistance	\$ 23.7	100.51
Public Protection	\$ 22.0	131.46
Countywide Strategies	\$ 24.4	----
GRAND TOTAL	\$112.6	336.93

*includes Internal Service Fund Departments FTE reduction

Vacant positions that department heads have not filled in anticipation of a funding shortfall are generally the first to be eliminated. Approximately half, 172 of the total of 336.93 full-time equivalent positions proposed for reduction, are currently filled. Every effort is being made to minimize the impact on individual employees by identifying alternative vacant/funded positions and exploring other options to avoid lay-offs, if possible. It is also anticipated that the loss of positions will require some departments to restructure services and realign functions.

The funding gap has been closed using a combination of permanent ongoing program reductions, revenue increases and one-time strategies.

Ongoing Strategies:

Program Reductions	\$ 49.9
Departmental Revenues	\$ 5.3
Retirement Contribution Adjustment	\$ 6.0
Discretionary Countywide Expense	<u>\$ 1.0</u>

Subtotal – One-Time Strategies	\$ 50.4

Total Balancing Strategies **\$112.6**

Program Reductions

With revenue declining and service demands increasing, Department Heads have been challenged to develop reduction plans within the framework of Values-Based Budgeting priorities. More detailed information is included in the Values-Based Budgeting, Program and Department sections of the Proposed Budget. A general overview follows:

Health Care – Total reduction of \$28.7 million, including the use of \$14.0 million Fiscal Management Reward Program savings, and a reduction of 68.29 FTE positions. Examples of services impacted:

Administration/Indigent Health

- Across-the-board reductions in community-based provider funding may result in an overall, though undetermined, reduction in adult indigent health services.

Behavioral Health

- Across-the board reductions in CBO contract funding may result in fewer services provided by these organizations, including services to adults and children and elimination of CBO provider staff.

- Reduction of beds for acute mental health patients, alcohol and drug users, and adolescents will result in redirecting patients to alternative community programs if bed space is not available.
- Elimination of methadone programs serving former SSI clients will eliminate services to some uninsured clients or cause them to be transferred to transitional detoxification services.

Public Health

- Elimination of positions in Public Health may result in a decrease in the number of home visits for children and families, increase the length of time to respond to referrals, and decrease the number of immunization community outreach activities.

Public Assistance – Total reduction of \$23.7 million, including the use of \$3.5 million Fiscal Management Reward Program savings, and a reduction of 100.51 FTE positions. Many of the proposed reductions will partially or entirely eliminate overmatch in public assistance programs to align expenditures with State/federal funding allocations. Examples of services impacted:

Administration and Finance

- Welfare fraud prevention activities will be reduced by approximately 25% and the District Attorney's Fraud Unit by 15%, resulting in decreased fraud prevention and prosecution activities.

Adult & Aging Services

- Loss of positions will limit the ability to respond to increasing demands for services for elderly and dependent adults.

Children and Family Services

- Reduction in discretionary funds for such items as bus passes and travel expenses for parents to participate in court-mandated activities; access to outside clinicians; respite care for relative caregivers; child abuse prevention services; drug testing and treatment; and community-based emergency response services during evenings, weekends and holidays.

Medi-Cal and Benefits Administration

- Elimination of CalWORKs positions will diminish the Agency's ability to administer basic welfare programs and reduce the ability to connect welfare recipients to jobs.

Workforce and Human Services

- Reductions in the CalWORKs program will reduce social workers and client advocates who assist clients with barriers to employment and connect them to available supportive services, including mental health, substance abuse and domestic violence.
- CalWORKs community-based contract reductions will scale back employment services that help clients find and keep jobs, outreach to families in sanctioned status, and provide vocational assessment and transportation.
- Elimination of drop-in child care services at Self-Sufficiency Centers will require parents to bring their children with them to appointments or make other arrangements; more than 8,000 children per year utilize this service.

Public Protection – Total reduction of \$22.0 million, including the use of \$4.8 million Fiscal Management Reward Program savings, and a reduction of 131.46 FTE positions. Examples of services impacted:

District Attorney and Public Defender

- Reduced attorney and investigator staffing levels may affect the ability to staff smaller branch courts. Specialized prosecutor teams will be reduced, resulting in diminished legal coordination in the investigation and prosecution of some serious offenses, including child sexual abuse and special investigation cases.

Probation Department

- Funding for prevention services provided by community-based organizations will be reduced and redirected to support programs for truants and high-risk youth.
- The Weekend Training Academy program, a community service alternative to detention for youthful offenders, will be eliminated.
- A reduction in the budgeted capacity at Camp Sweeney from 80 to 45 minors may result in higher use of alternative placement options.

Sheriff

- Support services reductions in various Santa Rita Jail programs, including Maximizing Opportunities for Mothers to Succeed (MOMS); out-of-county prisoner pick-up; processing inmates in and out of custody; reduced lobby hours; and the Community Re-Entry Center.
- Other support services reductions may affect services at Eden Township Substation, including parking enforcement and responding to citizen reports.

General Government – Total reduction of \$13.8 million, including the use of \$10.7 million Fiscal Management Reward Program savings, and a reduction of 36.69 FTE positions. Examples of services impacted:

- For most departments, reduced funding for staffing and operating costs will mean fewer staff during peak workload periods, such as processing property tax bills and recordable documents and claims, and conducting elections.
- Many of the reductions in General Government will impact services provided to other County agencies and departments, such as routine building maintenance; a reduced fleet of vehicles for employees conducting County business; classification studies and recruitment for key positions; and maintaining and upgrading countywide automated systems and networks.
- The Community Development Agency will use a staged approach towards the Castro Valley Plan Update and defer development of site and mitigation policies, which may delay addressing some community concerns.

Fiscal Management Reward (FMR) Savings

The Board's Fiscal Management Reward Program allows General Fund departments to carry over savings each fiscal year to be used for budget balancing, one-time expenditures and program enhancements. Through prudent management and careful planning, County agencies/departments have contributed \$33.0 million of their prior year savings towards balancing the budget. While the use of these funds will mitigate more severe program reductions, the full amount of savings may not materialize in future years.

Fiscal Management Reward Program savings contributed towards FY 2003-04 budget balancing:

Health Care Services Agency	\$14.0
General Government	\$10.7
Public Protection	\$ 4.8
Public Assistance	<u>\$ 3.5</u>
Total FMR	\$33.0 million

Countywide Strategies

In addition to program reductions and the use of Fiscal Management Reward savings, countywide strategies contribute \$24.4 million towards the Proposed Budget balancing strategy.

- A retirement rate reduction of \$6 million results from the Retirement Association's recent decisions related to its actuarial valuation report, including amortizing the unfunded liability over a 30 rather than 16-year period.
- A reduction of \$3.4 million by suspending for one year the Board's policy to allocate one percent of discretionary revenue to Capital Projects.
- A reduction of \$1.0 million in discretionary countywide funds will further limit expenditures for membership dues, subscriptions, travel, training and equipment.
- Liquidation of prior year encumbrances and a proposed year-end available fund balance provides a total of \$14.0 million in one-time financing.

Other countywide strategies were also examined as we struggled to close the funding gap. Some, like reduced work hours, mandatory time off without pay, or closing County facilities, will require meet and confer with all labor organizations before implementation. These strategies should be pursued in anticipation of further cuts related to State budget actions and to replace one-time funding strategies. Additionally, the use of General Reserve funds and interest earnings from the Surplus Property Development Trust Fund were reviewed but are not considered prudent if the County wants to earn the highest credit ratings possible. Maintaining the County's limited reserve funds and financial integrity is of paramount importance given the State's deteriorating financial position and declining credit ratings.

State/Federal Budget Impacts

With almost 50% of the County's revenue coming from the State and federal governments, the County must rely on these sources to provide a broad array of services mandated by those governmental entities. Thus, the County is subject to severe cutbacks when the State and/or federal governments suffer significant funding shortfalls.

Federal Funding - While the \$350 billion tax bill recently passed by Congress may provide some relief to taxpayers, the federal government has not addressed an estimated \$300 billion federal deficit. As a result, we remain susceptible to more severe program reductions related to lower federal allocations in future years.

State Budget - The Governor's January budget included a number of proposals to address the State's shortfall of \$34.6 billion. It contained numerous reductions in health, welfare and transportation programs. Of particular significance to counties was a proposal to reduce the Vehicle License Fee (VLF) backfill to cities and counties beginning in February 2003. However, the Legislature failed to enact this and other mid-year proposals, and the VLF backfill payments to counties continue this fiscal year.

In the Governor's May Revision, the estimated funding gap climbed from \$34.6 billion to \$38.2 billion primarily due to caseload and other cost increases, partially offset with higher income and other taxes. The updated budget contains several significant changes from the January proposal, including carrying over \$10.7 billion of the deficit into future years by issuing a deficit financing bond. While the May Revision suggests the VLF trigger will be pulled, there is still no guarantee of continued VLF backfill. The May Revision appears to lessen the impact on local government; however, we remain concerned that until the State makes long-term structural and fiscal reforms, counties remain vulnerable to future raids on limited local resources.

Recommendations

The FY 2003-2004 Proposed Budget represents the commitment of agencies and departments to continue providing vital services to the County's residents within very limited resources. The Proposed Budget is balanced, but will require significant program and service reductions and elimination of over 300 positions. The Proposed Budget reflects the input of members of the Budget Work Group, Agency and Department Heads, and other County stakeholders.

Approximately 45%, or \$50.4 million, of the of the \$112.6 million funding gap has been closed with the use of one-time funds that may not be available in future years. In addition, the County remains extremely vulnerable to additional reductions next year necessitated by the State's actions to address its own unprecedented budget deficit.

As you hold public hearings and deliberate the Proposed Budget, your Board must make some difficult choices. I am confident, however, that with your Board's leadership, Alameda County will maintain the critical balance between service demands and limited financial resources.

Therefore, it is recommended that your Board:

1. Receive the Proposed Budget for FY 2003-2004 for review pending public hearings;
2. Set public hearings on the Proposed Budget to commence on June 16, 2003 at 9:30 a.m. as outlined in Attachment 2; and
3. Schedule public hearings to set charges for Emergency Medical Services, Vector Control, Flood Control Districts, Urban Runoff Clean Water Program, County Service Areas, Fire EMS, Traffic Mitigation and Lead Abatement for Tuesday, June 17, 2003 at 1:30 p.m.

Very truly yours,

GOVERNOR'S MAY REVISION

Vehicle License Fee Backfill: The Governor assumes the VLF trigger will increase the VLF to the pre-1998 level thus allowing the State to cease backfill payments to cities and counties. However, there is backfill guarantee and the flow of VLF revenues remains a concern. VLF revenue represents approximately 24% of Alameda County's discretionary revenue and the Governor's earlier proposed reduction would have reduced this revenue by \$65-68 million.

Realignment: The Governor scaled back his proposal to realign programs and reduced the \$8.3 billion in proposals to \$1.8 billion. Programs now proposed for realignment include Children's System of Care, Integrated Services for Homeless Adults (Mental Health); Child Abuse Prevention, Intervention and Treatment; Foster Care administration and grants; Child Welfare services; Adult Protective Services; CalWORKs grants, employment services and administration. The Governor is proposing to give counties additional discretion in administration of these programs and fund them with increases in the personal income tax for the highest tax bracket and a new tax on tobacco.

Criminal Justice Programs: The May Revision assumes continued funding for the Juvenile Justice and Citizens' Option for Public Safety (COPS), as well as current level of funding for local law enforcement technology and equipment purchases. In addition, a January proposal to impose inflationary adjustments to sliding scale fees for commitments to the California Youth Authority remains. The May Revision also maintains the January proposal to eliminate Standards and Training for Corrections Programs (STC) reimbursements to counties and restores funding for the Commission on Peace Officers Standards and Training budget.

State Mandates: The May Revision continues deferral of payment for mandate obligations for prior years as well as 2003-04. The Governor will pursue suspension or repeal of 34 mandates in 2004-05. Because this reduction was made in 2002-03, no revenue from this source was included in the County's 2003-04 Proposed Budget. However, it represents the loss of approximately \$7.4 million.

Health and Welfare Programs: The Governor proposed to restore a 6.2% reduction in grants for SSI/SSP and CalWORKs. The budget assumes childcare savings from family fee increases, reimbursement rate reductions and eligibility changes. In Health Services, the Governor would shift Medi-Cal accounting from an accrual to a cash basis for a one-time savings; restores funding to continue the Medi-Cal expansion; and delays imposition of Medi-Cal provider rate reductions.

Child Support Penalties: The Governor continues to propose to pass through 25% of the federal penalty for the State's failure to implement a statewide automation system to track child support cases. Alameda County's share would be \$1.6 million and the reduction would have to come from the General Fund.

Transportation: The May Revision transfers Proposition 42 sales tax revenue for transportation projects to fund \$207 million in projects. The remaining Proposition 42 funds would remain in the State's General Fund with an obligation to repay the Transportation Fund by June 30, 2009.

VALUES-BASED BUDGETING PROGRAM PRIORITIES FOR 2003-04

1	Vulnerable populations such as infants, children, young mothers and families, frail elderly and disabled persons who require food, clothing, shelter, and health care.
2	Public safety for all residents of Alameda County through prevention and control of crime and the effective prosecution of criminals, including incarceration and alternatives to incarceration.
3	Control of drug abuse by means of education, prevention, treatment and criminal prosecution.
4	Deliberate budget measures to promote prevention as a corollary to service in addition to a focus on treatment and control.
5	Assurance that essential support services are budgeted whenever priority programs are funded.
6	Encourage and reward programs and services which promise more efficient and effective ways of delivering essential County services.
7	Assure that the minimal level of mandated services will be provided.

1. The Internal Service Fund departments, part of General Government, reduced charges to General Fund departments by \$3.15 million. This is reflected in the individual program totals. The General Government reduction total including the ISF reductions is \$17.3M. General Government also includes the \$1.0M reduction in Countywide Expense.
2. Public Protection FMR includes use of one-time designation of \$0.6 million in the Public Defender's Office.
3. Reduction in estimated Retirement contributions.
4. Internal Service Fund departments reduced by \$4.68 million. Of that amount, \$3.15 million was reduced in the General Fund.

Service Impacts

Values-Based Budgeting adjustments for the Capital Projects Program will reduce General Fund allocations by 40.5% and will have the following programmatic impacts:

- Fewer hazardous materials cleanup projects will be undertaken.
- Safety improvements to the County Administration Building Plaza will be delayed.
- Reduction in the Capital Projects Budget will delay the completion date of certain projects.

Service Impacts

- Reduction in Countywide discretionary funding will limit the County's ability to conduct special studies and management audits; travel and training expenditures will be reduced and fixed asset purchases will be eliminated.
- Use of Fiscal Management Reward Savings will result in the loss of these funds for future one-time needs, such as automation enhancements or upgrades.
- Reduction of temporary service workers will lead to longer processing times of recordable documents and claims.
- Computer purchases and upgrades will be deferred.
- New revenue is anticipated from the Auditor's agreement with AC Transit District for recovery of costs of collection of special taxes, assessments and charges.
- Reduction of funding for the membership services position in EDAB results in reassignment of fund-raising duties which increases workload of other staff.

- Reductions in Discretionary Services & Supplies results in postponement of planned business development material purchases and activities, elimination of membership in several Bay Area business organizations, and reduction in the number of EDAB sponsored and co-sponsored activities.
- New revenue is anticipated from franchise fees, grant funding for Assessment Appeals, Economic Development contributions, and funding for reimbursement of staff costs associated with administration of the Alameda County Tobacco Asset Securitization Corporation.
- Reductions in the Human Resource Services staff will impact the ability of the department to manage benefits, salary studies and surveys in a timely and efficient manner. The salary study portion of the countywide clerical classification study will be delayed. Fewer staff will be assigned to the more complex recruitment and examination duties of the department resulting in a longer timeframe for the hiring of professional staff.
- Reductions to the Conference Center arise from diminished sales of service by the Center resulting from the depressed economic conditions facing Bay Area organizations. The reorganization is part of an on-going evaluation of its mission by the Center so that it can focus on what will give the Department and the County the greatest value and return for investment.
- Reduction in the Registrar of Voters may result in slower customer service at the front counter. All voters in the minor parties (Peace and Freedom, Green, American Independent, Libertarian, and Natural Law) will receive one sample ballot rather than one sample ballot per party. No negative impact is expected from this change. The use of a less expensive Chinese translator will have no negative impact.
- Reduced funding for positions in the Treasurer-Tax Collector's Office will result in slow response time in assisting the public regarding property tax matters and inability to commence business license tax audits.
- Values-Based Budgeting adjustments for the Community Development Agency will delay or eliminate the hiring of administrative support for the Weights and Measures and Planning Departments. The Agency will use a staged approach towards the Castro Valley Plan Update and will delay the start of that effort until later in the fiscal year. Also delayed will be the development of site and mitigation policies for day care facilities, child care facilities, convalescent hospitals, rehabilitation centers and other similar uses in the unincorporated County. The resulting impact will make it more difficult to address community concerns arising in relation to these issues and hindering the siting of these facilities.

Service Impacts

Administration Health

- Across-the-board reduction in community-based provider funding may result in an overall, though undetermined, reduction in adult indigent patient services.
- Eliminating 2.00 vacant full-time equivalent administrative positions should result in minimal service impacts.

Behavioral Health

- Across-the-board reductions in community-based provider contract funding may result in an overall reduction in Behavioral Health Care Services provided by these organizations. An estimated 549 clients, including adults and children, may be affected by this reduction. An estimated 37 community-based provider staff may also be impacted.
- In collaboration with SSA, reduce indirect service expenses such as CalWORKs promotional materials and public education. Instead, the funds will be redirected to pay for steadily increasing direct treatment services used by CalWORKs clients. Direct services will not be reduced. In addition, some services currently claimed against CalWORKs will be shifted to Medi-Cal and Early and Periodic Screening Diagnosis and Treatment.
- Reducing four acute inpatient beds at the John George Pavilion will eliminate 1460 bed days of acute inpatient care. An estimated 200 clients, who would otherwise be hospitalized, will be redirected to alternative community programs. These include John George Psychiatric Emergency Services, Sausal Creek Crisis Services, the Gladman Short-Stay Unit, the Crisis Clinic and Service Teams.

- Reducing 5.00 vacant full-time equivalent positions in the Children's System of Care program will result in loss of flexibility to provide clinical and non-clinical support services to families in critical need. Twenty to twenty-five cases will be absorbed at a level I children's outpatient clinic.
- Reducing 10.00 vacant full-time equivalent positions in the Vocational Program will result in loss of flexibility to provide a broad range of pre-vocational and vocational services to clients with severe persistent mental illnesses. These services include supported employment, individual job coaching, vocational groups at Community Support Centers, work enclaves and work projects, vocational classes, and job development.
- Approximately 24 residential beds intended to serve men with alcohol and/or substance abuse problems provided by the West Oakland Health Council, Inc.'s Center will be restructured to provide less costly services. These beds are not currently in operation as the intended service site is undergoing renovation.
- Reducing funding for the Oakland Independence Support Center (OISC) contract will result in the loss of self-help services to those who are homeless and have persistent mental illness. Approximately 250 clients will be impacted by this reduction.
- Reducing the number of beds purchased from the Starlight Community Treatment Facility from 10 beds to 8 beds will result in the loss of 730 bed days and reduce the ability to respond to adolescents in need.
- Reducing funding for the Public Health Secondary Prevention Consortium will reduce primary prevention services. No direct treatment services are involved with this reduction. Community-based organizations impacted include the East Oakland Boxing Association, Interfaith Prevention Program, and Community Recovery Services.
- Eliminating funding for Methadone Programs serving former SSI clients will eliminate services to 175 clients who annually receive these services. Uninsured clients will be asked to pay for their methadone services, or will be offered transitional detoxification services.
- Reducing HIV prevention services still leaves BHCS providing HIV prevention services above the federally-mandated HIV set-aside level. This reduction to the East Bay Community Recovery Program represents an approximate 20% reduction in the current HIV prevention effort.

- Reducing funding for the Oakland Adult Community Support Center Socialization Program reduces services to the approximately 80 clients with mental illness using the program, including an estimated 40 clients who use the program Monday through Friday each week.
- Reducing 2.00 vacant full-time equivalent positions in the Children's Criminal Justice Program may reduce the amount of content included in Court reports regarding placement and service needs. However, minimum reporting requirements will be maintained.
- Reducing Alcohol and Drug Secondary Prevention - Early Intervention services will lead to reduced services at the Mandana Community Recovery Center that provides services to recovering people and people with co-occurring disabilities. Funding will also be reduced for the Bi-Bett East Bay Recovery Center.
- Reducing 1.00 vacant full-time equivalent position in the Children/Youth Crisis Team results in decreased flexibility to provide services in a school setting and loss of a post hospitalization case management capacity for 15 – 20 children.
- Reduce 0.92 vacant full-time equivalent case manager position at the Eden Adult Community Support Center will result in the loss of capacity to cover the existing and any increased caseload.

Public Health

- Eliminating 4.67 full-time equivalent positions in Administration and 14.5 full-time equivalent positions in Family Health Programs may result in the following service reductions: reduced capacity to provide information systems support, the dispensing of public health information to the community, and intensive case management and support of children in Child Health and Disability Prevention and California Children Services. Most incumbents will be shifted into vacant funded positions. Workload to be absorbed by existing staff.
- Elimination of 11.33 full-time equivalent positions in Field Nursing may result in a decrease in the number of home visits for children and families, an increase in length of time to response to referrals, and a decrease in the number of immunization community outreach activities.
- Elimination of 1.55 full-time equivalent positions in Community Health Services may lead to a decrease in education efforts to reduce teenage smoking and administrative support.

- Elimination of 5.00 full-time equivalent positions in Communicable Disease may result in a decrease in Public Health Lab services to non-County entities, as well as enrollment of children in immunization registry, and screening of children for Chlamydia.
- Elimination of 4.92 full-time equivalent positions in Office of AIDS will result in reduced capacity to provide these services. All positions are currently vacant.
- Reductions in other operating expenses reduce the flexibility to support provision of direct services.

Environmental Health

- The inventory of sites requiring hazardous materials permits will be expanded. Food Inspection Program penalty fee collection efforts will be enhanced through the use of ATM, credit card, and Web-based payment options.
- Elimination of 1.00 vacant Full-time Equivalent Senior Environmental Health Specialist, 0.50 full-time equivalent Information Systems Analyst, and 1.00 full-time equivalent Environmental Health Specialist positions includes the shifting of these costs to the grant fund and the shifting of workload to existing staff. Elimination of 1.00 full-time equivalent Chemist position will result in a reduction in Lab Services. Department may need to contract with private labs on an as needed basis.

Service Impacts

Administration and Finance

- Welfare Fraud activities will be reduced by approximately 25 percent, resulting in decreased fraud prevention activities. Of the total welfare fraud reduction, approximately 15 percent will impact the District Attorney's Welfare Fraud Unit.
- Reductions in full-time equivalent positions in Agency administration will reduce accounting, office administration, personnel support, training, and information technology support for operating departments. In addition, contracted training services for staff will be reduced by half.
- Fewer children and families will gain access to Supplemental Security Income (SSI) services as a result of reductions in contractual support.

Adult and Aging Services

- Elimination of full-time equivalent positions for the Public Guardian and Adult Protective Services will limit the ability of these programs to respond to existing demands for services for elderly and dependent adults, and to expand services as demands increase.

Children and Family Services

- Reduction in budgeted amount for special departmental expenses will limit department's ability to respond to unexpected expenses.
- Funding will be reduced for bus passes and travel expenses for biological parents to participate in court-mandated services. This will limit options for responding to parents' travel needs and may lead to a delay in reunification with their children.
- Reduction in budgeted amount for professional and specialized services will decrease access to outside child welfare clinicians and experts.
- Community-based provider contract reductions for respite care may affect the recruitment and retention of relative caregivers and emergency foster parents, but are consistent with expectations that existing contractors will pursue alternate

sources of funding for these services. However, these reductions could result in fewer placements with relatives, delays in placement, and longer stays in foster care for children.

- Community-based provider contract reduction for child abuse prevention services will decrease the level of this service, but this reduction will be mitigated by the continued funding of such services through contractors selected by the Child Abuse Prevention Task Force.
- Community-based provider contract reduction for drug testing and treatment services will require closer monitoring of these services by Agency staff, and may require the redirection of services to existing contractors.
- Community-based provider contract reduction for emergency response services, which operate during evenings, weekends and holidays, will require that these services be absorbed by Child Welfare staff and by other existing contractors.
- The loss of vacant full-time equivalent Children and Family Services positions will reduce the flexibility to address current and future workload demands. These vacancies occur in administrative support positions for child welfare services and in line staff positions providing direct services to children and families.

Medi-Cal and Benefits Administration

- The elimination of CalWORKs full-time equivalent positions will significantly diminish the agency's ability to administer its basic welfare programs and reduce the effectiveness of efforts to connect welfare recipients to jobs. The impacts of these reductions will include:
 - delays in the timely delivery of benefits to clients;
 - increases in administrative error rates, with the potential for financial sanctions from State and federal governments;
 - elimination of many full-time equivalent positions providing client supports including social workers and client advocates, who help identify clients with barriers to employment and connect them to available supportive services, including mental health, substance abuse, and domestic violence;
 - substantial reductions in the ability to oversee and provide technical assistance to community-based contractors;
 - elimination of General Assistance (GA) services in the main Oakland office at 400 Broadway, requiring GA clients to travel to Eastmont Self-Sufficiency Center; and

- reductions in employment services full-time equivalent positions, resulting in increased caseloads and a reduction in the effectiveness of individual case management, placement and retention services.

Workforce and Human Services

- CalWORKs contract reductions will scale back employment services and restrict availability of funding for community-based providers and others to provide job preparation, placement, and retention services. Clients, who increasingly have greater barriers to employment, will have substantially more limited opportunities to access necessary and appropriate services to help them find and keep a job. These reductions may also further weaken the financial infrastructure and lead to loss of jobs for community-based providers currently providing these services. Specific service reductions will include job placement, retention, and advancement services; outreach to families in sanctioned status; vocational assessment contracts; and transportation contracts.
- Reduction of transportation subsidies will make this support unavailable to clients who are working and have lost cash assistance due to federal time limits.
- Reduction of CalWORKs allocation to the Hayward One-Stop Career Center by 30 percent will reduce the availability of employment assistance services provided to CalWORKs and other clients at the One-Stop Center.
- Elimination of drop-in child care services at Self-Sufficiency centers will require parents to bring their children with them to appointments, make other child care arrangements, or limit their appointments with Social Services Agency staff. More than 8,000 children per year currently utilize this service.

Service Impacts

District Attorney

- Reducing branch operations may impact the District Attorney's ability to staff the smaller branch court facilities.
- Reducing reception services will mean fewer personnel to assist the public when they come into the various offices for assistance and may also make it more difficult to contact attorneys and investigators.
- Eliminates continuous attorney support to the Cold Hit program which coordinates the development and investigation of serious offenses through DNA profile analysis. This lack of legal and factual coordination will result in fewer homicide and sexual assault cases solved and fewer prosecutable cases.
- Elimination of dedicated attorney support to the CALICO child abuse center which coordinates investigations and services to abuse victims. Without this legal advisor to ensure legal integrity of forensic interviews or legal support, guidance and direction, criminal child abuse case development will be more difficult. Consequently, cases may be less well developed resulting in more trials and more children required to testify in court.
- A reduction in investigative services results in fewer inspectors available for special investigations involving complex and sensitive crimes as well as trial support. The reduction of investigator support for cases that are to be tried will affect the ability of the District Attorney's Office to successfully prosecute cases. Historically, there have been more than 8,000 felony cases filed. The reduction will result in fewer inspectors available for trial support, including conducting follow-up interviews, completing necessary investigations and serving subpoenas to ensure witness attendance in court. The remaining inspectors will be required to increase their already overloaded caseload.

Probation

- The reduction of contracts with community-based organizations participating in the Prevention Network will reduce the level of services to at-risk youth. Prevention services include youth service center, case management, and local service area contracts that provide a diverse array of prevention services including counseling, diversion, after-school programming, parenting support/classes, educational support, anger management, drug and alcohol education and gang prevention. These reductions will be used to fund new initiatives, including a Truancy Program, a High-Risk Youth Program, and Intervention and Prevention Programs. Specific reductions in support of these new programs include:

- A 35% decrease in Local Service Area and related contracts. These contracts provide supportive services to youth and families, including counseling, diversion, tutoring, parenting, and information and referral.
- The Weekend Training Academy program (WETA) provides the Juvenile Court and Probation officers with a sanction alternative for youth engaging in misconduct. The program currently serves an average of 212 youth each month. All WETA services will be eliminated and use of detention at Juvenile Hall may increase as a result.
- The elimination of vacant positions in Juvenile Institutions will reduce opportunities for hiring additional staff, and may hinder the department's ability to comply with mandated staffing ratios for Juvenile Hall. In addition, it may lead to increased overtime costs to assure the maintenance of mandated staffing ratios during all shifts.
- The capacity of Camp Sweeney will be reduced from 80 to 60 minors. Camp will remain as a placement option, but will accommodate fewer minors. To the extent they are available, alternative placement options may be more highly utilized as a result. Such alternatives will likely be more distant from the homes of probationers, reducing their contact with families during placement, and may lead to increased costs for placements. In addition, the loss of this option may also lead to longer stays at Juvenile Hall for youth awaiting placement.
- The reduction of janitorial services at Juvenile Hall will require the resumption of programs to involve detained minors in the maintenance of this facility. Juveniles will assume daily facility maintenance duties for detention units, including sweeping, mopping, dusting, and sanitizing bathrooms. This change may degrade the overall cleanliness of Juvenile Hall.
- The redirection of Juvenile Justice Crime Prevention Act revenues to support gender-specific services will enhance service levels for girls under Probation supervision.
- Increased revenues for Targeted Case Management will allow the department to claim expenses related to case management for Medi-Cal eligible individuals and improve access to health insurance.
- The Final Budget adjustment which eliminated vacant funded positions and reduced Discretionary Services & Supplies will limit the ability of the Probation Department to address current workload levels and will reduce available funding for administrative expenditures.

Public Defender

- Eliminating vacant positions will hamper the department's ability to hire support staff and to flexibly staff positions.
- Reducing branch operations may impact the Public Defender's ability to staff the smaller branch court facilities.
- Eliminating the attorney handling on-campus recruitment and interviewing will impact ability to meet affirmative action goals.

Sheriff

- Increase in revenue anticipated from the inmate booking fee increase effective July 1st. This is the fee charged to jurisdictions for placing inmates in the county jail.
- Reducing Sheriffs Technician support to various Santa Rita Jail programs will impact the ability of the Maximizing Opportunities for Mothers to Succeed (MOMS) program to track graduates; and reduce support at the Community Re-entry Center (CRC).
- Reducing funded vacant positions will permanently shift some duties to other staff and reduce staffing flexibility.
- Eliminating the detective support on the Alameda County Regional Auto Theft Task Force will restrict the ability to take a regional approach to preventing and solving these types of crimes.
- Reducing the Parking/Abandoned Vehicle Enforcement Unit will shift duties to remaining staff.
- Eliminating Prisoner Pick-up/Warrant Service Unit, which handles retrieval of inmates from other jurisdictions based on Alameda County warrants, will shift this function to Santa Rita.

Trial Court Funding

- Reduce available funding for court facilities lease increases or facilities projects.

Service Impacts

- Reduction in Risk Management funding results in a decrease in contract services and a reduction in the planned reserves for the liability and workers' compensation programs.
- Information Technology Department upgrades to the County's network will be delayed.
- Motor vehicles will continue to be available; however, during periods of peak demand it may be necessary to lease vehicles.
- Intervals for routine maintenance schedules for county facilities will be extended. There may be some service delays for non-critical equipment. In the short term there is minimal risk to building systems, fire/life safety systems, security systems or sanitation services. However, in the longer term the useful life of some facilities and equipment will be shortened.
- Elimination of vacant funded pay units in the Building Maintenance Department may result in delays in responding to non-critical requests for service, but should result in minimal service impacts presently. However, when new buildings are completed such as the new Juvenile Justice Facility and the East County Hall of Justice, personnel requirements will have to be reevaluated.

MISSION STATEMENT

To provide for the County's short and long-range capital needs for the maintenance, renovation, and new construction of County facilities, and for the conversion of its surplus real property.

MAJOR SERVICES

The Capital Projects Program funds capital projects undertaken and completed by the General Services Agency. In addition, the County's major maintenance, underground tank removal, hazardous materials removal and American with Disabilities Act (ADA) compliance projects are included in the Capital Projects Program.

The Property Development Program, under the supervision of the Community Development Agency, provides direction and oversight to the development of the County's surplus real property assets to ensure they are converted to useful purposes and provide future revenue streams to help fund the County's Capital Projects Program.

SUMMARY OF CHANGES

MAINTENANCE OF EFFORT FUNDING ADJUSTMENTS

The Maintenance of Effort Budget includes appropriations of \$140,391,750, with offsetting revenue of \$121,517,015, and an available fund balance of \$10,559,692 for a net county cost of \$8,315,043. Adjustments for FY 2003-04 result in a net county cost increase of \$21,313.

VALUES-BASED BUDGETING ADJUSTMENTS

Values-Based Budgeting adjustments required to maintain expenditures within available resources include:

VBB Funding Adjustments	Appropriation	Revenue	Net County Cost Inc/(Dec)	FTE
2003-04 MOE Budget	140,391,750	132,076,707	8,315,043	0.00

Subtotal VBB Changes	(3,377,160)	0	(3,377,160)	0.00
2003-04 Proposed Budget	137,014,590	132,076,707	4,937,883	0.00

Service Impacts

Values-Based Budgeting adjustments for the Capital Projects Program will reduce General Fund allocations by 40.5% and will have the following programmatic impacts:

- Fewer hazardous materials cleanup projects will be undertaken.
- Safety improvements to the County Administration Building Plaza will be delayed.
- Reduction in the Capital Projects Budget will delay the completion date of certain projects.

The Proposed Budget includes appropriations of \$137,014,590 with offsetting revenue of \$121,517,015 and an available fund balance of \$10,559,692 for a net county cost of \$4,937,883.

Funding is included for the following projects:

- Alameda County Medical Center Critical Care and Clinics Building at Highland Hospital
- Juvenile Justice Facility
- East County Courthouse
- Castro Valley Library
- Berkeley Courthouse Renovations
- Project YES! Building Renovations
- West Winton Avenue Building Renovations
- Courthouse Square Seismic Retrofit and Renovations
- Auditor Controller's Office Renovations
- Countywide Major Maintenance Projects and five Building Evaluation Reports
- Countywide Hazardous Materials Removal Projects
- ADA Interior Access Compliance Projects

Funding is also included to support the County's Surplus Property Development Program as follows:

- Appropriations and offsetting revenue and available fund balance of \$46,300,000, a decrease of \$6,000,000 at no net county cost. The decrease is due to the projected decline in land sales for the County's surplus properties.

FINAL BUDGET ADJUSTMENTS

Final Budget adjustments in Capital Projects include:

Board/Final Adjustments	Appropriation	Revenue	Net County Cost Inc/(Dec)	FTE
2003-04 Proposed	137,014,590	132,076,707	4,937,883	0.00

2003-04 Approved Budget	137,158,859	132,220,976	4,937,883	0.00

The Final Budget includes appropriations of \$137,158,859 with offsetting revenue of \$121,661,284, and an available fund balance of \$10,559,692 resulting in a net county cost of \$4,937,883.

FINAL/AMENDED BUDGET ADJUSTMENTS

No adjustments are required.

The Final/Amended Budget includes appropriations of \$137,158,859 with offsetting revenue of \$121,661,284, and an available fund balance of \$10,559,692 resulting in a net county cost of \$4,937,883.

MAJOR ACCOMPLISHMENTS IN 2002-03 INCLUDE:

CAPITAL PROJECTS

- Updated the 2002-07 Capital Improvement Plan, identifying 87 projects in the Capital Needs Inventory with funding requirements of over \$1.2 billion, and updated the financial plan based on identified funding sources and priorities.
- Completed the design and EIR/EIS for the construction of the East County Hall of Justice and Juvenile Justice facilities.
- Started seismic upgrade and remodel of Berkeley Courthouse.
- Completed ADA study of court buildings and facilities with recommendations for corrective action.
- Completed the first and second phase of the three-phase feasibility study for the Fairmont Campus in San Leandro to determine the best land use policy.
- Replaced security cell doors, completed ADA upgrades for sidewalks, parking and public entrance, and completed restoration of the housing unit roofs at the Santa Rita Jail.
- Installed a new three-quarter-inch security glass for the detainee sleeping rooms, and installation of perimeter security fence at Juvenile Hall.
- Renovated portions of the Administration Building including the Treasurer Tax Collector, Auditor-Controller's Offices, and the Board of Supervisors' Chamber; waterproofed the exterior of building and completed phase one (escalator removal) of the first floor lobby remodel.

PROPERTY DEVELOPMENT PROGRAM

- Completed conceptual design of the Dublin Transit Center BART garage.

- Secured final entitlements for the Dublin Transit Center, on County surplus property adjoining the Dublin BART station.
- Selected two housing developers to develop 965 units of market rate housing and 112 units of affordable housing on County surplus properties in Dublin.
- Negotiated a Purchase and Sale Agreement and entitlements with IKEA for a 27-acre site in Dublin for \$24 million.
- Sold a 1.5-acre site in Dublin to Bank of America for \$1.5 million.

MAJOR SERVICE AREAS

CAPITAL PROGRAM

Goal:

To plan and construct capital improvements within established budgets and parameters, and in accordance with the best standards of professional practice.

Objectives:

- Plan and construct facility improvements and Capital Projects within established budgets and schedules through 2004.
- Implement a Countywide Green Building policy.
- Begin the construction phase of the new Juvenile Justice Facility and the East County Hall of Justice.
- Complete the construction of the Berkeley Courthouse renovation.
- Complete the renovation and seismic reinforcement of the Washington Township Veterans Memorial Building in Niles.
- Complete the design and construction of the Project YES facility.
- Provide environmental disclosure, support and environmental investigation/remediation services as required for the County's sale of property at Santa Rita and Staples Ranch.
- Achieve final completion and project closeout of the Highland Critical Care and Clinics Building and Parking Garage.
- Continue countywide major maintenance, hazardous materials removal and ADA Interior Access Compliance programs.

PROPERTY DEVELOPMENT PROGRAM**Goal:**

To promote economic development in Alameda County communities and for Alameda County residents.

Objectives:

- Continue entitlement process and disposition of County Surplus Properties in Dublin and at Staples Ranch in Pleasanton.
- Complete the sale of the 27-acre IKEA site in Dublin.

MISSION STATEMENT

To assure that Alameda County's children have a safe, healthy and nurturing family environment, the County will provide leadership in planning, collaborating, and integrating culturally-appropriate services for children and families.

WORKING FOR THE WELL-BEING OF CHILDREN IN ALAMEDA COUNTY: THE RESULTS-BASED CHILDREN'S BUDGET, 2003-2004

What Is a Results-Based Children's Budget?

The goal of this section of the Budget Book is to allow policymakers to see in one place:

- The County's overall goals for children, youth, and families.
- Trend data indicating how well the County is reaching those goals.
- An analysis by program about key factors affecting those trends.
- A listing of all County-funded efforts to address these goals, accompanied by their budget information, a statement of their workload, and a measurement of their performance.

The purpose of a results-based system is to reach consensus as a jurisdiction on desired goals and strategies for attaining them. These strategies, which typically include programs or collaborations funded with public dollars, can then be assessed for overall effectiveness using a set of locally-defined performance measures.

Results-based accountability systems aid public institutions in determining what they want to accomplish, how they will go about doing it, and how to measure whether or not their plans are working.

What Are the Next Steps?

This section of the Budget Book is now in its third year. As departments and agencies have interacted more with this reporting framework, they have created and refined performance measures that are aligned with the countywide outcomes and indicators, and they have collected and reported data on many of these measures.

OUTCOMES FOR ALAMEDA COUNTY'S CHILDREN, YOUTH, AND FAMILIES

Under the guidance of the Interagency Children's Policy Council (ICPC) in 2000, a broad group of community members, parents, community-based providers, County staff, and policymakers worked to define what the County wants and can do for its children, youth and families. The following statements represent the resulting vision of positive, healthy outcomes for children, families, and neighborhoods:

- All children are physically and mentally healthy.
- All children are educated, nurtured, and experience success in a range of rich learning environments.
- All families are economically self-sufficient.
- All children, youth and their families experience community.
- All neighborhoods are safe, stable, and support the families who live there.

Indicators have been selected for measuring the County's progress toward achieving all of these outcomes. The 2003-2004 Results-Based Children's Budget highlights the two outcomes which current County systems are able to address. The two outcomes highlighted in this year's budget are:

- All children are physically and mentally healthy.
- All families are economically self-sufficient.

The following tables present comprehensive information at a glance about each one of these outcome areas and the associated indicators. For each outcome and indicator, the County's current key intervention strategy has been defined by the relevant agency. Within each strategy area, agencies have listed the programs focused on implementing this strategy, alongside their fiscal information and performance measurement data.

As you read this budget, it is crucial to note that:

- Not all County programs and departments are represented here. Information is presented only for those programs that are relevant to a particular indicator and/or which could provide current data.

OUTCOME 1: ALL CHILDREN ARE PHYSICALLY AND MENTALLY HEALTHY AND SAFE

INFANT MORTALITY

STORY BEHIND THE INFANT MORTALITY BASELINE

Infant mortality is the death of a child less than one year of age. It signifies the overall health status of the mothers and their ability to access prenatal care.

In 2000, 193 infants died in the County before their first birthday. Nearly two-thirds of these deaths took place during the first 27 days of the infants' lives. Of these deaths, 26% were African American, 24% were Latino, 23% were White, 16% were Asian and 3% were Native Hawaiian and Other Pacific Islander. Nearly 7% of the infants were identified as two or more races.

County Strategy: Provide multidisciplinary case management services to high-risk children and families via service providers that follow best practice standards of care and protocols on a variety of risk-based behaviors, e.g., substance abuse, HIV screening, Sudden Infant Death Syndrome, and domestic violence.

LOW BIRTH WEIGHT

STORY BEHIND THE LOW BIRTH WEIGHT BASELINE

Low birth weight infants weigh less than 5 lbs. 8 oz. at birth, and are at much greater risk of illness and death. Many factors increase the risk of low weight at birth. Examples include pre-term delivery, maternal smoking and illicit drug use, poor maternal nutrition, young maternal age, older maternal age, low maternal educational attainment, low family income, and late or no prenatal care for mother.

African American mothers are twice as likely to have low birth weight babies as compared with all other ethnic groups. Mothers younger than 20 years of age have the highest risk of a low birth weight baby, followed by mothers ages 35 and above.

County Strategy #1: Provide tobacco use prevention education to pregnant and parenting women via Medi-Cal managed care plans.

Comments: Other strategies with performance measures under development include (1) the MOMS program, which targets low-income incarcerated pregnant women for substance abuse treatment, and (2) the WIC program, which works with community

partners to promote adequate usage of folic acid and other nutritional requirements for pregnant women.

County Strategy #2: Support several community agencies in targeting low-income pregnant women for substance abuse treatment.

Comments: Based on a three-year average, 1998-2000, the rate of low birth weight in Alameda County was 6.8%, one of the highest rates among California's 58 counties. This rate exceeds the Healthy People 2010 national objective of no more than 5%.

TEENAGE BIRTHS

STORY BEHIND THE TEEN BIRTH BASELINE

This chart represents the number of mothers 15 to 19 years old in the County. Teen mothers typically have more difficulty completing their education, have fewer employment opportunities, and are more likely to require public assistance and to live in poverty than their peers. Infants born to teen mothers are at high risk for poor birth outcomes, child abuse, neglect, and eventual behavioral and educational problems.

In 2000-01 the teen birth rate of Latina (74 per 1,000 females ages 15-19), African American (64), and Hawaiian and other Pacific Islander teens (45) was substantially higher than rates for White (14) and Asian (13) teens.

County Strategy #1: Support several collaboratives that seek to prevent teenage pregnancy via prevention education and mentoring.

YOUTH DEATHS**STORY BEHIND THE YOUTH DEATHS BASELINE**

From 1994 through 2001, the number of children who died by violent means decreased from 38 to 7. However, in 2002, the number of children dying by violent means rose to 24. The increase coincides with a rise in crime rates in general in 2002.

County Strategy: In Alameda County, youth deaths by violence are scrutinized and monitored by Supervisor Gail Steele. Each year, the Children's Memorial Committee remembers these children in a public ceremony where a special children's flag is flown and each deceased child's name is read aloud. In addition, County programs work to (1) prevent repeat incidents of child abuse and (2) reduce youth delinquency and violence via the strategies listed.

INCIDENTS OF CHILD ABUSE

STORY BEHIND THE CHILD ABUSE BASELINE

These data reflect cases newly opened for service in each year. Usually, there is a substantiated allegation though some cases are opened because they are referred to Family Preservation Services. Not every instance of substantiated allegation becomes an open case and not all of these cases result in the children becoming dependents of the court.

The rate of child abuse case openings has remained fairly stable over the past four years, varying from 3.0 to 3.5 cases for every 1,000 youth aged 0 through 17.

County Strategy: Provide rapid emergency investigations of child abuse incidents to prevent further abuse and neglect.

Comments: The Another Road to Safety (ARS) initiative will expand the number of emergency response assessments conducted by the County, but will divert families from the formal system to community-based service providers. This initiative is a collaboration between the Department of Health and Human Services, Administration for Youth and Families (ACYF), Alameda County Social Services Agency and the Children and Families Commission, Every Child Counts (ECC). In 2003-04 ACYF has committed \$437,000 and ECC has committed \$1,000,000 towards this effort. ARS has been steadily increasing the number of eligible families and plans to reach its target of 200 families served in 2004.

There were a total of 17 Child Abuse Prevention contractors for 2002-03 and 15 for 2003-04. The program's primary purpose is the prevention, reduction and amelioration of physical and sexual abuse, and/or neglect of children. Services provided include, but are not limited to: parent education, community outreach, case management, counseling, housing, family/individual therapy, in-home support, forensic interviews, and training.

The Child Sexual Assault Unit utilizes the "vertical prosecution" method in which the same prosecutor, investigator, and victim-witness advocate are assigned to the case from arraignment through final disposition thus reducing or eliminating the residual trauma to the child victim through consistent points of contact. Goal is to increase the percentage of cases handled in this manner.

NUMBER OF CHILDREN IN FOSTER CARE

STORY BEHIND THE FOSTER CARE BASELINE

The number of children in foster care in Alameda County increased each year between 1992 and 1996. During the next four years, little change occurred. Since 2000, the foster care population has begun a modest decline. This reduction is due in part to fewer referrals received, an increase in care provided by kin through the KinGap program, and an increase in adoptions being finalized. There may also be other reasons not understood at this time.

County Strategy #1: Provide In-Home Services to keep families intact and prevent placement of children in foster care by implementing a strength-based approach for family maintenance and preservation.

Programs	Agency	Expenditures		Workload		Performance Measure	
		FY 2003 Budgeted	FY 2004 Proposed	FY 2003 Estimate	FY 2004 Estimate	FY 2003 Goal	FY 2004 Goal
Family Preservation	SSA/ DCFS	\$3,613,959	\$3,886,977	323 Children Served	300 Children Served	45% of the Children that Were in Out-of-Home Care are Reunified with Their Family.	50%

Comments: The Family Maintenance caseloads have been stable for a few years since the elimination of non-mandated "voluntary" services in the early 1990s. The program caseload is limited in any given year by the number of Child Welfare Workers assigned to work on these program areas.

The Family Preservation caseload combines back-end and front-end numbers where each sub-program has a different goal: the front-end services are preventive; back-end services support children exiting the system through family reunification.

County Strategy #2: Provide Out-of-Home Services to dependents of the court that result in safe, stable living arrangements. For the first 18 months of placement, the goal is to reunify families. For children who cannot return to families, services include adoption, guardianship, placement with kin, and providing independent living skills (ILSP) for teens. Alameda County is presently establishing a new Kinship Unit in its Long Term Care Department. As a result, we should see a drop in the number of children in foster care by next year.

DAILY POPULATION AT JUVENILE HALL
Average Daily Population
Alameda Co., 1992-2003

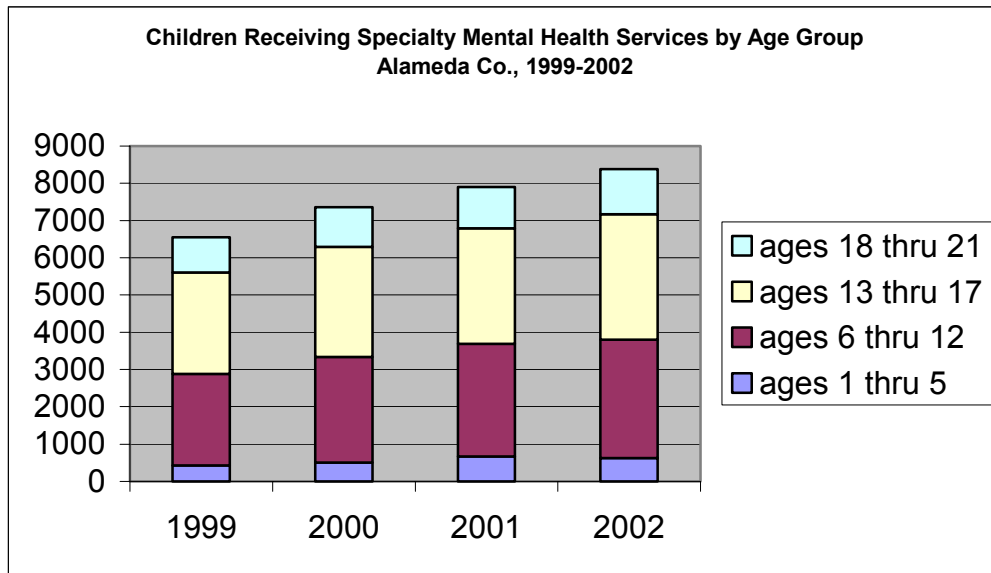

STORY BEHIND AVERAGE DAILY POPULATION AT JUVENILE HALL

The average daily population at Juvenile Hall reached a peak in 1998 and has declined sharply in each subsequent year. Several new policies adopted by the Probation Department have contributed to this trend, including the implementation of a Detention Risk Assessment tool, the expansion of the Community Probation Program, and enhanced efforts to identify placement options for hard-to-place children. In combination, these policies have contributed to a 34 percent decline in the population of Juvenile Hall since 1998.

County Strategy: Protect children by providing a safe and nurturing environment while striving to keep families intact. Maintain levels of protection, supervision and custody commensurate with public safety and legal mandates. (Alameda County Juvenile Justice Complex Needs Assessment and Master Plan)

MENTAL HEALTH SPECIALTY SERVICES

STORY BEHIND THE MENTAL HEALTH SPECIALTY SERVICES BASELINE

Number of children served includes recipients of all mental health specialty services: acute and crisis inpatient care; outpatient services; day treatment programs; medication support. These clients may receive one or more of these types of services by more than one provider over the course of the year. Expansion in population served shown above is a result of EPSDT-funded growth and implementations of MOUs between Behavioral Health Care and Social Services Agency under CalWORKs and Foster Care programs, as well as an MOU with the Children and Families Commission as part of its Early Childhood Mental Health Initiative.

PSYCHIATRIC HOSPITAL ADMISSIONS

STORY BEHIND THE PSYCHIATRIC HOSPITAL ADMISSIONS BASELINE

As a proportion of the overall population of children in Alameda County, the number of clients hospitalized has been reduced, reflecting the priority of Behavioral Health Care to provide services at the least restrictive level. This priority emphasizes preventive and wrap-around services for severely mentally ill children to avoid repeated hospitalizations, and directs high-risk children to programs such as Project Destiny or the ICPC's System of Care project.

County Strategy: Provide a comprehensive network of integrated programs and services for all children with serious psychiatric disabilities in order to minimize hospitalizations, stabilize and manage psychiatric symptoms, and to help them achieve the highest possible level of successful functioning.

OUTCOME 2: ALL FAMILIES ARE ECONOMICALLY SELF-SUFFICIENT

UNEMPLOYMENT RATE

STORY BEHIND THE UNEMPLOYMENT RATE BASELINE

Between 1993 and 2000, the unemployment rate in Alameda County fell 3.5%, from 6.5% to 3.0%. The rate began to rise in 2000, reaching 4.6% and then 6.8% in 2002. Unemployment cycles in Alameda County over the past ten years closely mirror those at the state and national level. However, the County had been doing better than the state and the nation until 2000; in 2002 the County unemployment rate was higher than the state and the nation.

FAMILIES ON CALWORKS

STORY BEHIND THE CalWORKs RECIPIENT BASELINE

After peaking in 1994, the number of families receiving CalWORKs (previously AFDC) has decreased to the levels of the mid-1980s in Alameda County (as well as in the state and nation). Between 1991 and 2002, the number of child clients per 1000 child population fell from 207.9 per 1000 to 73.7 per 1,000. For adults, the rate fell from 33.5 adult clients per 1,000 adults to 8.5 in 2002.

Caseloads continued their downward trend through the implementation of CalWORKs in 1998. But, the trend had clearly begun a few years before. Probable reasons for this decline include dropping birth rates, the economic expansion, and welfare reform.

Children constituted 66% of the caseload in 1991; in 2002, they were 75.6% of the TANF population. The shift represents an increasing number of cases in which only children are being aided. The adults on the case are either non-needy caretakers or adults who have been sanctioned for not complying with CalWORKs regulations.

County Strategy #1: Improve the economic stability and self-sufficiency of needy families via a comprehensive array of supportive services, such as: provision of accurate and timely benefits to eligible CalWORKs families; transitioning these recipients and other unemployed persons into employment via SSA as well as community-based ancillary services; obtaining and enforcing child support orders.

The Department of Child Support Services is a new County department, a State mandated transfer from the former District Attorney's Family Support Division. The department mandates remain the same -- to establish paternity and support orders, and to collect child and spousal support payments effectively and efficiently.

NUMBER OF CHILDREN ENROLLED IN MEDI-CAL

STORY BEHIND THE MEDI-CAL CHILDREN BASELINE

This population represents Medi-Cal only, foster care, and CalWORKs caseloads. This table includes children eligible for all types of Medi-Cal (Medi-Cal only, foster care, and CalWORKs), but it does not include those who qualified for California's Healthy Families Program.

The percent of children eligible for Medi-Cal that are actually enrolled has not been estimated due to lack of data sources. A one-time study conducted by UCLA estimated that in Fiscal Year 00-01, approximately 15% of children eligible for Medi-Cal were not enrolled in California.

County Strategy: Actively enroll and sustain all eligible persons in Medi-Cal to maximize insurance coverage, and systematically advocate for and inform clients of available health care provider and insurance options. Health Administration/Indigent Health is leading several initiatives to increase enrollment.

INTER-AGENCY CHILDREN'S SERVICES

Based on the policy direction and funding commitments of the Board of Supervisors, there are a number of multi-agency collaborative efforts to address the needs of children in the County. In addition to expansion of traditional partnerships between County agencies and departments, new partnerships have been forged with local school districts, County Office of Education, cities, and community-based providers. These collaboratives include:

INTERAGENCY CHILDREN'S POLICY COUNCIL (ICPC) – created to improve outcomes for children and families through major interagency systems reform. The ICPC has developed a range of successful pilot programs that provide small scale models of what systems reform can look like.

OUR KIDS – a collaborative project initiated in FY 1999-2000 among ICPC, Safe Passages, Social Services Agency, Health Care Services Agency, County Office of Education, and the Hayward and Oakland Unified School Districts. The goal is to provide individualized front-end, wrap-around services and support that will prevent children from entering the system, and to support both children and their families in attaining successful educational and life outcomes as well as facilitating and promoting violence prevention activities and education.

PROJECT DESTINY – The Project DESTINY expansion, which began accepting referrals on July 1, 1999, is designed to move children living in group homes and residential treatment into lower levels of care and more family-like settings. The program also aims to prevent children who are currently in foster care from moving to higher levels of care.

BEHAVIORAL HEALTH SYSTEM OF CARE – The System of Care (SOC) mission is to develop community-based, culturally relevant, comprehensive, interagency systems that target seriously emotionally and behaviorally disturbed children separated from their families or at risk of separation from their families. At the core of this approach is working with parents as partners in the treatment of their children. Key guiding principles include maintaining children in their homes with their families whenever possible, and placing children in the least restrictive and least costly setting appropriate to their needs when out-of-home placement is necessary.

SCHOOL-BASED HEALTH CENTER FUND – The mission of the School-Based Health Center Fund (SBHCF) is to support and strengthen the development and sustainability of adolescent school-based and school-linked health centers in Alameda County through a combination of funding, advocacy, information sharing, consultation and technical assistance to ensure that the health centers provide the most comprehensive, high-quality health, mental health, and health education services possible. Seven adolescent SBHCs are operational in Alameda County, supported in part by the Alameda County SBHCF.

ALAMEDA COUNTY HEALTH LINKS PROJECT – a countywide, collaborative effort supported by ICPC, Social Services Agency (SSA), Public Health, Health Care Services, and local CBOs, to educate and increase access to health insurance (Healthy Families, Medi-Cal) for uninsured children and families. Over 10 percent (4,557) of the children formerly without health insurance in Alameda County now have Healthy Families and 2,010 children have been referred to SSA for Medi-Cal services.

EVERY CHILD COUNTS – On November 3, 1998, the voters of California passed Proposition 10, a statewide initiative raising cigarette taxes by 50 cents per pack, to raise new revenues for children from prenatal to age five and their families. Alameda

County's Children and Families Commission, known as the Every Child Counts Program, began in December 1998.

The Strategic Plan, completed in December 1999 describes a vision for a comprehensive system of early intervention services for children and families in Alameda County, and the means to make that vision a reality.

ALAMEDA COUNTY CHILD CARE PLANNING COUNCIL – a unit within the County General Services Agency which provides the research, advocacy, and support necessary for countywide child care planning. They identify, develop, and coordinate public and private resources to help meet the needs of County families, communities, and employers.

MAXIMIZING OPPORTUNITIES FOR MOTHERS TO SUCCEED (MOMS) – This Sheriff's Department program for female inmates provides a myriad of support services that focus on transitioning pregnant women and women with young children back into our communities. The program provides effective pre- and post-release assistance to ensure positive outcomes for these women and their children. Assistance includes, but is not limited to: housing, vocation/educational, accessing mental health, alcohol, and other drug treatment services, developing positive life skills and ongoing case management to support the women and their families.

PROJECT YES! - An effort to transform a vacant County-owned building into a comprehensive youth empowerment center offering programming in the area of health and wellness, arts and culture, and educational and career training.

Service Impacts

- Reduction in Countywide discretionary funding will limit the County's ability to conduct special studies and management audits; travel and training expenditures will be reduced and fixed asset purchases will be eliminated.
- Use of Fiscal Management Reward Savings will result in the loss of these funds for future one-time needs, such as automation enhancements or upgrades.
- Reduction of temporary service workers will lead to longer processing times of recordable documents and claims.
- Computer purchases and upgrades will be deferred.
- New revenue is anticipated from the Auditor's agreement with AC Transit District for recovery of costs of collection of special taxes, assessments and charges.
- Reduction of funding for the membership services position in EDAB results in reassignment of fund-raising duties which increases workload of other staff.
- Reductions in Discretionary Services & Supplies results in postponement of planned business development material purchases and activities, elimination of membership

in several Bay Area business organizations, and reduction in the number of EDAB sponsored and co-sponsored activities.

- New revenue is anticipated from franchise fees, grant funding for Assessment Appeals, Economic Development contributions, and funding for reimbursement of staff costs associated with administration of the Alameda County Tobacco Asset Securitization Corporation.
- Reduction in Risk Management funding results in a decrease in contract services and a reduction in the planned reserves for the liability and workers' compensation programs.
- Information Technology Department upgrades to the County's network will be delayed.
- Motor vehicles will continue to be available; however, during periods of peak demand it may be necessary to lease vehicles.
- Intervals for routine maintenance schedules for county facilities will be extended. There may be some service delays for non-critical equipment. In the short term there is minimal risk to building systems, fire/life safety systems, security systems or sanitation services. However, in the longer term the useful life of some facilities and equipment will be shortened.
- Elimination of vacant funded pay units in the Building Maintenance Department may result in delays in responding to non-critical requests for service, but should result in minimal service impacts presently. However, when new buildings are completed such as the new Juvenile Justice Facility and the East County Hall of Justice, personnel requirements will have to be reevaluated.
- The Community Development Agency will delay or eliminate the hiring of administrative support for the Weights and Measures and Planning Departments. The Agency will use a staged approach towards the Castro Valley Plan Update and will delay the start of that effort until later in the fiscal year. Also delayed will be the development of site and mitigation policies for day care facilities, child care facilities, convalescent hospitals, rehabilitation centers and other similar uses in the unincorporated County. The resulting impact will make it more difficult to address community concerns arising in relation to these issues and hindering the siting of these facilities.
- Reductions in the Human Resource Services staff will impact the ability of the department to manage benefits, salary studies and surveys in a timely and efficient manner. The salary study portion of the countywide clerical classification study will be delayed. Fewer staff will be assigned to the more complex recruitment and examination duties of the department resulting in a longer timeframe for the hiring of professional staff.

- Reductions to the Conference Center arise from diminished sales of service by the Center resulting from the depressed economic conditions facing Bay Area organizations. The reorganization is part of an on-going evaluation of its mission by the Center so that it can focus on what will give the Department and the County the greatest value and return for investment.
- Reduction in the Registrar of Voters may result in slower customer service at the front counter. All voters in the minor parties (Peace and Freedom, Green, American Independent, Libertarian, and Natural Law) will receive one sample ballot rather than one sample ballot per party. No negative impact is expected from this change. The use of a less expensive Chinese translator will have no negative impact.
- Reduced funding for positions in the Treasurer-Tax Collector's Office will result in slow response time in assisting the public regarding property tax matters and inability to commence business license tax audits.

FINAL BUDGET ADJUSTMENTS

Final Budget adjustments result in an increase in net county cost of \$140,645 and 2.85 full-time equivalent positions:

MAJOR ACCOMPLISHMENTS IN 2002-03 INCLUDE:**ASSESSOR'S OFFICE**

- Submitted a timely 2002-2003 local assessment roll of \$133.9 billion, a 7.8% increase from 2001-2002.
- Timely processed all of the 2000 assessment appeal filings, representing over 2,715 applications.
- Continued use of the PVS (Property Valuations System) mass appraisal tool, significantly reduced the number of residential Assessment Appeals.

- Completed implementation of the initial phase of a new relational database, enhancing property tax administration and creating the basis for future efficiencies.
- Exceeded performance obligations with respect to the State/County Property Tax Administration Loan Program.

AUDITOR-CONTROLLER RECORDER AGENCY

- Participated in the successful implementation of the ALCOLINK HRMS system that resulted in the County's conversion to a new Payroll, Benefits, and Human Resource Management system.
- Implemented major components of a new financial reporting system required by the Governmental Accounting Standards Board in compliance with GASB 34.
- Developed, prepared, and updated financial training materials for the ALCOLINK On-Line Library, for use by over 800 countywide users.
- Increased the efficiency of collecting and delivering funds to victims of crimes by automating Central Collections cashiering functions.
- Developed effective strategies to process a record number of Official Public Records at the Clerk-Recorder's Office.
- Earned, for the eighteenth consecutive year, the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officer's Association for our Comprehensive Annual Financial Report, and for the fifth consecutive year, the Award for Excellence for preparation of the State Controller's LGFA Report of Financial Transactions.

COMMUNITY DEVELOPMENT AGENCY

- Amended the Neighborhood Preservation and Junk Vehicle Ordinances to provide further enforcement capabilities. Also added the Building and Housing Code, and portions of the Fire Code to the Ordinance, and amended the Zoning Ordinance to allow for an appeal and abatement process for zoning violations. A Memorandum of Understanding with the Sheriff's Department to provide funding for one Deputy Sheriff to assist Code Enforcement staff with vehicle abatements was also completed.
- Completed formal design of the Ashland/Bayfair Transit Center project, which includes sidewalk, lighting, landscaping and pedestrian bridge improvements between East 14th Street, the Bayfair BART Station, and the Bayfair Mall.
- Hired a full-time Planner to address issues relating to the rural community (e.g. agriculture open space, resource management) to be stationed at the new one-stop agriculture/rural-focused permitting center being built on Greenville Road in

Livermore. Began construction of the Agricultural Resource Center that will provide office and meeting space for the various agricultural related services in the Livermore-Amador Valley.

- Completed an Environmental Impact Report (EIR) for the San Lorenzo Village Center Specific Plan, along with refinements to the Specific Plan itself, and conducted an extensive public review and input process relating to the Plan and EIR.
- At the request of the Board of Supervisors, initiated a North Livermore Intensive Agriculture Study that addresses issues stemming from Measure D.
- Initiated a process to address mandates in Measure D and the General Plan relating to the formation of an East County Land Trust. Established a subcommittee to address land trust issues, created a scope of work to facilitate formation of a trust or trust equivalent, and hired a consultant to carry out the scope.
- Increased home ownership in unincorporated Alameda County, through the Mortgage Credit Certificate Program (MCC); approximately 200 moderate-income families received assistance to become first time homebuyers.

- Completed the 2nd round grant application to the State for Library Construction Bond Act funds to build the proposed new Castro Valley Library.
- Began developing a site plan and conceptual plans for a new or remodeled and expanded San Lorenzo Library.
- Completed bid process for new Bookmobile and selected vendor with new Bookmobile scheduled for delivery in 2003-04.

PUBLIC WORKS AGENCY

Development Services Department

- Modified the building ordinance to include appendix Chapter 31 on flood resistant construction which contributes to Alameda County maintaining its standing in the

Community Rating System, resulting in a 15% reduction in insurance premiums paid for flood insurance by residents of unincorporated areas in Alameda County.

- Improved Building Inspection services by installing the Interactive Voice Response system for scheduling inspections, retrieving inspection results and checking on progress of permit applications, and re-aligning fees for Building Department services to more equitably charge users only for the services they will use for any given project.
- As part of the Agency's creeks and fisheries restoration program, completed the Palomares Creek Restoration Project; completed the San Lorenzo Creek Fisheries Assessment; completed Phase 1 of the Lower Alameda Creek Levee Reconfiguration Project; and the U.S. Army Corps of Engineers completed the Preliminary Restoration Report for the Alameda Creek Fisheries project which is the first step in the 1135 funding program.

Maintenance and Operations Department

- Key Flood Control Program maintenance included the restoration of the flow way through Pond J (Ardenwood 2000); providing Zone 7 with a \$300,000 annual contract to do routine maintenance, which includes vegetation removal, litter removal, chemical weed control, pipe culvert cleaning, and paving of access roads. Public Works Inspectors responded to 43 hazardous material incidents on 27 County roads and 16 flood channels; and restored Zone No. 2 wall and temporarily repaired another wall failure.
- Transportation Program maintenance included the successful consolidation and expansion of the Biennial Inspection of Terminals (BIT) for Alameda County earning a "satisfactory" rating for our Commercial Motor Carrier Safety Program; completed survey of District 1 roads which will make possible a thorough analysis to determine future road maintenance needs; completed the East Castro Valley Boulevard guard rail project for improved safety in the Palomares Hills area; completed chip sealing of 60 miles of roadways; and provided Castlewood Association with road maintenance activities, which include surface, repairs, and erosion repairs, and other emergency road problems that may obstruct safe passage of traffic or pedestrians.

Engineering and Construction Department

- Advertised, awarded, administered, and inspected 13 Flood Control projects to pursue flood carrying capacity valued at \$9.7 million.
- Advertised 6 projects to rehabilitate various roadways and construct new sidewalks, pathways and guardrails using federal, State and local funds; and implemented Traffic Calming Program on 10 community roadways. The program continues to grow as constituents become more actively involved in neighborhood livability and quality-of-life issues.

- The Alameda County Geographic Information System (GIS) completed several milestones this year: Developed parcel layers and database so the current GIS applications may now be used countywide; developed a street centerline layer including address ranges to allow countywide road, traffic and transportation planning applications; implemented countywide high-resolution color imagery; and updated the current intranet GIS application to a countywide application including an emergency response application for the Office of Emergency Services (OES).

Administration and Management Services Department

- Successfully adopted the capital asset reporting requirements of the Government Accounting Standards Board Statement No. 34 by identifying and valuing infrastructure assets as of June 20, 2002. A net book value of \$430 million was established for pump stations, roadways, bridges, signage, traffic signals, streetlights, sidewalks, curbing, flood control systems, lakes and dams.
- The Agency's business outreach efforts focused on increasing the number of contracts awarded to small, local, emerging Alameda County businesses, including disadvantaged, minority and women owned business enterprises.

REGISTRAR OF VOTERS OFFICE

- Successfully implemented new voter-friendly electronic touchscreen voting system in all 782 precincts for the November 5th election.
- Produced absentee and electronic ballots and the Voter Information Pamphlet in three languages – English, Spanish, and Chinese to better serve the 17,000 minority language registered voters in the County.
- Produced a recorded audio ballot that enabled blind voters to vote independently for the first time in a California county.
- Offered voters registered anywhere in the County to vote early during a two-week period before the election by establishing five early voting sites at the Registrar of Voters and at four City Clerk offices for the November 5th Election.
- Offered voters the convenience of becoming permanent absentee voters, thereby eliminating the need for them to apply for an absentee ballot before every election. An additional 45,000 voters took advantage of the option to become permanent absentee voters.
- Completed redrawing of district boundary lines for special districts in time for the candidate filing period for the November 5th election.
- Increased the number of County employee poll workers from 163 to 210 in the November 5th Election which resulted in having all 782 election boards fully staffed with inspectors on Election Day.

- Increased the number of student poll workers from 395 to 600, which resulted in having all of the 782 election boards fully staffed with judges and clerks on Election Day.

TREASURER-TAX COLLECTOR'S OFFICE

- Completed the position study and reclassification of the Tax Collector's Account Clerk IIs to Tax Representative I, II, and III in March 2003.

MISSION STATEMENT

To provide for the development and maintenance of the County financial system so that all County functions may be supported by sound financial practices. These services shall be delivered with respect, consideration, and openness to all.

MANDATED SERVICES

The mandate of the Auditor-Controller Agency is to develop and maintain the County's accounting, payroll, audit, tax analysis, budget and grants, and cost plan systems and procedures. The level of these services is determined by federal and State laws, the County Charter, Administrative Code, ordinances and resolutions, and departmental policy set by the Auditor-Controller, an elected official.

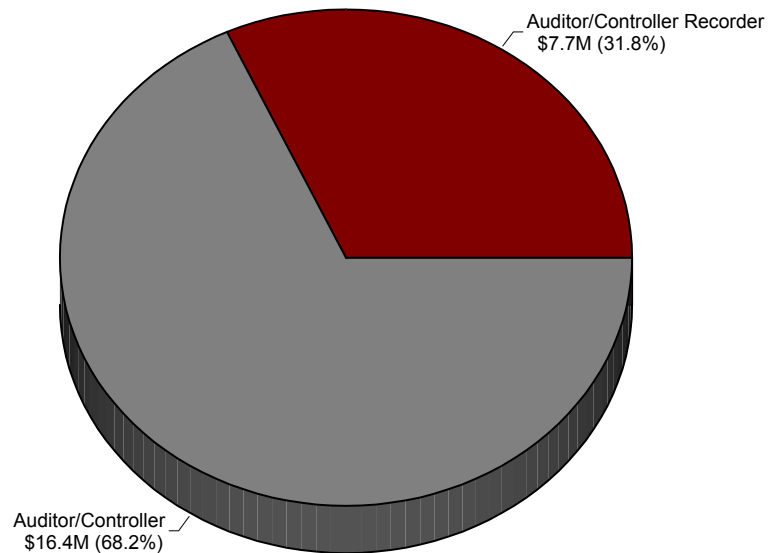

The collection of court-related fines and restitutions, Social Services Agency overpayments, and certain other receivables are mandated by a myriad of State and federal laws and regulations. County resolutions, ordinances, and policies govern the mandate to collect other receivables, such as Medical Center, Public Defender, and environmental fees.

The Office of the Clerk-Recorder provides mandated services established by statute. These include the recording of all recordable documents and maps, collection and distribution of fees and taxes from recording documents and maintenance of the vital statistics register, which includes birth, death and marriage records. There are substantial monetary penalties for non-compliance with requirements for maintaining currency of filing, including triple damages if such delays result in a loss to a property owner.

DISCRETIONARY SERVICES

The Auditor-Controller/Recorder does not provide any discretionary services.

MAJOR SERVICE AREAS**ACCOUNTING/PAYROLL/AUDIT/TAX ANALYSIS/DISBURSEMENT
BUDGET AND GRANT SERVICES**

Accounting Services accounts for all County funds, prepares the annual financial report, maintains County property inventory, processes payments to all vendors, claimants and contractors and maintains budgetary control. Central Payroll prepares and issues the County's employee payroll, processes all payroll deductions, administers disability programs, and maintains the County's payroll records. Audit Services performs internal and external audits, including electronic data processing controls. Tax Analysis computes tax rates, applies them to property tax rolls, and processes tax overpayment refunds. Budget and Grants Services develops the County budget, establishes budgetary controls, and provides accounting services for certain grant and joint powers agreement programs.

Goal:

To maintain the accurate and punctual payment of employee salaries and benefits following the implementation of the ALCOLINK HRMS payroll system.

Objectives:

- Develop and refine new work processes to ensure effective operations.
- Provide continued training and support to Auditor's staff as well as the payroll staff in other County departments.
- Maintain support to Human Resource Services staff to continue the seamless transition of the benefits processing function.

Workload Measure:

CENTRAL COLLECTION SERVICES

Collection Services provides collectors to review referred accounts, screen them for collectability, locate the debtors, and secure payment arrangements. In addition, this staff prepares legal materials to secure judgments in small claims court, locates assets of debtors and proceeds with enforcement of payments of judgments obtained. Accounts eligible for the State tax intercept program are screened and referred for payment of the debt through diversion of tax refund monies from the debtor to the County. Accounting staff insures the proper recording of receivables owed and the payments made. All financial reporting and charge backs to user departments and agencies are the responsibility of this unit. Administrative Support Services provides clerical assistance for the maintenance of files, production of correspondence, input of data and reception personnel.

Goal:

To provide cost effective collection services of outstanding receivables owed to County departments through the use of automation and the realignment of resources.

Objectives:

- Perform an account review to optimize recovery efforts by January 2004.
- Develop alternative payment options to expedite recovery of obligations owed to the County.

COUNTY RECORDER

The Index and Recordable Documents Sections examine documents for acceptability of recording, collect recording fees and transfer taxes, abstract index information from recorded documents, and file subdivision and other maps. The Scanning Section images recorded documents, maintains the scanned image electronic files for public viewing and archival record and assists the public in retrieving images of documents and ordering needed copies. The Vital Statistics/General Business Section acts as the local registrar for marriages, issues certified copies of birth, marriage, death and other recorded documents, and assists the public in record search procedures. It is also responsible for issuing marriage licenses, performing weddings, and filing and registering fictitious business names and certifying notary oaths of office. The Administrative Support unit provides clerical assistance, accounting services, manages mail distribution and processes involuntary liens.

Goal:

To improve computerized systems to help meet significant increased demands for services.

Objectives:

- Upgrade and convert the existing database system.
- Develop programs to improve digital imaging processing times.
- Complete the review of new automated processes.

MISSION STATEMENT

To serve the needs of the community and to enhance the quality of life through the dedication, excellence, and diversity of its employees.

COUNTY CREDO

- Service is built on commitment, responsibility, and accountability.
- Excellence in performance requires courage and a willingness to take risks.
- Good management is professional, efficient, and fiscally responsible.
- People should be treated with respect, dignity, and fairness.
- Opportunity for its work force is fostered by affirmative action and based on merit.
- Common good is achieved by open communication, teamwork, and the involvement of diverse community voices.
- Independence for those in need is developed by programs which foster self-sufficiency.
- Integrity and honesty enable mutual trust.

PROGRAM DESCRIPTION

The Board of Supervisors is the governing body of Alameda County and also serves as the governing board of the Flood Control and Water Conservation District, Alameda County Fire Department, and a number of other public entities. As representatives of the Board, members serve on policy boards of regional and district organizations.

Roles and Responsibilities:

The Board of Supervisors sets policy for County government subject to a variety of changing demands and expectations. Each Board member shares a responsibility to represent the County as a whole, while representing a specific district from which he or she is elected.

Fiscal Responsibilities:

Each Board member is responsible for helping to develop, adopt, and oversee the County budget, balancing expenses against revenues, and reflecting mandated obligations, as well as locally-identified priorities. As a primary management tool, the budget serves as a reflection of values and is subject to adjustment as conditions warrant and collective policy decisions dictate.

Management Responsibilities:

A fundamental responsibility of each Supervisor is participation in the development and, from time to time, modification of policy. While a myriad of factors and forces influence the legislative process, key resources for advice and counsel are available from the County agency/department heads who possess professional knowledge and procedural skill in selecting policy options. An extension of this key function is the oversight of County operations to assure that policy, once adopted, is fully and appropriately carried out by the department heads working with the County Administrator. By working with department heads, both those elected and appointed, the Supervisors can assure themselves and their constituents that policy intent is fulfilled.

Community:

The needs and interests of constituents represent a significant area of responsibility for a Board member. Being available and responsive are high priorities for all Supervisors and consistent with the tradition of good government in Alameda County.

MISSION STATEMENT

To enhance the County's living, working, business and agricultural environment and plan for the future well being of the County's diverse communities; and to balance the physical, economic, and social needs of County residents through land use planning, environmental management, neighborhood improvement, community development, and enforcement of State agricultural and weights and measures laws.

MANDATED SERVICES

Provide staff support to the Board of Supervisors, the Planning Commission and the Lead Poisoning Prevention Program Joint Power Authority. Administer the Surplus Property Authority and the Redevelopment Agency. Prepare, update, and implement the County's General Plan, and administer and update the County's zoning, subdivision, and surface mining ordinances. Conduct environmental, design, and policy review of proposed development projects. Issue and enforce required land use permits and monitor required environmental mitigation measures. Enforce Food and Agriculture Codes; pesticide use enforcement; pest exclusion; pest detection; fruit, vegetable, and egg quality control; nursery and seed inspection; vertebrate and weed pest control; and crop statistics. Verify the accuracy of commercial weighing and measuring devices used in the County. Provide financing, project administration and construction management for housing and neighborhood development programs as mandated by State or federal funding source. Provide case management and environmental investigation of lead poisoned children as mandated by State or federal funding sources. Provide grants and no-interest loans for clean up of lead hazards to landlords and homeowners as mandated by State or federal funding source. Manage the County's demographic and census program.

DISCRETIONARY SERVICES

Discretionary programs with General Fund support include community preservation; support to the Castro Valley Municipal Advisory Council; enforcement of the Neighborhood Preservation Ordinance, Abandoned Vehicle Abatement, and other ordinances; implementation of Redevelopment Plan programs; and the protection of County interests in regional transportation and land use planning efforts.

The Agency provides staff support to numerous County commissions including the Local Agency Formation Commission, the Housing and Community Development Citizens Advisory Committee, the Alameda County Redevelopment Citizens Advisory Committees, the Airport Land Use Commission, the Congestion Management Agency, and the Abandoned Vehicle Abatement Authority. In addition, Agency personnel participate on a variety of State, regional, countywide, and local boards, committees, and task forces in areas related to the Agency's responsibilities and staff expertise. The Agency provides the Economic Development Alliance for Business, other departments, and the public with economic and demographic data.

- Use of Fiscal Management Reward Program savings of \$790,587.

Service Impacts

Values-Based Budgeting adjustments for the Community Development Agency will delay or eliminate the hiring of administrative support for the Weights and Measures and Planning Departments while the Agency evaluates anticipated changes in State funding. The Agency will use a staged approach towards the Castro Valley Plan Update and will delay the start of that effort until later in the fiscal year. Also delayed will be the development of site and mitigation policies for day care facilities, child care facilities, convalescent hospitals, rehabilitation centers and other similar uses in the unincorporated County. The resulting impact will make it more difficult to address community concerns arising in relation to these issues and hindering the siting of these facilities.

The Proposed Budget includes funding for 187.63 full-time equivalent positions at a net county cost of \$5,351,588.

FINAL BUDGET ADJUSTMENTS

No adjustments are required.

The Final Budget provides funding for 187.63 full-time equivalent positions at a net county cost of \$5,351,588.

FINAL/AMENDED BUDGET ADJUSTMENTS

No adjustments are required.

The Final/Amended Budget provides funding for 187.63 full-time equivalent positions at a net county cost of \$5,351,588.

MAJOR SERVICE AREAS**PLANNING DEPARTMENT**

Provide planning, environmental services, development services, and infrastructure improvements for unincorporated communities.

Goal:

To improve the environment and livability of unincorporated neighborhoods.

Objectives:

- Complete a new version of the Eden Area Plan as part of a comprehensive review of the County General Plan to bring it into conformance with State law.

- Initiate review of the Castro Valley Area Plan and the Castro Valley Central Business District Specific Plan, as part of the ongoing update of the General Plan.
- Complete preparation of new Design Guidelines for development in urban unincorporated areas. These guidelines will establish stronger design controls through means such as performance standards, architectural review, and landscaping requirements.
- Initiate a review of billboards in the unincorporated areas of Alameda County; including the abatement and/or legalization of unauthorized placement of billboards.
- Complete an Airport Land Use Policy Plan update, and revise the Project Referral fee structure.
- Respond to citizen complaints regarding code violations and blighted conditions in residential neighborhoods and commercial areas.
- Continue to implement a program to coordinate code enforcement efforts between Zoning Enforcement, Public Works, Environmental Health, Fire and the Sheriff's Departments.
- Continue to monitor surface mining permits and approve appropriate surface mining applications to ensure that mining operations conform to current State and County environmental and other requirements.
- Continue to manage permitting and environmental review for solid waste disposal and management facilities, including sanitary landfills, green waste composting facilities, material recycling facilities, and transfer stations.
- Initiate a comprehensive revision of the County Zoning Ordinance in order to bring it up to date and make it more understandable and user-friendly.

LEAD POISONING PREVENTION DEPARTMENT

The Lead Poisoning Program works with local and statewide organizations to educate the community about the dangers of lead poisoning. With an approach combining health, environmental and residential hazard reduction services, the department maintains a leadership role in statewide, interagency and community collaborations. Its mission is to prevent and reduce the incidence of childhood lead poisoning by:

- Educating the public to the dangers of lead poisoning.
- Providing case management services to lead poisoned children.
- Identifying, reducing and remediating lead hazards.
- Assisting local housing departments in remediating lead hazards.
- Assisting the medical community in identifying and effectively treating lead poisoned children.

Goal:

To prevent childhood lead poisoning and other health related environmental problems.

Objectives:

- Provide property owners within the four County Service Area (CSA) cities with environmental lead evaluation site visits and consultations.
- Provide comprehensive Public Health Nurse Case Management Service to children with elevated blood vessels.
- Provide a home-based environmental intervention and education program to address asthma triggers and safety issues in a home environment.
- Remediate at-risk homes in partnership with local Housing Authorities and city housing departments to integrate lead hazard control with existing housing repair programs.

- Continue economic development activities directed at expanding the base of the lead hazard reduction market, while reducing the cost of lead hazard remediation.

HOUSING AND COMMUNITY DEVELOPMENT

Expand and preserve affordable housing opportunities for low and moderate-income residents and persons with special needs, including homeless populations.

Goal:

To provide safe and affordable housing to Alameda County residents and shelter to the homeless.

Objectives:

- Expand the number of affordable housing units available to low and moderate-income residents.

- Provide rental assistance to people with AIDS countywide to allow them to remain in their housing, through a renewed HUD-funded Special Projects of National Significance grant.
- Provide health and safety repairs to low-income homeowners in the Urban County through a minor home repair and housing rehabilitation program.
- With Housing Opportunities for People with AIDS (HOPWA) funds, support housing information and referral to people with AIDS and related disorders.
- Develop housing with Redevelopment Tax Increment funding. Priorities include new construction of mixed-use projects, single-family and rental housing rehabilitation, first-time homebuyer programs, and senior housing.
- Through contracts with non-profit housing counseling agencies, provide mediation services, investigate complaints of housing discrimination and provide public education about fair housing.

REDEVELOPMENT

To improve the environment and livability of unincorporated neighborhoods.

Goal:

To improve the provision of mandated services.

Objectives:

- Continue construction of the first phase of improvements on East 14th Street; including the undergrounding of all utility lines and the construction of a planted median, widened sidewalks, and new street lighting.
- Initiate design of utility undergrounding for Phases II and III of the East 14th Street/Mission Boulevard improvement project.

- Initiate construction of the Ashland/Bayfair Transit Center projects; including the construction of sidewalk, lighting, landscaping and a pedestrian bridge between East 14th, the Bayfair BART station, and the Bayfair Mall.
- Design sidewalk construction for selected streets in Cherryland.
- Continue to provide architectural design grants and low-interest loans for commercial façade improvements.
- Continue to offer free graffiti abatement services within the County's Redevelopment Project Areas.
- Identify and acquire key development sites in Redevelopment Project Areas through negotiated purchases.
- Assist existing and new businesses in expanding or locating in the unincorporated county.

MISSION STATEMENT

To provide professional, innovative, and proactive leadership to the Board of Supervisors, agency/department heads, and the public through responsible fiscal and administrative policy development and program oversight.

MANDATED SERVICES

The County Administrator's Office provides a number of mandated services including administering American's with Disabilities Act programs. The level of mandated services provided by the Clerk of the Board of Supervisors is determined either by specific statutes, ordinances, policies, or the Board of Supervisors and includes, but is not limited to, attending all Board of Supervisors, Assessment Appeals Board, and Assessment Hearing Officer meetings; codifying the Ordinance Code, County Charter, and Administrative Code; receiving and filing claims, lawsuits, and various petitions; processing property tax administration matters; setting for hearing and processing of planning and other types of appeals; and providing access of information to the Board members, County departments, news media, and the general public regarding the actions and hearings of the Board of Supervisors, Assessment Appeals Board, and Assessment Hearing Officer.

DISCRETIONARY SERVICES

Discretionary services include providing policy recommendations to the Board, preparing annual countywide budget recommendations, monitoring and reviewing all budgetary expenditures and revenues, initiating studies to improve the efficiency and effectiveness of County programs, and administering the County's Risk Management, Capital Projects, Asset Conversion, Debt Financing, Economic Development, Legislation/Grants, Public Information, Diversity Programs, and Cable Television Franchise Authority for the unincorporated areas. Formerly a mandated County function, Local Agency Formation Commission (LAFCo) services are now contracted with the County.

This budget also provides funding for Board-approved countywide programs and services which are considered essential to operations, efficiency and/or the protection of the County, including outside legal services, State and federal legislative advocacy, performance audit program, information systems development, dues/memberships, and special studies.

Service Impacts

- Reduction in Countywide discretionary funding will limit the County's ability to conduct special studies and management audits; travel and training expenditures will be reduced and fixed asset purchases will be eliminated.

- Reducing funding for vacant positions results in continuation of increased workload for existing staff.
- Reducing funding for the membership services position in EDAB results in reassignment of fund-raising duties which increases workload of other staff.
- Reducing Discretionary Services & Supplies results in postponement of planned business development material purchases and activities, elimination of membership in several Bay Area business organizations, reduction in the number of EDAB sponsored and co-sponsored activities, and deferral of computer upgrades and other purchases.
- Increased revenue is anticipated from franchise fees, grant funding for Assessment Appeals, and Economic Development contributions.
- Reduction in Risk Management funding results in a decrease in contract services and a reduction in the planned reserves for the liability and workers compensation programs.

The Proposed Budget includes funding for 59.71 full-time equivalent positions at a net county cost of \$9,665,767.

FINAL BUDGET ADJUSTMENTS

Final Budget adjustments in the Risk Management budget include:

No adjustments were required in the General Fund budgets.

The Final Budget provides funding for 60.71 full-time equivalent positions at a net county cost of \$9,665,767.

FINAL/AMENDED BUDGET ADJUSTMENTS

No adjustments are required.

The Final/Amended Budget provides funding for 60.71 full-time equivalent positions at a net county cost of \$9,665,767.

MAJOR SERVICE AREAS

COUNTY ADMINISTRATOR

The County Administrator's Office reviews and makes funding and policy recommendations to the Board of Supervisors on County program operations and departmental budget requests. The Office also conducts special studies and coordinates the County's Capital Projects, Diversity Programs, Asset Conversion, Debt Financing, Legislation, and Cable Television Franchise Authority activities.

Goal:

To maintain the County's strong credit ratings.

Objectives:

- Secure funding for the construction of a new Juvenile Justice Facility and East County Courthouse through the issuance of long-term debt.
- Review the County's outstanding debt portfolio to identify opportunities to achieve interest rate savings.
- Maintain an effective investor relations program and continue to meet all ongoing legal disclosure requirements.

Goal:

To improve the public's knowledge of County services and programs in order to enhance the general understanding of the role of County government and to cultivate community leaders interested in challenges and issues facing County government.

Objectives:

- Conduct one youth and one adult Leadership Academy during FY 2003-04.
- Update the County's media policy and provide media training to selected County personnel.
- Complete the celebration efforts for the 150th Anniversary of County incorporation in 2003.
- Update the County's film policy.

Goal:

To increase hiring of candidates participating in STEP-UP, the County's severely-disabled hiring program.

Objective:

- Encourage supervisors/managers to hire STEP-UP candidates through an educational and awareness campaign (Windmills Disability Training).

Goal:

To increase the number of reasonable accommodations provided to qualified employees with disabilities.

Objective:

- Promote and provide skills training to provide reasonable accommodation to all employees in supervisorial/managerial positions.

Workload Measures:

Diversity Program	FY 2001 Actual	FY 2002 Actual	FY 2003 Estimate	FY 2004 Estimate
# of Supervisors/Managers Participating in Workshops	n/a	88	60	80
% of Reasonable Accommodations Provided (of Total Requests Received)	30%	48%	40%	45%

ECONOMIC DEVELOPMENT

Economic Development expands countywide economic development efforts by augmenting and coordinating existing city, County and private economic development efforts and by addressing critical infrastructure, workforce development, and business climate issues. The cost of the program is shared by public agencies and the private sector.

Goal:

To increase employer participation and job growth within the region to meet the needs of Temporary Assistance to Needy Families (TANF) recipients.

Objectives:

- Promote advantages for employers to hire TANF job seekers through targeted marketing and outreach initiatives.
- Move current and former CalWORKs recipients from low to higher wage jobs through a pilot post-employment services program.

Goal:

To establish a positive image of the East Bay to encourage business retention and growth as well as new locations for businesses.

Objective:

- Identify business prospects and provide information to businesses looking to expand or locate in the East Bay.

Goal:

To increase capital investment in the East Bay.

Objectives:

- Increase access by East Bay businesses to the County's Industrial Development Bond (IDB) program.
- Through advocacy, promotion and collaboration, increase investment in housing and infrastructure.

Goal:

To improve the East Bay's business and civic leadership.

Objective:

- Develop and implement meaningful Economic Development Alliance for Business events that highlight member leadership, increase member participation and justify value in new and continued membership.

Goal:

To improve mutual coordination of the East Bay's public and private sector institutions to meet the demands of a rapidly changing East Bay economy.

Objectives:

- Provide forward-looking economic information and analysis that is useful to East Bay public and private sector leaders.
- Improve the quality of training and career decision-making process.

*Includes Alameda County Medical Center claims.

**FY 2003 goal not established.

Goal:

To establish a privacy compliance program in accordance with the Health Insurance Portability and Accountability Act (HIPAA) of 1996.

Objectives:

- Conduct interviews with County departments and agencies while performing a physical safeguard review of County worksites.
- Perform analysis of existing County privacy policies and procedures.

- Develop detailed Privacy Implementation Plan.

CLERK OF THE BOARD

The Clerk of the Board assists the Board of Supervisors in the conduct of its business by performing duties mandated by State law, County Charter, Administrative Code and Board directives. The Clerk of the Board is also responsible for managing the property assessment appeals process.

Goal:

To continue to enhance the agenda process for the Board of Supervisors' meetings.

Objective:

- Update the Board Agenda Training Manual and initiate countywide training for departmental staff.

Goal:

To provide updated information about the County's Boards/Commissions.

Objective:

- Complete the audit of the County's Boards/Commissions database.

LOCAL AGENCY FORMATION COMMISSION

The Local Agency Formation Commission (LAFCo) is responsible for coordinating logical and timely changes in local government boundaries, conducting special studies that review ways to reorganize, simplify and streamline governmental structure and preparing a Sphere of Influence for each city and special district within Alameda County. The Alameda County LAFCo is an independent agency jointly funded by the 14 cities, the County and 14 independent special districts. The County provides staff and support to LAFCo under contract.

MISSION STATEMENT

To provide competent, efficient and cost-effective legal representation and advice, thus advancing and protecting the programs and financial resources of the County and its officers, departments, boards, commissions, districts and courts.

MANDATED SERVICES

The Office of the County Counsel is required by law to provide legal services in civil matters to the County and all its departments and agencies. Certain other services are cost effective, in that they reduce the County's financial liability to lawsuits and judgments, or produce revenue to the County in the form of court-ordered attorney fees.

The majority of the departments control the level of legal services provided to them by the Office of the County Counsel. These services cost the departments and agencies less than comparable services would cost if furnished by the private bar.

DISCRETIONARY SERVICES

In addition to the services directly mandated by law, the County Departments have recognized the need for expertise in providing transactional and advisory legal services and have requested that the Office of the County Counsel provide County officials and departments legal advice and assistance on such matters as conflicts of interest and personnel and labor relations issues involving the drafting and interpretation of labor-County memoranda of understanding, salary and fringe benefits provisions, affirmative action, employment discrimination, personnel officer training and employee discipline. Providing these services through County Counsel has resulted in reduced exposure to

liability and litigation expenses based upon the experience and efficiency of County Counsel staff.

The Final/Amended Budget provides funding for 46.09 full-time equivalent positions at a net county cost of \$2,104,717.

MAJOR SERVICE AREAS

Although the diversity of our practice makes it difficult to draw clear-cut functional lines, the legal staff is separated into three divisions:

Advice and Transaction Division – This division is responsible for providing legal advice and conducting transactions (contracts, ordinances, etc.) related to the day-to-day business of the County. The range of this division encompasses representation of the Board of Supervisors, the County Administrator's Office, departments, agencies and County commissions. This division will also conduct and direct litigation in defense of matters unique to these county agencies, departments, boards and commissions.

Social Services Division – This division is responsible for providing legal advice and unique litigation in support of the Social Services Agency. It includes general advice to the Agency and other departments, litigation and other legal support of child welfare, the public guardian, and the public administrator functions.

Advocacy Division – This division is responsible for providing tort, personnel, retirement, collection and other litigation common to most, if not all of the respective department and agency clients. This division complements to some degree the other divisions. Its emphasis is on matters that involve litigation in specific areas and representation of the County departments and agencies before administrative bodies and courts.

Goals and Objectives

To provide a higher level of service and responsiveness to the Board and all its clients. To achieve this goal the Office must develop and strengthen its staff's expertise and specialization in specific areas of law. This will be accomplished by continuing to participate in outside and in-house continuing education programs, by working closely with our clients to improve communication and responsiveness and to continue to update our technology to allow for a more efficient and effective office.

Goal:

To handle standard County contracts completely and efficiently.

Objective:

- Review 90% of standard contracts within one week of receipt from client.

Performance Measure:

Contracts	FY 2001 Actual	FY 2002 Actual	FY 2003 Goal	FY 2004 Goal
% of Standard Contracts Reviewed Within One Week	n/a	n/a	90%	90%

Goal:

To improve the County's capacity to deliver child welfare services through the Courts by securing timely adjudication of jurisdictional findings/dispositional hearings for abused and neglected children.

Objective:

- Handle jurisdictional findings/dispositional hearings within 60 days.

Performance Measure:

% of Jurisdictional Findings/Dispositional Hearings Completed Within 60 Days	n/a	n/a	70%	80%

Goal:

To establish a practice of Elder Abuse law to protect the individuals of Alameda County. The intent of the program is to provide assistance and protection to elderly residents in Alameda County. In coordination with the District Attorney and the Public Guardian, the County Counsel's new program will focus on abuse cases that fall below the level of criminal prosecution.

Objective:

- File petitions of Elder Abuse.

Performance Measure:

Elder Abuse	FY 2001 Actual	FY 2002 Actual	FY 2003 Goal	FY 2004 Goal
# of Elder Abuse Cases Filed	n/a	n/a	n/a	4-5 cases

Goal:

To increase the number of cases which are summarily dismissed by the Court, and thereby lessen the cost per case to Alameda County.

Objective:

- Review and respond to complaints and prepare either demurrer or motion for summary judgment prior to the initiation of formal discovery.

Performance Measure:

Case Management	FY 2000 Actual	FY 2001 Actual	FY 2002 Goal	FY 2003 Goal

- Use of Fiscal Management Reward Program savings of \$560,493.

Service Impacts

- Motor vehicles will continue to be available; however, during periods of peak demand it may be necessary to lease vehicles. The savings calculated for this adjustment are net of projected leasing costs and assumes current demand levels will not change.
- Intervals for routine maintenance schedules for County facilities will be extended. There may be some service delays for non-critical equipment. In the short term, there is minimal risk to building systems, fire/life safety systems, security systems or sanitation services. However, in the longer term, the useful life of some facilities and equipment will be shortened.
- The elimination of vacant funded pay units in the Building Maintenance Department may result in delays in responding to non-critical requests for service, but should result in minimal service impacts presently. However, when new buildings are completed such as the new Juvenile Justice Facility and the East County Hall of Justice, personnel requirements will have to be reevaluated.
- Printing services will continue to be provided with little or no impact in the short term. However, if service requests from County departments increase beyond current levels, more work orders will be outsourced.
- Telephone services will continue at current levels. However, an increase in telephone service requests from County departments will require a fund transfer and may delay response times.
- For reductions to ISF departments resulting from specific user department requests, see service impacts outlined in the individual department summaries.

The Proposed Budget includes funding for 452.17 full-time equivalent positions at a net county cost of \$6,081,647.

MAJOR SERVICE AREAS

BUILDING MAINTENANCE DEPARTMENT (BMD)

BMD provides full maintenance, landscaping and janitorial services for the County-owned buildings. Types of buildings include offices, warehouse, clinics, courts, detention centers, parking structures, veterans buildings, libraries, conference centers, animal shelters, labs, multi-weapon firing/training ranges, emergency vehicle operation center driving tracks, heavy equipment repair facilities, hazardous waste disposal facilities, 911 Emergency Operation Center, Office of Emergency Services, school facilities and mountain-top communications sites.

Goal:

To provide safe and code-compliant buildings for employees and the general public and to provide quality building services to all county buildings.

Objectives:

- Maintain compliance documentation and procedures for Santa Rita Jail in preparation for the 2004 American Correctional Association (ACA) re-certification.
- Maintain compliance documentation for the Juvenile Justice Facility for use in the 2003-2004 Board of Corrections (BOC) certification and the annual health inspection.
- Improve cleaning services to meet established standards and to ensure minimum rating of "satisfactory" across all departments.
- Complete the upgrade of the Computerized Maintenance Management System which tracks work orders received and completed.
- Increase the number of preventative maintenance tasks and thus reduce the number of emergency repairs.

MISSION STATEMENT

To deliver high quality and timely human resource services that respond to the needs of County agencies and departments, special districts, and other customers to enable them to reach their organizational goals.

MANDATED SERVICES

Human Resource Services provides State and local mandated support services to all County departments, agencies and some special districts. Under the purview of the Civil Service Commission, the department provides support services which include merit-based examinations, position classification, certification of eligible candidates, and disciplinary appeals. Under the direction of the Board of Supervisors pursuant to other laws and mandates, the department provides support services including: labor negotiations, unemployment insurance, comprehensive employee services related to benefits, and countywide administration and negotiation of medical, dental, life insurance and all employee benefits.

DISCRETIONARY SERVICES

There are six areas in which Human Resource Services provides discretionary services: departmental personnel support services, work/family programs, training and development, including management of the Conference Center, the Temporary Assistance Program (TAP), ongoing end user support of the Human Resource Management System and the Step-Up Program to recruit and employ the disabled.

2003-04 Proposed Budget	13,166,975	3,186,839	9,980,136	80.62

- Use of Fiscal Management Reward Program savings of \$908,725.

Service Impacts

- Reductions in the Human Resource Services staff will impact the ability of the department to manage benefits, salary studies and surveys in a timely and efficient manner. The salary survey portion of the countywide Clerical Classification Study will be delayed. Fewer staff will be assigned to the more complex recruitment and examination duties of the department, resulting in a longer timeframe for the hiring of professional staff.
- Reductions to the Conference Center arise from diminished sales of service by the Center resulting from the depressed economic conditions facing Bay Area organizations. The reorganization is part of an ongoing evaluation of its mission by the Center so that it can focus on what will give the Department and the County the greatest value and return for their investment.

The Proposed Budget includes funding for 80.62 full-time equivalent positions at a net county cost of \$9,980,136.

FINAL BUDGET ADJUSTMENTS

Final Budget adjustments in Human Resource Services budget include:

Board/Final Adjustments	Appropriation	Revenue	Net County Cost Inc/(Dec)	FTE
2003-04 Proposed	13,166,975	3,186,839	9,980,136	80.62

2003-04 Approved Budget	13,166,975	3,186,839	9,980,136	81.62

The Final Budget provides funding for 81.62 full-time equivalent positions at a net county cost of \$9,980,136.

FINAL/AMENDED BUDGET ADJUSTMENTS

No adjustments are required.

The Final/Amended Budget provides funding for 81.62 full-time equivalent positions at a net county cost of \$9,980,136.

MAJOR SERVICE AREAS

RECRUITMENT AND EXAMINATION UNIT

The Recruitment and Examination Programs conduct the Charter and State Merit System Services and mandated recruitment and testing activities for all County classifications as well as some special districts. Examinations are administered, candidates scored and eligible lists promulgated. In addition, all provisional appointments are reviewed by the Examination Unit to insure all requirements are fulfilled.

CLASSIFICATION UNIT

The Classification Program conducts Charter-mandated review of requests to reclassify existing positions or create new positions for County departments and agencies as well as some special districts to determine the appropriate job title, qualifications and compensation. The Classification Unit also reviews personal services contracts to assess whether the proposed contract service could be provided by County employees.

CERTIFICATION UNIT

The Certification Program, a Charter-mandated activity, validates and processes all County departments' requests, as well as requests from certain special districts, for all Human Resource transactions. The Certification Unit reviews and coordinates the process of identifying individuals who are eligible for employment from a Civil Service list and identifies applicants with specialty designated skills or experience.

Goal:

To deliver products and services at a high standard of excellence that is consistent with professional code of ethics and that assist customers in achieving organizational goals.

Objectives:

- Improve the quality of the potential candidates resulting from the testing process by: 1) completing/updating job analysis studies of County positions to insure examination processes are updated and job related in 100% of the exams conducted and 2) completing classification maintenance studies of County job classifications.
- Expedite the hiring of applicants from Civil Service lists by processing certification within 72 hours of receipt of a completed request.
- Increase the frequency of test administration for difficult to recruit positions.

- Provide easier access to information about open recruitment efforts and the County application process by increased reliance on technology.
- Conduct classification audits of County clerical positions impacted by the implementation of the new Human Resource Management System (HRMS) and reorganization in certain County departments.
- Increase the utilization of the Temporary Assistance Program (TAP) pool.

LABOR RELATIONS

The Labor Relations Program is responsible for the full range of labor relations services including contract negotiations for 34 bargaining units, 16 Memoranda of Understanding, contract administration and implementation, countywide and departmental meet-and-confer sessions, salary administration, and grievance handling and resolution. Additionally, this division is responsible for administration of the County's benefits programs including work/family programs, family medical leave, the telecommuting program, employee service awards, public employee recognition programs, health, dental, life and long-term disability insurance and the Dependent Care Assistance Program. Employee Relations also acts as the County's representative for retirement benefits.

Goals:

To negotiate, implement and administer labor agreements.

To develop, provide and maintain comprehensive benefit programs for County employees.

To establish and maintain a state-of-the-art centralized Employee Services Center that provides the full range of employee benefit administration services.

Objectives:

- Provide training to County managers focused on mandatory subjects of bargaining and learning how to establish sound employee-employer relationships promoting labor peace.
- Negotiate successor labor agreements within three months of expiration or assigned target date for implementation.
- Survey employees and operating departments regarding service provided by the Employee Services Center.

TRAINING AND CONFERENCE CENTER PROGRAMS

The County of Alameda Conference Center is a leading-edge source for technological and innovative learning, promoting growth and development in individuals and their organizations. The countywide program is funded to provide professional development workshops to County managers and employees, as well as organizational consulting regarding countywide program functions. Some of these countywide workshop topics include: Understanding and Valuing Diversity with Respect, Personal Leadership, Performance Management, Sexual Harassment Awareness, Workplace Violence Prevention, Disabilities Awareness, Ergonomics-Basic Workstation Safety, Lead Worker and Effective Supervisor.

In addition, the Training and Conference Center is also responsible for the sales, marketing, operations and management of fee-based services such as conference room space rentals, computer training, and training and organizational consulting to corporate and non-profit organizations, city and district entities, as well as County departments.

Goal:

To promote growth and professional development in individuals and their organizations by offering training seminars, organizational consulting and state-of-the-art technology in Conference Center space.

Objectives:

- Provide training workshops, seminars, and learning interventions focused on leadership, communication skills, problem solving, employment practices, and other identified need areas so that County managers/staff are more effective in providing services to their staff, to co-workers and to the public.
- Provide organizational development services so that organizations can better serve the public and achieve their business/organizational goals.
- Provide computer software training for business operations, thereby increasing productivity of organizations to deliver higher quality services to the public.
- Provide: a) training on public presentations, meeting facilitation and group dynamics/communication and b) meeting space to County departments, to enhance the efficiency and effectiveness of seminars and meetings for County departments.
- Generate revenue to support Conference Center's on-going operation by increasing the utilization of the Conference Center's space and technology by external (non-County) customers, providing the business community with an avenue for communication, networking and training.
- Develop plans for countywide "Developing Future Leaders in Alameda County (Succession Planning) Program" to begin to address future work force needs through the following: a) refining the process to identify employee talent and interest, b) developing a strategy for leveraging needed resources for employee development/growth, and c) identification of automated solutions for tracking/facilitating this effort.

MAJOR SERVICE AREAS

INFORMATION TECHNOLOGY

Information Technology provides support services to departments including systems and programming services for design, development and programming of new applications, enhancements of existing systems, program modification and maintenance. The department also provides computer operations, teleprocessing, network, production, office systems, training and software support services to County departments.

Goal:

To provide systems and programming and office systems support and assistance to enable departments to maintain a high level of service and reduce the cost of government.

Objectives:

- Implement the first phase of the Treasurer-Tax Collector and Auditor-Controller portion of the IMPROVE System by July 2004.
- Continue to support the Social Services Agency with the implementation of the CalWIN Project, which will replace the current Case Data System (CDS) by March 2005.
- Implement electronic check payment options for all tax payments.
- Begin system design for Automated Business License application renewals.
- Develop a system to sell tax defaulted land bidder information packets over the Internet and provide integration with vendor service to conduct on-line auction.
- Develop Intranet integrated tax bill search by name and address.
- Provide technical assistance to support the Treasurer-Tax Collector remittance and cashiering system acquisition by October 2003 including input on request for proposal (RFP) creation.
- Enhance online services search tools so public can quickly and conveniently locate County services.
- Develop solutions to allow citizens to purchase documents online.
- Assist Department of Child Support Services (DCSS) in the conversion of the County BEST system to the state system, CASES.
- Provide support for the County budget system as required to complement changes performed in the PeopleSoft Financials system and the Position Request system by June 2004.
- Provide a Web-based interface to the Budget and Position Request systems in order to improve application usability and facilitate general system access by June 2004.
- Provide a missing persons interface from the County's Automated Warrant System (AWS) to the Department of Justice by June 2004.
- Upgrade ALCOLINK Financial applications to utilize new Web-based PeopleSoft software by June 2004.

CORPUS

The Criminal Oriented Records Production Unified System (CORPUS), is a criminal justice information system, which stores and processes data on adult defendants from the time of booking or complaint through adjudication, sentencing, custody, probation, and release. The system serves 34 agencies in Alameda County.

Goal:

To develop new information systems that put mission critical data directly and quickly in the hands of users, utilizing current technology and appropriate platforms, including centralized and distributed processing.

Objectives:

- Complete implementation of the relational database for use in new applications and ad-hoc reporting.
- Enhance Prop 36 application to support parole cases, out-of-county cases, and incorporate warrant status information.
- Define strategy to deploy Web-based system allowing law enforcement to query criminal case record history with a focus on person summary.
- Build interface to data from Sheriff's fingerprint system and Oakland Police Department's new jail management system.

MAJOR SERVICE AREAS

PUBLIC SERVICES

Public Services provides direct user services for children, young adults, adults, and senior adults and system-wide coordination of quality public services. The services include providing a collection of materials including books, magazines and newspapers, videos, audio-cassettes, compact discs, pamphlets, and automated resources for users of all ages; reference and information services in person and by telephone; Internet access for the public; special programming for children, including the Summer Reading Game and the Booklegger Program which utilizes volunteers to give book talks to school age children; literacy tutoring, including a Jails Literacy Program; and a Senior Outreach Program using volunteers to take library materials to shut-ins.

Goal:

To increase public awareness and use of library services and resources.

Objectives:

- Increase the use of the Library by increasing the number of registered users as a percent of the population.
- Increase the use of the Library by increasing overall and per capita circulation of library materials.
- Increase awareness of the Library, its services and programs by instituting a National Library Week marketing campaign.

MAJOR SERVICE AREAS

AGENCY ADMINISTRATION AND THE MANAGEMENT SERVICES DEPARTMENT

Agency Administration and the Management Services Department provide administrative, personnel, business and fiscal services to the operating departments of the Public Works Agency. Rail development, liaison to the Board of Supervisors, and support for the Art Commission are coordinated by Administration.

The **Contract and Labor Compliance** program creates a “level playing field” for Small, Local, and Emerging Business (SLEB) enterprises as well as actively pursuing contracting, subcontracting, and procurement opportunities for Disadvantaged Business Enterprises (DBE).

The **Crossing Guard Program** helps children safely cross streets and roads as they walk to school.

The **Office of Program and Policy Development** provides community outreach, policy and program formulation, analysis, development and implementation for Transportation, Flood Control, Water Resources, and other public works services.

DEVELOPMENT SERVICES DEPARTMENT

Development Services assists in planning new subdivisions, commercial developments, and infrastructure to support development through the review of development plans and inspection of building construction and land development; assures compliance with building regulations in the unincorporated areas of the County; and coordinates a countywide effort to control stormwater pollution.

The **Building Inspection Division** regulates and inspects all private and commercial building construction in the unincorporated areas.

The **Land Development Division** processes and maintains filed maps and records; reviews drainage plans; administers permit procedures for grading, road, flood, watercourse, and surface mining; administers special drainage area projects; inspects permit construction; and administers and coordinates County Service Areas, State and Federally-mandated and voter-approved programs.

The **Clean Water Division** manages the Alameda Countywide Clean Water Program and the Unincorporated Area and Flood Control District clean water programs and implements surface water programs for monitoring, evaluating and reporting quality and quantity of water.

ENGINEERING AND CONSTRUCTION DEPARTMENT

Engineering and Construction plans, designs, and inspects construction of County roads, bridges, flood control projects; inspects County building architectural projects; functions as the County Surveyor; provides traffic, transportation planning, watershed management, real estate, environmental review and compliance services.

Administrative Services provides consultant contract services, quarterly data evaluation, and administrative and budget support to programs and projects within the Engineering & Construction Department.

Construction Program procures funding reimbursements, administers construction contracts and provides construction, engineering and inspection services for all Road and Flood Control capital improvement projects.

The **Materials Testing Lab** performs material testing for the Department and other agencies and cities.

The **Flood Control Program** protects from flooding or erosion of local streams, channels or other flood control facilities.

The **Road Program** provides transportation planning, design, and traffic engineering of the road network and implements the road capital improvement program.

MAINTENANCE AND OPERATIONS DEPARTMENT

Maintenance and Operations maintains the County's infrastructure, which includes 500 miles of roadway with 153 traffic signals, and 570 miles of flood control works; operates and maintains 22 pump stations and the six bridges that span the Oakland–Alameda estuary; and maintains 370 Agency-owned vehicles and 200 vehicles for other agencies and cities.

Maintenance and Operations services include providing landscape, streetscape and flood control services to the citizens of Alameda County.

Other Public Works and Facilities include street lighting, road maintenance, sewer and estuary bridge County Service Areas (CSAs).

AGENCY-WIDE GOALS & OBJECTIVES

Goal:

To develop, guide, and support pollution control activities that protect and improve the quality of water flowing through County creeks and channels flowing to San Francisco Bay to make the Bay safe for fishing and swimming.

Objectives:

- Implement first year tasks mandated by reissued Non Point Discharge Elimination System (NPDES) stormwater permit (FY 2003- 2008), and continue partnership with Regional Water Quality Control Board for permit period (through FY 2008).
- Participate jointly with and assist other jurisdictions in the Bay Area to share ideas and resources on preventing water pollution.
- In order to provide an environment in which students can learn, share ideas, and express appreciation for the value of healthy watersheds and creek communities, hold teacher training workshops and classroom presentations through Bay Savers, Kids in Creeks, Marshes & Gardens and other Clean Water Program school education activities.

Goal:

To preserve the quality of life of Alameda County residents, enhance commerce, encourage the restoration of natural creeks, provide for better wildlife habitat by reducing the incidence and potential for flooding and erosion through flood control planning, designing, funding, and implementation of the flood control capital improvement program.

Objectives:

- Provide greater flood protection by improving either the capacity or maintenance accessibility of flood control facilities.

- Restore creeks to a natural state with improved wildlife habitat while maintaining the necessary flood protection and adhering to all local, State and Federal regulations.

Goal:

To preserve, enhance, and maintain the mobility and quality of life of County residents and commerce through transportation planning of the road network, improvements to and maintenance of neighborhood streets, and implementation of the road capital improvement program.

Objectives:

- Maximize transportation funding for the unincorporated areas of the County.
- Maintain or increase the condition of pavements; fill potholes on a timely basis and effectively; maximize the pavement rehabilitated within available funding; provide wheelchair accessibility along overlay and reconstruction roadways; and maximize the design lifecycle of roadways.
- Partner with communities to help them regain quality of life through traffic calming designed to reduce speeds, reduce traffic volumes, and improve traffic safety in residential neighborhoods, and to work effectively with communities to help identify, reach consensus on, and install appropriate traffic-calming measures.
- Provide street sweeping services that leave the environment aesthetically pleasing and free of health hazards, and reduce the amount of debris going into the storm drains and into the Bay.
- Provide a high quality sidewalk surface for the unincorporated area residents of the County.

Goal:

To guide and support residential and commercial building construction which is safe, durable, and of the highest utility for its intended use by County citizens.

Objectives:

- Provide convenient plan review, permit issuance, and construction inspection services that meet the needs of those wishing to perform construction activities, regardless of the number of requests received.
- Educate customers regarding safe and durable construction techniques.

MISSION STATEMENT

To seek better ways to provide services to encourage all eligible residents to exercise their right to vote; conduct elections in a fair, accurate and efficient manner; maintain a continuous professional level of service to the public; and develop new techniques to improve outreach services which acknowledge the diversity of Alameda County.

MANDATED SERVICES

The Registrar of Voters is responsible for registering voters and conducting federal, State, County, special, and local elections. The Registrar compiles and maintains the Register of Voters according to voting precinct for use in all elections held within the County. The Registrar prepares the published notices of elections and lists of offices for which candidates are to be nominated. The functions of the Registrar of Voter's Department include: voter registration and list maintenance for over 650,000 registered voters; acceptance of the nominating petitions of candidates for office; recruiting of over 4,000 election officers and 1,000 polling places; preparation of the ballot, election equipment and supplies for use by the election officers at the polls on Election Day.

The Registrar of Voters is also required to establish and revise voting precincts, provide for the tabulation of returns on election night, and conduct the official canvass of votes cast. In addition to elections, the Registrar is required to check the signatures on initiative, referendum, and recall petitions and to provide outreach services to maintain voter registration at the highest possible level.

DISCRETIONARY SERVICES

None.

Service Impacts

- Values-Based Budgeting adjustments for the Registrar of Voters may result in slower customer service at the front counter. All voters in the minor parties (Peace and Freedom, Green, American Independent, Libertarian and Natural Law) will receive one sample ballot rather than one sample ballot per party. No negative impact is expected from this change.

The Proposed Budget includes funding for 41.19 full-time equivalent positions at a net county cost of \$6,559,045.

FINAL BUDGET ADJUSTMENTS

Final Budget adjustments in the Registrar of Voters budget include:

The Final Budget provides funding for 41.90 full-time equivalent positions at a net county cost of \$6,559,045.

FINAL/AMENDED BUDGET ADJUSTMENTS

No adjustments are required.

The Final/Amended Budget provides funding for 41.90 full-time equivalent positions at a net county cost of \$6,559,045.

MAJOR SERVICE AREAS**ELECTION SERVICES****Goal:**

To improve services to voters for elections in 2003-04.

Objectives:

- Produce Chinese and Spanish absentee, electronic ballots, and voter information pamphlets to better serve the approximately 20,000 minority language voters in the County.
- Enhance the recorded audio ballot used in approximately 1,000 precincts so that blind voters can navigate through the ballot.
- Offer a two-week early voting period to voters before elections in 2003-04 by establishing early voting sites at the Registrar of Voters and at up to four city clerks' offices.
- Increase the number of permanent absentee voters by 25% to 75,000 total, to offer more voters the convenience of voting at home without having to reapply for an absentee ballot before every election.
- Increase the number of County employee poll workers by 100% from 210 in the November 5th, 2002 election to 420 in the March 2003 primary to provide better services to residents voting at the polls.
- Increase the number of student poll workers by 17% for a total of 700 to provide full staffing at polling places and to enhance services to voters at the polls.

MISSION STATEMENT

To provide County departments with a central cashiering facility for countywide revenue receipts and disbursements; provide a billing and collecting facility for property and business license taxes; invest monies in the Treasurer's custody in order to earn interest revenues until the monies are required to fund operating expenditures; and administer the County's deferred compensation and 401(a) plans.

MANDATED SERVICES

The California Revenue and Taxation Code (Section 2602) and the County Charter require the Treasurer-Tax Collector to collect and process all property taxes and to receive and secure County revenues from all other sources. County Ordinance #0-91-3 requires that the Tax Collector issue annual business licenses in the County's unincorporated areas and to collect and process business license taxes.

DISCRETIONARY SERVICES

The investment of monies in the Treasurer's safekeeping which remain "idle" until required to fund operations is a discretionary activity which the County undertakes in order to earn interest revenues for the County and its subdivisions. The Treasurer's investment function/activities are governed by Section 53601 of the Government Code of the State of California.

The administration of the County's deferred compensation plan, a voluntary employee-contributory tax-deferred savings plan, is a discretionary activity which the County sponsors in order to provide County employees with another means to supplement their retirement income. The County's deferred compensation plan is authorized and

governed by Section 457 of the Internal Revenue Service Code. The Treasurer also administers the County's 401(a) plan for certain qualified employee groups.

- Use of Fiscal Management Reward Program savings of \$78,163.

Service Impact

- Reduced funding for positions will result in slow response time in assisting the public regarding property tax matters and inability to commence business license tax audits.

The Proposed Budget includes funding for 57.79 full-time equivalent positions at a net county cost of \$3,163,304.

FINAL BUDGET ADJUSTMENTS

No adjustments are required.

The Final Budget provides funding for 57.79 full-time equivalent positions at a net county cost of \$3,163,304.

FINAL/AMENDED BUDGET ADJUSTMENTS

No adjustments are required.

The Final/Amended Budget provides funding for 57.79 full-time equivalent positions at a net county cost of \$1,163,304.

MAJOR SERVICE AREAS**TREASURER-TAX COLLECTOR'S OFFICE**

The Treasurer-Tax Collector's Office is responsible for billing and collecting all property taxes, billing and collecting business license taxes in the unincorporated areas of the County, receiving and accounting for all County monies/receipts, and investment of all County funds in the Treasury while awaiting their use in the operations of the County. Further, the County Treasurer also receives, accounts for, and invests funds of all County school districts and special districts governed by various commissions, local elected boards, and the Board of Supervisors. The County Treasurer administers the County's IRC 401 (a) and 457 deferred compensation plan programs. The Treasurer-Tax Collector generates revenues from charges for the administration of the County's investment pool, charges for the administration of the property tax billing and collection, fees from the sale of copies, tapes, listings, and microfiche of various documents, and reimbursement for the cost of administering the deferred compensation plans.

Goals:

To provide prompt and efficient customer service to Alameda County taxpayers.

To provide prompt and efficient service to County employees who participate in the deferred compensation plans offered by the County.

To replace the Treasurer's remittance processing system (RPS) and equipment and install automated window cashiering and receipting process.

Objectives:

- Continue the position study recommended by the year 2000 organizational and functional audit of remaining positions in the Treasurer's unit in order to determine appropriate descriptive titles that match duties and responsibilities that are unique to the Treasurer-Tax Collector's department.
- Continue to improve the Interactive Voice Response System (IVR) for user-friendliness.
- Continue to explore and improve the electronic tax payment system through the use of current e-commerce technology.
- Conduct the March 2004 Tax Defaulted Property auction sale on the Internet.
- Implement new remittance and cashiering system by October 2003.

MISSION STATEMENT

To provide a reliable supply of high quality water and an effective flood control system to the Livermore-Amador Valley and to develop and manage the water resources in a fiscally responsible, innovative, proactive, and environmentally-sensitive way.

MANDATED SERVICES

Provide treated and untreated water for municipal, industrial, and agricultural uses; and develop and maintain adequate facilities to prevent property loss and damage from floods in the Livermore-Amador Valley Area.

DISCRETIONARY SERVICES

The level of service is discretionary and determined by the elected Zone 7 Board of Directors.

SUMMARY OF CHANGES

MAINTENANCE OF EFFORT FUNDING ADJUSTMENTS

The Maintenance of Effort Budget includes funding for 99.70 full-time equivalent positions at no net county cost. The budget provides funding for administration, flood control and water services to eastern Alameda County residents. There are no General Fund costs associated with Agency operations. The Agency has its own elected Board of Directors, which works cooperatively with the Board of Supervisors. Maintenance of Effort Budget adjustments necessary to support programs in 2003-2004 result in adjustments to appropriations and financing sources of \$3,675,588 and an increase of 4.00 full-time equivalent positions.

FINAL/AMENDED BUDGET ADJUSTMENTS

No adjustments are required.

The Final/Amended Budget provides funding for 100.71 full-time equivalent positions at no net county cost.

MAJOR SERVICE AREAS

FLOOD CONTROL

Flood Control manages a watershed of nearly 620 square miles and maintains 37 miles of flood control channels and access roads. The maintenance program includes repairing slides and erosion; refurbishing access roads and drainage ditches; and coordinating with State and federal agencies for financial assistance. It also manages

the Special Drainage Area 7-1 program, which provides funding from new development for planning, design, and construction of flood control projects.

Goal:

To provide flood control facilities capable of protecting against a 100-year flood event.

Objectives:

- Complete Stream Management Master Plan to develop updated maintenance and capital improvement programs and identify necessary financial support.
- Monitor land use activities to ensure that new urban development adequately addresses potential flood impacts.

Performance Measures:

WATER SUPPLY AND WATER QUALITY

Operates and maintains two water treatment plants, seven wells and the water distribution system. It ensures proper operation of facilities and treatment and distribution of water.

The Water Quality Laboratory provides water quality sampling and testing for regulatory compliance, which include treatment plants, production wells, and distribution system. It performs water quality testing for groundwater monitoring, plant verification, and for special engineering/operations studies. It participates and assists operations and retailers in understanding and resolving water quality concerns.

Goal:

To meet service and quality requirements of Zone 7 customers.

Objectives:

- Deliver treated and untreated water to customers per approved water delivery requests.

- Sample and analyze water in the drinking water system to ensure high quality is maintained.

GROUNDWATER PROTECTION

Groundwater Protection ensures that the basin's groundwater supply is adequately protected; and plan, design, and implement capital projects that involve the protection, production, and replenishment of the basin's groundwater.

Goal:

To protect and manage the groundwater basin.

Objectives:

- Continue implementation of a salt management program to minimize any future salt degradation of the groundwater basin.
- Complete Well Master Plan and supporting environmental documentation for all proposed municipal and industrial wells to be constructed by area build-out.

WATER ENTERPRISE ENGINEERING

Water Enterprise Engineering provides planning and design for capital projects, support to operations for regulatory compliance and coordination of treated and untreated delivery.

Goal:

To reliably provide high quality water.

Objective:

- Complete design and construction of eight million gallons per day expansion at the Patterson Pass Water Treatment Plant.

MAINTENANCE

Provides maintenance and construction services for the entire system including mechanical and electrical services and underground pipeline repair and maintenance.

Goal:

To maintain water operations at a level that is effective and efficient.

Objective:

- Maintain Agency's water production, treatment, and transmission facilities with a minimum of service disruption.

- Use of Fiscal Management Reward Program savings of \$14,000,000.

Service Impacts**Administration Health**

- Across-the-board reduction in community-based provider funding may result in an overall, though undetermined, reduction in adult indigent patients services.
- Eliminating 2.00 vacant full-time equivalent administrative positions should result in minimal service impacts.

Behavioral Health

- Across-the-board reductions in community-based provider contract funding may result in an overall reduction in Behavioral Health Care Services provided by these organizations. An estimated 549 clients, including adults and children, may be affected by this reduction. An estimated 37 community-based provider staff may also be impacted.
- In collaboration with SSA, reduce indirect service expenses such as CalWORKs promotional materials and public education. Instead, the funds will be redirected to pay for steadily increasing direct treatment services used by CalWORKs clients. Direct services will not be reduced. In addition, some services currently claimed against CalWORKs will be shifted to Medi-Cal and Early and Periodic Screening Diagnosis and Treatment.
- Reducing four acute inpatient beds at the John George Pavilion will eliminate 1460 bed days of acute inpatient care. An estimated 200 clients, who would otherwise be hospitalized, will be redirected to alternative community programs. These include John George Psychiatric Emergency Services, Sausal Creek Crisis Services, the Gladman Short-Stay Unit, the Crisis Clinic and Service Teams.
- Reducing 5.00 vacant full-time equivalent positions in the Children's System of Care program will result in loss of flexibility to provide clinical and non-clinical support services to families in critical need. Twenty to twenty-five cases will be absorbed at a level I children's outpatient clinic.
- Reducing 10.00 vacant full-time equivalent positions in the Vocational Program will result in loss of flexibility to provide a broad range of pre-vocational and vocational services to clients with severe persistent mental illnesses. These services include supported employment, individual job coaching, vocational groups at Community Support Centers, work enclaves and work projects, vocational classes, and job development.
- Approximately 24 residential beds intended to serve men with alcohol and/or substance abuse problems provided by the West Oakland Health Council, Inc.'s Center will be restructured to provide less costly services. These beds are not currently in operation as the intended service site is undergoing renovation.

- Reducing funding for the Oakland Independence Support Center (OISC) contract will result in the loss of self-help services to those who are homeless and have persistent mental illness. Approximately 250 clients will be impacted by this reduction.
- Reducing the number of beds purchased from the Starlight Community Treatment Facility from 10 beds to 8 beds will result in the loss of 730 bed days and reduce the ability to respond to adolescents in need.
- Reducing funding for the Public Health Secondary Prevention Consortium will reduce primary prevention services. No direct treatment services are involved with this reduction. Community-based organizations impacted include the East Oakland Boxing Association, Interfaith Prevention Program, and Community Recovery Services.
- Eliminating funding for Methadone Programs serving former SSI clients will eliminate services to 175 clients who annually receive these services. Uninsured clients will be asked to pay for their methadone services, or will be offered transitional detoxification services.
- Reducing HIV prevention services still leaves BHCS providing HIV prevention services above the federally mandated HIV set-aside level. This reduction to the East Bay Community Recovery Program represents an approximate 20% reduction in the current HIV prevention effort.
- Reducing funding for the Oakland Adult Community Support Center Socialization Program reduces services to the approximately 80 clients with mental illness using the program, including an estimated 40 clients who use the program Monday through Friday each week.
- Reducing 2.00 vacant full-time equivalent positions in the Children's Criminal Justice Program may reduce the amount of content included in Court reports regarding placement and service needs. However, minimum reporting requirements will be maintained.
- Reducing Alcohol and Drug Secondary Prevention - Early Intervention services will lead to reduced services at the Mandana Community Recovery Center that provides services to recovering people and people with co-occurring disabilities. Funding will also be reduced for the Bi-Bett East Bay Recovery Center.
- Reducing 1.00 vacant full-time equivalent position in the Children/Youth Crisis Team results in decreased flexibility to provide services in a school setting and loss of a post hospitalization case management capacity for 15 – 20 children.
- Reduce 0.92 vacant full-time equivalent case manager position at the Eden Adult Community Support Center will result in the loss of capacity to cover the existing and any increased caseload.

Public Health

- Eliminating 4.67 full-time equivalent positions in Administration and 14.5 full-time equivalent positions in Family Health Programs may result in the following service reductions: reduced capacity to provide information systems support, the dispensing of public health information to the community, and intensive case management and support of children in Child Health and Disability Prevention and California Children Services. Most incumbents will be shifted into vacant funded positions. Workload to be absorbed by existing staff.
- Elimination of 11.33 full-time equivalent positions in Field Nursing may result in a decrease in the number of home visits for children and families, an increase in length of time to response to referrals, and a decrease in the number of immunization community outreach activities.
- Elimination of 1.55 full-time equivalent positions in Community Health Services may lead to a decrease in education efforts to reduce teenage smoking and administrative support.
- Elimination of 5.00 full-time equivalent positions in Communicable Disease may result in a decrease in Public Health Lab services to non-County entities, as well as enrollment of children in immunization registry, and screening of children for Chlamydia.
- Elimination of 4.92 full-time equivalent positions in Office of AIDS will result in reduced capacity to provide these services. All positions are currently vacant.
- Reductions in other operating expenses reduce the flexibility to support provision of direct services.

Environmental Health

- The inventory of sites requiring hazardous materials permits will be expanded. Food Inspection Program penalty fee collection efforts will be enhanced through the use of ATM, credit card, and Web-based payment options.
- Elimination of 1.00 vacant full-time equivalent Senior Environmental Health Specialist, 0.50 full-time equivalent Information Systems Analyst, and 1.00 full-time equivalent Environmental Health Specialist positions includes the shifting of these costs to the grant fund and the shifting of workload to existing staff. Elimination of 1.00 full-time equivalent Chemist position will result in a reduction in Lab Services. Department may need to contract with private labs on an as needed basis.

FINAL BUDGET ADJUSTMENTS

FINAL/AMENDED BUDGET ADJUSTMENTS

No adjustments are required.

The Final/Amended Budget includes funding for 1,086.52 full-time equivalent positions at a net county cost of \$76,142,906.

MAJOR ACCOMPLISHMENTS IN 2002-2003 INCLUDE:**BEHAVIORAL HEALTH SERVICES (BHCS)****Adult Service System**

- Opened Sausal Creek, a Crisis Stabilization Center located in Oakland. This service allows individuals in crisis to seek services earlier in the course of their illness, provides an alternative to expensive hospital based services, and will reduce over-utilization of emergency room services.
- Opened a 14-bed Voluntary Short Stay Unit at Gladman Mental Health Rehabilitation Center as an alternative to involuntary hospitalization for clients in need of acute care.
- Continued implementation of C.H.A.N.G.E.S. Program to link people with the co-occurring disorders of mental illness and chemical use and abuse to community treatment programs and reduce their continued inappropriate (and ineffective) use of emergency services.
- Fully implemented the Substance Abuse and Crime Prevention Act of 2000 (Prop 36). Over 3,500 people have been actively involved in treatment in lieu of incarceration. First year outcome data has shown a reduction of jail recidivism and successful completion of treatment for chemical dependence.
- Continued consumer and family empowerment efforts consistent with State and federal best practice initiatives:
 - Wellness and Recovery Action Plan (WRAP) training provided to consumers, their treating clinicians, their families and others in their support systems in order to articulate their service needs during crises, and to define their plans for steps toward recovery.
 - In collaboration with the Mental Health Association, and multiple Families Groups, developed a "Quick Guide for Caregivers of Relatives and Friends with Mental Illness." It is available to families, the community, and to police agencies that often are the initial point of contact for acute episodes and involuntary treatment.

Infant, Child and Youth Services

- Expanded Infant, Child, and Youth Behavioral Health Services through maximizing Medi-Cal EPSDT (Early Periodic Screening Diagnosis and Treatment) Funding:
 - Developed a coordinated expansion strategy using priorities (approved by the Board of Supervisors) established with the Children's Advisory Committee of the Mental Health Board and the EPSDT coordinating committees.
 - Increased school-based services
 - Expanded the Infant Mental Health Program
- Opened Unit 1 at Juvenile Hall to provide mental health enriched services to youngsters in the Hall with special behavioral health needs, and began providing substance abuse intervention services at Juvenile Hall.
- Implemented a more effective and accountable process for prescribing and monitoring medications for children and youth who are wards of the court who have serious emotional disturbances by making the services of a consulting child psychiatrist available to child welfare workers, public defenders, and the courts.

ENVIRONMENTAL HEALTH

- 250 teachers from Oakland Unified School District, Early Childhood Program from 46 sites completed nutrition, gardening, and food safety training and are now implementing a nutrition program with 400 children attending.
- Four after-school programs located in West Oakland provided outreach services to an estimated 150 children aged 9-13 years old with a computer-based nutrition program that promotes eating more fruits and vegetables, computer literacy, and physical education.
- The Cooperative Extension built a strong partnership of community and public agencies to outreach and educate clients on the use of the Electronic Benefit Transfer (EBT) card and the purchase of fresh fruits and vegetables from local farmers' markets.
- 100 volunteers trained and worked with the Master Gardener program in communities throughout the County promoting environmentally safe gardening practices through reducing the use of pesticides.
- Organized a campaign for Latino families in the Spanish media and radio to promote more consumption of fruits and vegetables.
- The "Suspected Anthrax Response Unit" responded to all suspected anthrax requests made by agencies in Alameda County except Berkeley. To date there have been 83 requests.

- The Household Hazardous Waste Program handled 2.0 million pounds of hazardous waste from over 20,000 households and 380 small businesses.
- Collaborated with the Alameda County Childhood Lead Prevention Program to assist in the elimination of lead hazards in properties where children with elevated lead blood levels reside. Environmental Health provides the enforcement component for this program.
- Provided over 6,800 hours of technical oversight to over 500 properties contaminated by underground storage tanks that leaked fuel to subsurface soil and groundwater.

INDIGENT HEALTH SERVICES

- Participated in countywide Health Insurance Portability and Accountability Act (HIPAA) workgroup and development of a countywide HIPAA assessment RFP and implemented agencywide HPAA privacy policies.
- Expanded the range and volume of prevention and early intervention mental health services provided to children and youth via Medi-Cal Early and Periodic Screening Diagnosis and Treatment.
- Designed and facilitated an Alameda County Children and Youth Task Force in partnership with Supervisor Carson's office.
- Designed and facilitated the School-County Partnership Project in partnership with the Alameda County Children and Families Commission, Alameda Alliance for Health, Assemblywoman Chan's office, Oakland Unified School District, and Social Services Agency.
- Designed and began construction of a best practice Youth Development Center, Project YES!
- Enhanced the range, volume, and quality of services provided by Alameda County's Court-Appointed Special Advocate (CASA).

SCHOOL BASED HEALTH CENTER (SBHCF)

- Increased the number of SBHCs from seven to eleven sites (eight SBHCs in full operation: two in start-up phase; one in planning phase).
- In the 2001-02 school year, approximately 14,229 visits were provided to over 4,281 students including over 13,767 medical services, 3,132 mental health services, 1,489 individual health education services, and over 9,000 students were reached through group or general health education efforts.
- Successfully obtained \$1.2 million to support the growth of the SBHCF.

INTERAGENCY CHILDREN'S POLICY COUNCIL (ICPC)

Integrated Services

- Assisted in the implementation of the three-year expansion of the Project Destiny, funded through the California Title IV-E Child Welfare Waiver Demonstration Project and SB 163, State supported wraparound services initiative.
- Continued to provide staff support for Project YES! which involves ongoing planning and program design development for a comprehensive youth development/services center at the former Eastern Health Center located next to Castlemont High School.

Neighborhood Initiatives

- Developed an outcomes-based contract reporting process that is more closely aligned with ICPC and Promoting Safe and Stable Families (PSSF) goals and objectives.
- Initiated planning to establish an advisory role and function for Neighborhood Policy Work Group with the goal to develop policy recommendations to support/sustain the current three (3) neighborhood initiatives and establish the framework to engage other communities.

School-Linked Services

- ICPC staff played a key role in strengthening relationships and building the infrastructure for the Our Kids/Safe Passages Initiative, which resulted in the development, planning, and program implementation of comprehensive school-based service delivery approaches for at risk school age children in both Hayward and Oakland School Districts. ICPC staff has provided staff support for the project and has been instrumental in developing successful linkages to the local school sites.

System Reform

- ICPC staff, with input from various ICPC stakeholders, completed a year long restructuring process including two Executive Committee retreats. The ICPC meeting format has been modified to support policy development, and the body now meets every other month and three standing workgroups have been established.
- The Children Services' Budget continued to evolve with refining (in partnership with CAO) performance measurements to complement the budget information provided by each participating County agency and department.

Vulnerable Populations

- Successfully developed and staffed an interagency task force focused on addressing the complex service needs of minors involved in prostitution.

- Hosted our third "road map" conference series, Profiles in Vulnerability:
- Understanding, Reaching, and Supporting Sexually Exploited Minors. Over 150 individuals attended the daylong event.

PUBLIC HEALTH

Administrative Services

- With Emergency Medical Services staff, developed and implemented 911 response system, Fire-Rescue One. The system reflects continuous response to report response times and outcomes.
- Continued implementation of integrated ECChange system and the Community Health Activities and Registration Tracking System (CHARTS) for Community Health Teams Began work on development of long term maintenance plan for ECChange/CHARTS.
- Via contractor, developed Uniform Individual Time Card system for use by approximately 400 employees and began implementation. Began planning process related to development of consolidated claim format. System will be used in the implementation of AB1259 (blended funding).

Public Health Nursing

- Collaborated with Every Child Counts to provide home visits to post partum women and their newborns.
- Collaborated with Alameda County Probation Department to provide health assessments, health promotion counseling, health education, and resource referrals to teens under the jurisdiction of the Probation Department. In addition, the Public Health Nurses provided group health education classes on personal hygiene, HIV/AIDs nutrition, family planning/birth control, basic health issues, and substance abuse prevention and intervention.
- Public Health Nurses ran clinics in Districts Two and Five offering immunizations, health promotion, pregnancy testing, counseling, health education, and referrals.
- District Three Public Health Nurses in collaboration with the University of California, San Francisco and the Day Worker Program in the Chinatown/Fruitvale area, provided health assessments, health promotion, counseling, health education, and referrals to day workers.
- Improving Pregnancy Outcome Program (IPOP) provided case management services to pregnant and post-natal women and their children, with a focus on to reducing the risk of infant and maternal morbidity and mortality. The case management services were provided in North Oakland, Fruitvale, East Oakland, and San Leandro.

- TB Control increased epidemiology surveillance for high-risk populations, especially B1/B2 immigrants. The program did more intensive tracking and follow-up of individuals visiting or migrating from other parts of the world to Alameda County to assure access to medical care.
- Participated in Bay Area Tuberculosis genotyping of cases which aid the County in understanding chains of transmission within clusters of cases infected with similar strains of tuberculosis using current DNA fingerprinting methods. This enabled the expansion of contact tracking and improved community control.

Family Health Services

- California Children Services (CCS) began a team process to analyze and improve operations and promote services which are both timely and “family/provider friendly.” The intent is to create an efficient organizational design, which assures maximum use of federal, state and county funds and other resources within HCSA and community.
- Thus far, the organizational redesign process has substantially streamlined operational procedures, thereby improving efficiency from referral/intake to opening/denial of a case and final closure upon completion of services.

Child Health & Disability Prevention Program (CHDP)

- Participated in the Nutrition Coalition of Alameda County, (NCAC), to develop strategies for prevention of childhood obesity in high risk zip codes by targeting medical providers in those zip codes.
- Presented two “Preventive Care Billing” trainings this year as a result of the interest expressed last year for this type of training. The training was also optimized as an opportunity to educate provider staff regarding referral resources.
- High volume providers were targeted for interventions to improve the quality and accuracy of their PM 160s (state CHDP billing forms). The goal is both to decrease the percentage of denials of provider claims by the state fiscal intermediary and to improve efficiency of referral processing, so that children in need of case coordination will receive necessary follow-up in a timely manner.

MCAH Programs

- Thanks to the Alameda County Breastfeeding Task Force, a Guinness Book of World Records breastfeeding event was held during Aug 2002 in Alameda County. We set a new world record, and gained positive publicity for breastfeeding globally. Press releases about the event were heard over all the news wires during World Breastfeeding Week.

- Established Multicultural, Multilingual Health Information Team to provide health information and referrals to pregnant and parenting women and groups in diverse community locations. From July –December 2002, a total of 8,533 clients.

Community Health Services

- Asthma Start provided case management services exceeding the full year's projected enrollment goal of 100 families. Results included: 56% of families reported decreased symptoms and another 42% reported maintaining very low level of symptoms. 80% families reported no or fewer hospital emergency room visits since enrolling in the program.
- Diabetes Program successfully enrolled 40 new clients for individual case management services, and established two community work groups in East Oakland and South Hayward.
- Health Care for the Homeless successfully developed and presented a proposal to the Bureau of Primary Health Care (BPHC) to provide evening van services to homeless people living in encampments throughout Alameda County. This is a two-year funding award. The program was also successful in obtaining funding from the City of Oakland Community Action Agency to provide case management and support services (i.e., emergency hotel vouchers, move-in assistance and eviction prevention) to homeless single adults and adults with children.
- Healthcare for the Homeless also provided more than 6,752 primary care visits and 14,180 case management and substance abuse encounters to more than 6,002 unduplicated homeless individuals.
- Nutrition Services Program collaborated with other nutrition programs and/or professionals in Alameda County by representing the Public Health Department on Oakland Unified School District Nutrition Task Force chairing monthly meetings of county-wide Nutrition Coalition and participating in quarterly meeting of Bay Area Nutrition Sub Committee for the Child Health and Disability Prevention Program.
- Conducted nutrition intervention for adults that focus on reducing the health disparities in Alameda County by providing one-on-one Medical Nutrition Therapy to physician referred adults for diabetes, hypertension, obesity and hyperlipidemia.
- Conducted nutrition intervention for children in Alameda County aimed at increasing fruit & vegetable consumption and physical activity levels by preparing interactive, educational and fun nutrition education sessions for 22 classrooms and 9 after-school programs in the Oakland Unified School District, providing 1040 in-classroom and after-school nutrition education/physical activity promotion interventions/contacts and providing individual medical nutrition therapy for 10 overweight children referred by physicians through the Alameda Alliance for Health Insurance Plan.
- Office of Dental Health provided classroom dental health education to over 16,000 pre-school through 6th grade students in conjunction with decay-inhibiting topical

agents when appropriate. It also implemented school-based/school-linked (SB/SL) dental health service programs at 33 schools throughout Alameda County.

- Project New Start successfully applied for and received through a competitive bid process a laser machine valued at \$250,000. This machine will allow for the expansion of the tattoo removal program in Oakland.
- Project New Start entered into contract with La Clinica de la Raza to carry out expansion efforts for Project New Start-Oakland. These efforts will augment laser surgery, outreach to former gang, drug & criminal youth and, health care services in the Fruitvale and East Oakland districts. Also continued MOU negotiations with the ten (10) county and CBO agencies which provide the mentorship scope of services to include the provision of extensive outreach to at-risk youth within Oakland, Berkeley, San Leandro and unincorporated areas of Alameda County.
- Tobacco Control educated tobacco retail merchants, community-based organizations, food, hospitality and local businesses on state and/or local ordinances and/or tobacco control policies. Also provided technical assistance and training to local jurisdictions for the implementation and enforcement of state and local regulations.
- Women, Infants, & Children (WIC) increased breastfeeding rates among WIC participants and exceed the statewide WIC breastfeeding rate by 20-25%. Also received 2 additional grant awards to increase the consumption of fruits and vegetables in the WIC population and to provide quality nutrition education to WIC participants. Provided classes to participants targeted at decreasing obesity and reducing dental disease in children.

Division of Communicable Disease Control and Prevention

Chlamydia Screening Project (ClasP)

- Chlamydia Screening Project (ClasP) Obtained additional funds for Chlamydia screening through a competitive grant process, and initiated a new STD screening program at Juvenile Hall. Continued to provide STD screening at other venues to reach at risk adolescents.
- Immunization Assistance Project (IAP) distributed an estimated 44,000 doses of vaccine.
- HIV Testing/Hepatitis C Screening, through working with CBOs, provided advocacy, counseling and referral for clients who screen positive for Hepatitis C. Also provided 1,500 HIV tests and 1,600 Hepatitis C tests.
- Acute Communicable Disease Control and Prevention Unit provided disease specific information and policy guidance on the transmission, control, and prevention of communicable/infectious diseases in response to over 9,000 telephone calls from

medical providers, schools, businesses, health department staff, and other health care professionals.

- STD Control Program collaborated with two major providers to improve reporting of sexually transmitted diseases. One provider increased their reporting of STD's from 4% to over 90%
- Public Health Laboratory validated and established protocols for a new polymerase chain reaction (PCR) method for the detection of Chlamydia and gonorrhea in urine. This new method reduces the time it takes to perform the test, and gives the clinicians results sooner. This new method also protects lab workers from repetitive stress injuries by reducing the number of pipetting steps.
- To assist the County in its efforts to reduce the number of tuberculosis cases, the Public Health Laboratory tested 3,566 specimens for tuberculosis and was able to reduce the reporting time on more specimens from 14 days to 6 days

HIV/AIDS

- Office of AIDS Administration made over \$8,000,000 available to the community for the provision of Care and Treatment services, and continued to provide comprehensive monitoring activities which include an average three (3) site visits, technical assistance, and written feedback for the visits and progress reports; all AIDS and Drug Assistance Program sites received a site visit.

Emergency Medical Services (EMS)

- 5150 Transport – The Request for Proposal contract was completed and Purchasing awarded the contract to American Medical Response (AMR). Under this contract AMR will provide unscheduled transportation services for psychiatric patients medically assessed as determined to be medically stable for transport to an appropriate facility for psychiatric evaluation. These services are being provided to the 8,000 patients per year in need of these services.

MISSION STATEMENT

To provide integrated health care services to the residents of Alameda County within the context of Managed Care and a private/public partnership structure. To provide general oversight, administrative and fiscal support for the Public Health, Behavioral Health Care Services and Environmental Health departments. To provide leadership for implementation of countywide or Agency-wide health care initiatives. To provide leadership and assistance to private and publicly-operated health care delivery systems including implementation of programs that expand accessibility of needed medical services in the most appropriate and cost-effective setting and development of insurance alternatives for previously uninsured County residents and implementation of programs that expand accessibility of needed medical services targeting children.

MANDATED SERVICES

Mandated Services include administration of the County Medically Indigent Services Plan (CMSP) and Guidelines for the County's Section 17000 population, all Indigent Health Care provider agreements funded through Health Realignment, California

Healthcare for Indigents Program, (CHIP) and/or the County General Fund. These agreements include the Alameda County Medical Center, primary care community-based organizations, private hospitals, and private medical providers. In order to receive State Realignment and CHIP funds, Alameda County must match Realignment and CHIP revenues with County General Funds at a predetermined mandated Maintenance of Effort level. Additionally, the County must comply with the Medically Indigent Care Reporting (MICRS) requirements and provide certain demographic, expenditure, and utilization data in a manner that will provide an unduplicated count of all indigent users.

Other mandated services include administration of the Criminal Justice Medical Services contract with the Alameda County Medical Center to provide medical and health care services to youth in custody at Alameda County 24-hour detention facilities.

DISCRETIONARY SERVICES

Discretionary Services are designed to provide leadership and advocacy roles in the expansion of services to Alameda County's indigent and underserved populations. These expansion programs and services include: the Alameda County Children and Families Commission (ACCFC) early childhood development initiative; Indigent Health Care Reform; Healthy Families/Medi-Cal Policy and Outreach activities; the SSI/Medi-Cal Enrollment Task Force; SB 910 Medical Administrative and Targeted Case Management (MAA-TCM) claiming program; School-Based Health Center Fund; Interagency Children's Policy Council (ICPC); Safe Passages; Our Kids; Healthy Smiles Dental Program; Project YES!; School Readiness Project; Long-Term Care System Integration; Tobacco Master Settlement Fund; Court Appointed Special Advocate (CASA) Program; and Sexual Assault Response Team (SART) contract administration.

MAJOR SERVICE AREAS

AGENCY ADMINISTRATION

Provides general direction for all Health Care Services Agency (HCSA) operations and reports to the Board of Supervisors regarding budget, programs and services. Provides leadership in the establishment of short and long-term goals. The staff functions include technical and fiscal consultation, implementation of special projects (administrative and clinical), administrative coordination of the operating departments within HCSA, strategic and program planning, and problem-solving. In collaboration with the Children and Families Commission (ACCFC), provides administrative support and leadership in the Every Child Counts planning process.

Goal:

To direct the successful implementation of Agency and countywide health care programs and initiatives, and report to the Board of Supervisors accordingly.

INDIGENT HEALTH SERVICES

Oversees planning and development of Indigent Health Care Reform Plan, ensures that all applicable mandates are adhered to relative to State Realignment and CHIP programs so that continued federal and State funds are not jeopardized; administers the School-Based Health Center Fund; provides leadership and oversight to the In-Home Supportive Services (IHSS) insurance workgroup; provides leadership and administrative support to the Children and Families Commission planning process; and provides leadership and oversight of ICPC, Safe Passages and Our Kids activities. Tasks include: coordination of Indigent Health Care related functions; budget analysis; coordination of agency budget process and financial forecasting process; legislative and policy analysis; fiscal support to Health Care Services departments; fiscal support to the Interagency Children's Policy Council (ICPC); administrative and fiscal support to the Children and Families Commission, and preparation of all State mandated financial reports relative to receipt of State Realignment, CHIP, and SB 910 (MAA-TCM) funds.

Goal:

To maximize enrollment for children and their families by creating a coordinated and streamlined system of health insurance enrollment in collaboration with six identified schools and up to 100 CHDP providers.

Objectives:

- Conduct enrollment events at schools to assist individuals in completing various health insurance applications.

- Conduct group enrollment classes at non-traditional sites to assist individuals in completing various health insurance applications.
- Improve utilization of health care services among students, CHDP patients and their families.
- Eliminate duplicate application forms and facilitate coordinated and timely processing.
- Develop marketing, outreach and educational materials that are culturally and linguistically appropriate.
- Maintain call center with multilingual staff and non-traditional hours of operations to provide information and to enroll families.

PROJECT YES!

Goal:

To transform a vacant County-owned building into a comprehensive youth empowerment center offering programming in the area of health and wellness, art and culture and educational and career training with at least two youth-run social enterprises.

Objectives:

- Open an aesthetically pleasing, youth center by the summer of 2004 and within budget through intensive work with the project architect, Alameda County General Services Agency, and other key stakeholders.

- Build sustainable collaboration among Alameda County's diverse public systems, community providers, and youth in support of Project YES!, and its mission/vision/goals.
- Develop the capacity of youth, young adults and adults allies to effectively participate in the development and governance of a youth center that has at its core a youth-centered community revitalization movement aimed at affecting just and lasting community change, including a reduction in violence and improvements in a range of educational, health, and human services outcomes.
- Design and implement programming that will foster self-development and positive peer and adult relationships, and facilitate youth leadership that contributes to the health and sustainable development of their communities.
- Raise 26 months of operating funds (approximately \$4.5 million) for the center through an aggressive and multi-pronged fund development strategy targeting corporations, foundations, individuals and the public sector.
- Design and implement a comprehensive communication strategy that includes multiple media placements and events, grass-roots, door-to-door community outreach and education campaign and youth-focused marketing that supports fund raising efforts and builds hype and community buy-in.

COURT APPOINTED SPECIAL ADVOCATE (CASA) PROGRAM

Goal:

To promote and support quality volunteer advocates to speak for the best interests of abused and neglected children in Alameda County's Dependency court system.

Objectives:

- Better meet the foster care system's growing demands for CASA through development and implementation of strategic volunteer recruitment plan.
- Improve quality and effectiveness of CASA volunteer training systems through design and implementation of national CASA's modular training that offers flexible daytime, evening and weekend training sessions.
- Enhance overall quality and level of CASA volunteer case management through increasing internal infrastructure for tracking, supporting and communicating with volunteers.

INTERAGENCY CHILDREN'S POLICY COUNCIL (ICPC)

The Interagency Children's Policy Council (ICPC) was established to improve outcomes for children and families through major interagency systems reform. This effort was spearheaded in 1994 with AB 1741 designation and has grown significantly over the past five years as new initiatives have been integrated into the work of the ICPC.

AB 1741, the Youth Pilot project, was developed as a result of State legislation to assist six competitively selected California counties with blended funding, regulatory and legislative changes. The Alameda County AB 1741 Project targeted families whose children are in or at-risk of out-of-home placement (foster care, group homes, juvenile detention, or other institutional care). Specific outcomes include:

- More children living safely at home;
- More parents able to support their children (economically, emotionally, and developmentally); and

- A service system that is better integrated, more family-focused and outcomes-driven.

This effort brought members of the Board of Supervisors, County department heads (Health Care, Social Services, Probation) and community members together to develop pilots and policy to achieve specific outcomes. A central principle is the development of initiatives at both the “high end” of the system where are services to the most costly children are provided and the front end of the system where there are little, if any, integrated prevention and early intervention efforts.

Goal:

To facilitate coordinated services to children countywide.

Objectives:

- Continue interagency planning and systems reform efforts.
- Develop and ratify with Board of Supervisors' approval the restructuring of ICPC and its membership.
- Establish policy and a sustainability plan to support the three communities that are part of the Neighborhood Development Initiatives and work with other key stakeholders to develop a transition plan to “integrate” and/or align the existing neighborhood efforts more closely.
- Continue to work with the County Administrator's Office to support the development of the Children's Services Budget.
- Support the ongoing development of County multidisciplinary teams (e.g., Our Kids) to interface and link to community-based efforts and schools.
- Develop communication and feedback mechanisms to inform and enhance our “inter and intra” agency efforts.
- Provide staff support for the expansion and role/purpose clarification of the ICPC Executive Committee to include representatives from the County legal systems and other key stakeholders.
- Develop and implement research-based intervention and prevention services and supports to pilot in the schools in Hayward and Oakland school districts that will facilitate the ongoing development of a school-linked service system.
- Provide technical assistance and support to South County school districts with developing school-linked service efforts.

- Initiate evaluation efforts in the Prescott and lower San Antonio neighborhoods.
- Advocate locally and at the State level for policy and fiscal reforms that support the County's systems reform agenda.

SCHOOL-BASED HEALTH CENTER FUND

On July 28, 1998, the Board of Supervisors approved the establishment of a School-Based Health Center Fund (SBHCF). The SBHCF has two related parts: technical assistance and advocacy, and fund disbursement to the individual SBHCs. The mission of the SBHC is to support and strengthen the development and sustainability of adolescent school-based and school-linked health centers in Alameda County through a combination of funding, advocacy, information sharing, consultation and technical assistance to ensure that the health centers provide the most comprehensive, high-quality services possible. Seven adolescent SBHCs are operational in the county, supported in part by the Alameda County Adolescent SBHC Fund. Two additional sites are in the planning phase.

Goal:

To improve adolescents' health, well-being, and success in school by increasing access to comprehensive, high quality health care services, reducing barriers to learning, and supporting families and communities through the provision of basic medical care, mental health services and health education in a teen-centered environment.

Objectives:

- Improve access to health care services for adolescents.
- Improve utilization of health care services among students and clients.
- Improve health status and behaviors among SBHC clients.
- Screen all clients for adolescent health risk factors and provide referral or treatment to appropriate medical, mental health, and health education services.
- Provide sexually active female clients with an annual gynecological exam.
- Screen sexually active clients for Chlamydia and provide needed treatment.

CHILDREN AND FAMILIES COMMISSION

On November 3, 1998, the voters of California passed Proposition 10, a statewide initiative raising cigarette taxes by 50 cents per pack, to be used in support of early childhood development programs. The additional tax became effective January 1, 1999, with 80 percent of the revenue allocated to County Commissions proportionate to the percentage of births recorded per county as compared to the total number of births statewide for the same time period. On December 8, 1998, the Alameda County Board of Supervisors adopted an ordinance that added Chapter 2.130 to the Alameda County Administrative Code establishing the Children and Families Commission. The County's Children and Families Commission oversees the development of an annual plan and administers the allocation of Proposition 10 revenues. Prior to the receipt of funds, a formal plan had to be drafted and submitted to the Statewide Commission, therefore, the HCSA provided (as a loan) one-time revenue to "jump start" this process and continues to provide fiscal, administrative, and infrastructure support to this process.

MISSION STATEMENT

Mental Health Services – To provide a comprehensive network of integrated programs and services for all people with serious psychiatric disabilities, regardless of age, ethnicity, language or geographic location, in order to minimize hospitalization, stabilize and manage psychiatric symptoms, and help them achieve the highest possible level of successful functioning in their community of choice; and to provide mental health crisis and recovery services for the general population following major disasters.

Alcohol and Other Drug (AOD) Services – To reduce the incidence of alcohol and other drug problems through the provision of a comprehensive system of prevention, treatment, and rehabilitation services for children, young adults, and older adults, in order to reduce illness, death, disability and cost to society resulting from substance abuse.

MANDATED SERVICES

Mental Health Services – The level of mandated services and the target population are prescribed by AB 1288 (the Bronzon/McCorquedale Mental Health Act) and related Realignment legislation. AB 1288 requires the County to fund Mental Health Services for people with a serious persistent mental illness (or children with a serious emotional disturbance) up to amounts received via its Realignment allocation, mandated matching funds set according to a base year, and any applicable third party revenues that are available. Mandated services that must be funded include: psychiatric crisis or emergency treatment, inpatient care, outpatient/day treatment, case management, conservatorship, administration and evaluation. Within these seven mandated services

areas, there are a variety of specific mandates such as staffing standards, quality assurance standards, and a host of reporting and general practice standards.

Medi-Cal Consolidation requires the Behavioral Health Care Services Department to provide the full range of mental health services to any Alameda County Medi-Cal beneficiary in need of those services. This mandate covers a range of disorders that are broader than the Realignment target population.

Alcohol and Other Drug (AOD) Services – The level of mandated services is determined by State and federal statute. Although local needs and priorities are given primary focus, various federal and State requirements exist regarding prevention activities, services for parolees and perinatal women, as well as HIV/AIDS and tuberculosis services. Beyond those mandates, a full range of services are maintained, including residential, non-residential, prevention, driving under the influence and drug diversion programs.

DISCRETIONARY SERVICES

Discretionary funding is provided through the County General Fund to:

Augment mandated services; deliver services in other County departments designated as local priorities by the Board of Supervisors, and serve clients who need intervention in life threatening crises but who would be ineligible for services through the State Department of Mental Health target population definitions.

This discretionary funding is used to provide the following: services to inmates in the County Jail and Juvenile Hall; services to people with organic brain disease (OBS) and traumatic brain injuries; housing support for people who are homeless and mentally ill and/or abusing alcohol and/or other substances; consumer-run self-help and empowerment programs; vocational training; an expanded continuum of alcohol and other drug services; and children in group homes and out-of-home placements.

Continuation of the level and distribution of these services is at the discretion of the Board of Supervisors and is determined through the annual budget and other ongoing planning processes.

SUMMARY OF CHANGES

MAINTENANCE OF EFFORT FUNDING ADJUSTMENTS

The Maintenance of Effort Budget includes funding for 462.62 full-time equivalent positions at a net county cost of \$36,292,815. Maintenance of Effort Budget adjustments necessary to support programs in 2003-2004 result in a net county cost increase of \$8,691,813 and an increase of 11.25 full-time equivalent positions.

- Use of Fiscal Management Reward Programs savings of \$5,600,000.

Service Impacts

- Across-the-Board reduction in community-based provider contract funding will result in an overall reduction in behavioral health care services provided by these organizations. An estimated 549 clients, including adults and children, may be affected by this reduction. Approximately 37 community-based provider staff may also be impacted.
- In collaboration with SSA, reduce indirect service expenses such as CalWORKs promotional materials and public education. Instead, the funds will be redirected to pay for steadily increasing direct treatment services used by CalWORKs clients. Direct services will not be reduced. In addition, some services currently claimed against CalWORKs will be shifted to Medi-Cal and Early and Periodic Screening Diagnosis and Treatment.
- Reducing four acute inpatient beds at the John George Pavilion will eliminate 1,460 bed days of acute inpatient care. An estimated 200 clients, who would otherwise be hospitalized will be redirected to alternative community programs. These include John George Psychiatric Emergency Services, Sausal Creek Crisis Services, the Gladman Short-Stay Unit, the Crisis Clinic and Service Teams.
- Reducing 5.00 vacant full-time equivalent positions in the Children's System of Care program will result in loss of flexibility to provide clinical and non-clinical support services to families in critical need. Twenty to twenty-five cases will be absorbed at a Level 1 Children's Outpatient Clinic.
- Reducing 10.00 vacant full-time equivalent positions in the Vocational Program will result in loss of flexibility to provide a broad range of pre-vocational and vocational

services to clients with severe persistent mental illnesses. These services include supported employment, individual job coaching, vocational groups at Community Support Centers, work enclaves and work projects, vocational classes, and job development.

- Approximately 24 residential beds intended to serve men with alcohol and/or substance abuse problems provided by the West Oakland Health Council, Inc. Center will be restructured to provide less costly services. These beds are not currently in operation as the intended service site is undergoing renovation.
- Reducing funding for the Oakland Independence Support Center (OISC) contract will result in the loss of self-help services to those who are homeless and have persistent mental illness. Approximately 250 clients are served each year. The range of services include: housing assistance, advocacy and education, referral to other community services, substance abuse peer counseling, money management, meals services, mail, telephone and messaging services, and literacy program services.
- Reducing the number of beds purchased from the Starlight Community Treatment Facility, a locked residential regional program for adolescents with severe emotional disturbances located in Santa Clara County, from 10 beds to 8 beds will result in the loss of 730 bed days and reduce the ability to respond to adolescents in need identified by the Social Services Agency, Probation Department, and Mental Health. This may increase lengths of stay in acute care hospitals, juvenile hall, or possibly result in the adolescents being sent out-of-state for treatment.
- Reducing funding for the Public Health Secondary Prevention Consortium will decrease primary prevention services. No direct treatment services are involved with this reduction. Community-based organizations impacted include the East Oakland Boxing Association, Interfaith Prevention Program and Community Recovery Services.
- Eliminating funding for Methadone Programs serving former SSI clients will eliminate services to 175 clients who annually receive these services. The federal government discontinued SSI eligibility several years ago for individuals whose only qualifying disability was alcohol or drug abuse. County General Fund dollars were provided for uninsured methadone maintenance clients so they could continue in treatment. These uninsured clients will be asked to pay for their methadone services, or will be offered transitional detoxification services.
- Reducing HIV prevention services still leaves BHCS providing HIV prevention services above the federally mandated HIV set-aside level. This reduction to the East Bay Community Recovery Program represents an approximate 20% reduction in the current HIV prevention effort including: reducing HIV test sites in Alcohol and Drug treatment programs by half from 28 to 14; reducing HIV outreach/information services; reducing pre/post test services; reducing HIV education and training

services; reducing health and psychosocial assessment services; reducing preventive therapeutic services; and reducing transportation services.

- Reducing funding for the Oakland Adult Community Support Center Socialization Program reduces services to the approximately 80 clients with mental illnesses using the program including the estimated 40 clients who use the program Monday through Friday each week.
- Reducing 2.00 vacant full-time equivalent positions in the Children's Criminal Justice Program may reduce the amount of content included in Court reports regarding placement and service needs. However, minimum reporting requirements will be maintained.
- Reducing Alcohol and Drug Secondary Prevention - Early Intervention services will lead to reduced services at the Mandana Community Recovery Center that provides services to recovering adults and those with co-occurring disabilities. The Center also serves as a primary support system for the GLBTQ (gay, lesbian, bisexual, transgender, and questioning) population, and for women in recovery. Funding will be reduced for the BiBett East Bay Recovery Center resulting in a potential loss of services for inmates receiving services at the Santa Rita Jail.
- Reducing 1.00 vacant full-time equivalent position in the Children/Youth Crisis Team results in decreased flexibility to provide services in a school setting and loss of a post hospitalization case management capacity for 15 – 20 children.
- Elimination of 0.92 vacant full-time equivalent case manager position at the Eden Adult Community Support Center will result in the loss of capacity to cover the existing and any increased caseload.

The Proposed Budget includes funding for 441.79 full-time equivalent positions at net county cost of \$27,886,663.

MAJOR SERVICE AREAS

ADULT AND OLDER ADULT SERVICES

Goal:

To reduce the negative impact of mental illness, alcohol and drug use/abuse in Alameda County.

Objectives:

- Reduce the barriers associated with seeking timely mental health, alcohol and drug treatment.
- Reduce dependence on institutional care by developing and providing community treatment alternatives.
- Develop alternatives to acute hospitalization for residents needing detoxification from alcohol and other drug use.
- Continue to develop and implement strategies to increase consumer and family involvement.
- Reduce the negative image of people with a mental illness, or alcohol and drug problems by continuing the public awareness campaign begun in 2001-2002.
- Articulate a design for an integrated system of care for mental health, alcohol and drug specialty services for adults and older adults.

- Improve the quality of services to substance-using women by implementing best practice treatment strategies in perinatal substance abuse treatment programs.

Performance Measures:

Goal:

To more effectively and efficiently meet the needs of clients through collaboration and partnership with other departments and agencies.

Objectives:

- Increase by five percent the program impact of the Social Services Agency dollars that are leveraged through Behavioral Health Care Services.
- Implement a Juvenile Drug Court by July 2003 in collaboration with the Courts.
- Fully implement Prop 36 through collaboration with Probation Department, the District Attorney, the Public Defender, the Courts and provider community.

- Collaborate with cities that have expressed an interest in funding and contracting with Behavioral Health Care Services for enhanced mobile crisis capacity.
- Collaborate with Public Health and other public and private agencies to reduce the number of infants born with fetal alcohol syndrome and other substance abuse related sequences by providing improved access to and retention of women in perinatal treatment services for substance-using women.
- Collaborate with the Alameda County Children's Commission and the Every Child Counts program to identify appropriate behavioral health interventions for very young children aged 0-5 years.

MISSION STATEMENT

To protect the health, safety, and well-being of the public through promotion of environmental quality.

MANDATED SERVICES

Environmental Health provides a variety of mandated services to the residents and businesses of the County. Standards for the level of these services are determined by California Health and Safety Code (CHSC), California Code of Regulations (CCR), Public Resources Code, Government Code and Alameda County General Ordinance Code. The Office of the Director of Environmental Health is mandated by California Health and Safety Code.

DISCRETIONARY SERVICES

Discretionary services involve responses to residents' complaints or special investigative follow-up services concerning environmental matters. Health inspection and investigation services are provided to local school districts, community-based organizations and non-profit groups. Environmental Health also operates three permanent household hazardous waste collection facilities.

SUMMARY OF CHANGES

MAINTENANCE OF EFFORT FUNDING ADJUSTMENTS

The Maintenance of Effort Budget includes funding for 117.93 full-time equivalent positions at a net county cost of \$1,220,083. Maintenance of Effort Budget adjustments necessary to support programs in 2003-04 result in a net county cost increase of \$153,767 and a net decrease of 0.33 full-time equivalent positions.

Service Impacts

- The inventory of sites requiring hazardous materials permits will be expanded. Food Inspection Program penalty fee collection efforts will be enhanced through the use of ATM, credit card, and Web-based payment options.
- Elimination of 1.00 vacant full-time Equivalent Senior Environmental Health Specialist, 0.50 full-time Equivalent Information Systems Analyst, and 1.00 Full-time Equivalent Environmental Health Specialist full-time equivalent positions includes the shifting of these costs to the grant fund and the shifting of workload to existing staff. Elimination of 1.00 full-time Equivalent Chemist position will result in a reduction in Lab Services. Department may need to contract with private labs on an as needed basis.

The Proposed Budget of includes funding for 114.43 full-time equivalent positions at a net county cost of \$701,045.

FINAL BUDGET ADJUSTMENTS

Final Budget adjustments in the Environmental Health budget include:

FINAL/AMENDED BUDGET ADJUSTMENTS

No adjustments are required.

The Final/Amended Budget includes funding for 114.43 full-time equivalent positions at a net county cost of \$701,045.

MAJOR SERVICE AREAS**FOOD PROGRAM****Goal:**

To prevent the occurrence of food borne illnesses, to promote the preparation, production and service of food in hygienic, appealing food facilities and to protect the health of the public and food service workers by encouraging safe and sanitary on-the-job working conditions.

Objectives:

- Increase the number of inspections of all food facilities by two percent.
- Provide food safety training classes to food facility operators.

Performance Measures:

Food Program	FY 2001 Actual	FY 2002 Actual	FY 2003 Goal	FY 2004 Goal
<u>Effort Measures</u>

MEDICAL WASTE FACILITIES**Goal:**

To protect the public health, safety, and the environment from the effects of improper storage, collection, transportation, and disposal of medical waste, accomplished through a program of inspection, permitting, complaint investigation, public education, and assistance to industries.

Objectives:

- Issue permits and inspect all medical waste facilities to ensure full compliance with federal, State, and local laws and regulations.
- Investigate all complaints and take appropriate corrective action to assure compliance with local, State and federal medical waste laws and regulations.

SOLID WASTE FACILITIES**Goal:**

To protect the public health and the environment from the effects of improper storage, collection, disease transmission and water pollution.

Objectives:

- Issue permits and inspect all solid waste disposal, transfer/processing and composting facilities, and closed landfills.
- Investigate all complaints and take appropriate corrective action to assure compliance with local, State and federal solid waste regulations.
- Obtain compliance with State and local standards for all refuse collection vehicles.

HAZARDOUS MATERIALS**Goal:**

To meet the requirements of 27 CCR as the Certified Unified Program Agency (CUPA) for Alameda County to protect human health and safety and the environment.

Objectives:

- Provide direct service to the regulated community through a time performance commitment. Through program specific time, address all inspections, complaints, plan review, enforcement issues, and special service needs.
- Inspect all sites that are hazardous waste generators, waste treatment facilities, hazardous material storage points, and high hazard sites to verify compliance with current regulations and good business practices.
- Inspect all facilities where underground fuel storage tanks (UST) exist and all facilities where tank systems are proposed to be installed to verify the installation and ongoing operation meets current regulations.

HOUSEHOLD HAZARDOUS WASTE AND SMALL QUANTITY GENERATORS

Goals:

To reduce the improper disposal of hazardous waste and in doing so protect the environment and human health and safety.

Provide a cost-effective means for small businesses to properly and legally dispose of hazardous waste.

To recycle waste streams whenever possible and in doing so protect the earth's resources.

Objectives:

- Provide waste collection sites at three locations in the County and promote the service through various educational outreach programs and ad campaigns.
- Accept all waste permitted under the State's permit to operate a hazardous waste collection site.
- Properly dispose of or recycle all collected wastes.
- Accept hazardous waste from all eligible businesses and provide documentation that verifies legal disposal.
- Control costs so that business clientele benefit from the economy of scale a large collection program affords.
- Establish as a performance standard the desire to divert as much waste as possible to recycling options.
- Operate a latex recycling program that gives away exterior paint for free.

COOPERATIVE EXTENSION

Discretionary services are provided by the University of California Cooperative Extension and are supported mostly by the University of California. The County provides a portion of the funding to support this program. Programs provide direct services to families and young people, as well as applied research, evaluation and assessment on environmental horticulture, urban gardening and health education. Major services include: Adult Family and Community Education; Child and Youth Nutrition; Home and Community Gardening; Youth Development and Leadership; Environmental Education and Natural Resources; and Environmental Horticulture.

University of California Cooperative Extension (UCCE) is one of the few agencies providing countywide nutrition education to children, youth, and adults. The Family and Consumer Science, and the Community Health and Nutrition Programs, improve and maintain the quality of life and well being of this county.

Goal:

To provide nutrition education, food safety and sanitation, and consumer skills to County residents, with focus on low-income communities.

Objectives:

- Provide direct nutrition education to low-income children participating in the free/reduced cost school meals through in-school, out-of-school, and after-school programs, through programs promoting the intake of more fruits and vegetables, physical activities, food safety and sanitation.
- Reduce the risk of obesity in children through a comprehensive community nutrition program focusing on early childhood providers, parents, children, and agencies.
- Link nutrition with gardens in every school to reinforce behavior modification and improve children's diets and reduce the rate of chronic diseases.
- Strengthen local food systems and promote food security and related public policy to improve food access for county residents who are hungry.
- Increase the awareness and understanding of nutrition, lifestyle and chronic disease risk-reduction skills among at-risk adults.
- Work with local, State, public, and private agencies to create an infrastructure of support and innovative strategies to address issues of grandparents raising children.

Goal:

To conduct focus research in environmental horticulture and natural resources that leads to the development of environmental programs to preserve the environmental quality and minimize environmental risks.

Objectives:

- Reduce the use of pesticides in schools and playgrounds through an extensive Integrated Pest Management Education program using Master Gardener trained volunteers.
- Promote the use of empty lands as community and school gardens to supplement the access to fresh produce in low-income communities.
- Improve environmentally safe practices to reduce green waste, water usage in public and private green areas.

ENVIRONMENTAL HEALTH – GRANTS

Local Oversight Program (LOP)

Statutory authority exists at the federal, State, and local levels to require remedial action by the responsible party or parties at underground petroleum storage tank release sites. Funding from the State Underground Storage Tank Petroleum Trust Fund has been allocated for local government oversight of remedial action at underground petroleum tank release sites.

The State Water Resources Control Board has been designated as the lead State Agency to administer work under this program and to disburse funds to local agencies.

Goal:

To protect human health and safety and the environment by overseeing the clean up of sites contaminated by unauthorized releases of hazardous substances such as petroleum products from underground storage tanks and systems.

Objectives:

- Spend 60 percent of available staff time as site specific time in order to facilitate the timely review of case progress toward closure.
- Work to effectively remediate active sites where fuel releases are identified.

Interjurisdictional Toxicology Program

This program provides research and toxicological expertise, develops risk-based management guidelines applicable to leaking underground storage tank cases, and provides necessary training to participants from the State Water Board, Regional Boards, Local Oversight Program agencies, and Local Implementing Agencies.

Goal:

To provide toxicological consulting expertise and risk assessment guidance for specific Underground Storage Tank (UST) cases.

Objectives:

- Advise Regional Board and State Water Board staff, consultants, responsible parties, and the public on UST site closures.
- Review and provide site-specific technical advice to State Water Board, Regional Board and Local Oversight Program (LOP) staff on MTBE and other oxygenate-impacted sites.
- Train participants from the State Water Board, Regional Board, LOP Agencies, and Local Implementing Agencies.

VECTOR CONTROL**Goal:**

To reduce the risk of human disease, injury, and discomfort for the citizens of Alameda County by maintaining surveillance over disease reservoirs, suppressing populations of insect vectors, rodents, and other nuisance animals along with eliminating casual environmental conditions.

Objectives:

- To investigate all public requests for services regarding arthropod vectors, rodents, nuisance pests and environmental conditions conducive to vectors.
- To conduct environmental surveys, identify invertebrate and vertebrate specimens, and assess the potential for transmission of zoonotic diseases.
- To provide advice on the control of medically important pests such as flies, cockroaches, fleas, venomous arthropods or rodents and conduct direct suppression of these pests as circumstances require.
- To inform the public on the risks of zoonotic diseases and utilize all practical communication methods, including brochures, handouts, news releases, the Internet, public displays and community events.

Goal:

Reduce the number of Norway Rats in the public sewers of Oakland and the surrounding communities, by conducting intensive surveillance, and treating only areas with documented rat activity, allowing the municipalities the time to repair the sewer infrastructure without further deterioration. The long range goal is to reduce the rodents ability to expand its range under ground and invade non-infested neighborhoods through breaches in the laterals.

Objectives:

- Survey 100% of the sewer manholes and treat sites with active rat populations routinely until activity drops to an insignificant level.
- Monitor basin areas regularly and treat sites with active rat signs until rat activity drops to an insignificant level.
- Compile results of investigations from service requests regarding rats on the surface, and compare clusters of complaints to sewer baiting results indicating high activity.

- Locate sewer breaches conduct smoke or dye tests as necessary and advise the City Public Works Department of areas that need repairs.
- Investigate complains of rats, which enter buildings and work with code compliance to insure that repairs are made.

MISSION STATEMENT

To work in partnership with the community to ensure the optimal health and well-being of all people through a dynamic and responsive process, respecting the diversity of the community and challenging the County to provide for present and future generations.

MANDATED SERVICES

Mandated services include Public Health Nursing; Public Health Laboratory; Public Health Statistics; Health Education; Communicable Disease Control; California Children's Services; Maternal and Child Health; Black Infant Health; Dental Health; Tobacco Control; Women, Infant and Children (WIC); and Emergency Medical Services (EMS). The level of these mandated services are referenced in the following: California Administrative Code; Welfare and Institutions Code; California Health and Safety Code; Code of Federal Regulations; Government Code; California Code of Regulations; and Alameda County Ordinance Code.

DISCRETIONARY SERVICES

The Public Health Department provides the following discretionary services: Asthma Start, Diabetes Program, Healthcare for the Homeless, Nutrition Services, Project New Start. In addition, several of Public Health mandated programs allow additional discretionary services in Dental Health, WIC, and EMS.

The following discretionary programs have been developed in response to Agency and County priorities:

- Developmental Disabilities Council – Provides advocacy and resource development/referral for persons in the County with developmental disabilities.
- Community Challenge Grant (Project H.O.P.E.) – Supports teen pregnancy prevention education activities for students in targeted Oakland high schools.
- Health Care for Children in Foster Care Program – Funded by the Child Health and Disability Prevention (CHDP) Program, this new project provides a medical administrative case management system for children in the Alameda County Social Services Agency foster care program. Public Health nurses provide coordination of medical services from the point of foster care placement and identification. These services involve the initiation and maintenance of a medical treatment plan, with an emphasis on interdisciplinary care planning.
- Improving Perinatal Outcomes Program (I.P.O.P.) – Funded by the Federal Healthy Start Initiative, this program provides case management and health education services for women and families of color to improve perinatal risk factors including low birth weight, late entry into perinatal care, pre-term births and maternal substance abuse. The program objectives shall ultimately result in a reduction in infant mortality. Additional activities include the development of culturally-competent approaches to perinatal depression and a program to improve inter-conceptional health and reduction of risk factors upon the initiation of subsequent pregnancies.
- Smoke-Free Homes Project: Funded by the Tobacco Master Settlement Fund – This Maternal Child and Adolescent Health/WIC collaborative project provides participants with perinatal tobacco cessation intervention during their WIC visits to encourage women to quit smoking or using drugs during pregnancy and to reduce/eliminate the use of tobacco within their homes. These steps ensure better birth outcomes for baby and mother and adoption of a healthy lifestyle.
- CHOICES (Choosing Healthy Option if Considering Engaging in Sex) Program – Funded by the California Family Health Foundation, this program strives to increase the awareness of high-risk male youth and their allies about the value of responsible sexual behavior, male roles in family planning efforts, and planning for their future role as responsible youth/young adults.

- Use of Fiscal Management Reward Programs savings of \$2,800,000.

Service Impacts

- Of the 41.97 full-time equivalent positions being eliminated, 27.55 are vacant. The majority of the incumbents in the filled positions will be transferred to vacant funded positions, and workload in programs where pay units have been eliminated will be absorbed by existing staff. Service impacts for each of the programs are detailed below.
- Elimination of 4.67 full-time equivalent positions in Administration and 14.50 full-time equivalent positions in Family Health Programs may result in the following service reductions: reduced capacity to provide information systems support, dispensation of public health information to the community, and intensive case management and support of children in Child Health and Disability Prevention and California Children Services. Most incumbents will be reclassified into vacant funded positions. Workload will be absorbed by existing staff.
- Elimination of 11.33 full-time equivalent positions in Field Nursing may result in a decrease in the number of home visits for children and families, an increase in length of time to respond to referrals, and a decrease in the number of immunization community outreach activities.
- Elimination of 1.55 full-time equivalent positions in Community Health Services may lead to a decrease in education efforts to reduce teenage smoking and administrative support.
- Elimination of 5.00 full-time equivalent positions in Communicable Disease may result in a decrease in Public Health Lab services to non-County entities, as well as enrollment of children in immunization registry, and screening of children for Chlamydia.

- Elimination of 4.92 full-time equivalent positions in Office of AIDS will result in minimal service impacts, as all positions are vacant.
- The reduction in Professional, Special Departmental, Travel, Office and Training Expenses decreases the flexibility to support provision of direct services.

The Proposed Budget includes funding for 548.00 full-time equivalent positions at a net county cost of \$15,035,961.

FINAL BUDGET ADJUSTMENTS

Final Budget adjustments in the Public Health budget include:

- Use of Fiscal Management Reward Program savings of \$3,500,000.

Service Impacts

Administration and Finance

- Welfare Fraud activities will be reduced by approximately 25 percent, resulting in decreased fraud prevention activities. Of the total welfare fraud reduction, approximately 15 percent will impact the District Attorney's Welfare Fraud Unit.
- Reductions in full-time equivalent positions in Agency administration will reduce accounting, office administration, personnel support, training, and information technology support for operating departments. In addition, contracted training services for staff will be reduced by half.
- Fewer children and families will gain access to Supplemental Security Income (SSI) services as a result of reductions in contractual support.

Adult and Aging Services

- Elimination of full-time equivalent positions for the Public Guardian and Adult Protective Services will limit the ability of these programs to respond to existing demands for services for elderly and dependent adults, and to expand services as demands increase.

Children and Family Services

- Reduction in budgeted amount for special departmental expenses will limit department's ability to respond to unexpected expenses.
- Funding will be reduced for bus passes and travel expenses for biological parents to participate in court-mandated services. This will limit options for responding to parents' travel needs and may lead to a delay in reunification with their children.
- Reduction in budgeted amount for professional and specialized services will decrease access to outside child welfare clinicians and experts.

- Community-based provider contract reductions for respite care may affect the recruitment and retention of relative caregivers and emergency foster parents, but are consistent with expectations that existing contractors will pursue alternate sources of funding for these services. However, these reductions could result in fewer placements with relatives, delays in placement, and longer stays in foster care for children.
- Community-based provider contract reduction for child abuse prevention services will decrease the level of this service, but this reduction will be mitigated by the continued funding of such services through contractors selected by the Child Abuse Prevention Task Force.
- Community-based provider contract reduction for drug testing and treatment services will require closer monitoring of these services by Agency staff, and may require the redirection of services to existing contractors.
- Community-based provider contract reduction for emergency response services, which operate during evenings, weekends and holidays, will require that these services be absorbed by Child Welfare staff and by other existing contractors.
- The loss of vacant full-time equivalent Children and Family Services positions will reduce the flexibility to address current and future workload demands. These vacancies occur in administrative support positions for child welfare services and in line staff positions providing direct services to children and families.

Medi-Cal and Benefits Administration

- The elimination of CalWORKs full-time equivalent positions will significantly diminish the agency's ability to administer its basic welfare programs and reduce the effectiveness of efforts to connect welfare recipients to jobs. The impacts of these reductions will include:
 - delays in the timely delivery of benefits to clients;
 - increases in administrative error rates, with the potential for financial sanctions from State and federal governments;
 - elimination of many full-time equivalent positions providing client supports including social workers and client advocates, who help identify clients with barriers to employment and connect them to available supportive services, including mental health, substance abuse, and domestic violence;
 - substantial reductions in the ability to oversee and provide technical assistance to community-based contractors;
 - elimination of General Assistance (GA) services in the main Oakland office at 400 Broadway, requiring GA clients to travel to Eastmont Self-Sufficiency Center; and

- reductions in employment services full-time equivalent positions, resulting in increased caseloads and a reduction in the effectiveness of individual case management, placement and retention services.

Workforce and Human Services

- CalWORKs contract reductions will scale back employment services and restrict availability of funding for community-based providers and others to provide job preparation, placement, and retention services. Clients, who increasingly have greater barriers to employment, will have substantially more limited opportunities to access necessary and appropriate services to help them find and keep a job. These reductions may also further weaken the financial infrastructure and lead to loss of jobs for community-based providers currently providing these services. Specific service reductions will include job placement, retention, and advancement services; outreach to families in sanctioned status; vocational assessment contracts; and transportation contracts.
- Reduction of transportation subsidies will make this support unavailable to clients who are working and have lost cash assistance due to federal time limits.
- Reduction of CalWORKs allocation to the Hayward One-Stop Career Center by 30 percent will reduce the availability of employment assistance services provided to CalWORKs and other clients at the One-Stop Center.
- Elimination of drop-in child care services at Self-Sufficiency centers will require parents to bring their children with them to appointments, make other child care arrangements, or limit their appointments with Social Services Agency staff. More than 8,000 children per year currently utilize this service.

FINAL BUDGET ADJUSTMENTS

FINAL/AMENDED BUDGET ADJUSTMENTS

Increased appropriation of \$1.6 million to pay the County's share of the State child support penalty.

The Final/Amended budget includes funding for 2,438.78 full-time equivalent positions at a net county cost of \$66,257,195.

MAJOR ACCOMPLISHMENTS IN 2002-03 INCLUDE:

AGENCY ADMINISTRATION AND FINANCE

Finances and Office Support – The Agency's Finance Department established a centralized Contracts Office in August 2002. With the implementation of new tracking system, the contract processing time is reduced from five weeks to one week and invoice payment is made within 10 working days. The Contracts Office prepares a variety of financial reports which have proven irreplaceable in managing current fiscal constraints and monitoring contract expenditures.

Information Services – Electronic Benefit Transfer (EBT), the electronic delivery of Food Stamps and cash aid to Social Services Agency clients was successfully implemented in August 2002. Information Services Division (ISD) new focus is on the implementation of Web-based services. They include Web-based program practice guides, interactive products and services, and information resource links. ISD is in the initial steps of developing a data warehouse, which will allow the agency to better analyze, plan, and react to the needs of the community. Finally, CalWORKs Information Network (CalWIN) sits on the horizon as the CalWIN Project Team continues preparations for the revamping of the eligibility process.

Facilities – The first Alameda County Assessment Center for Children and Family Services opened in August 2002. The site allows the Department of Children and Family Services to streamline its foster care intake process and better meet the needs of children taken into custody. With the remodel of 401 Broadway's third floor, the agency relocated Children and Family Services staff from 330 Franklin to 401 Broadway and closed 330 Franklin. This fiscal year a new site is being developed for the Department of Adult and Aging Services at the Eastmont Town Center. This new facility will allow all department services to be located at a single location and co-located with many of its community partners. Plans are also moving forward for a new North County Self-Sufficiency Center. This new facility will replace the office located at 4501 Broadway. The anticipated completion date for the new Self-Sufficiency Center is 2005.

Human Resources – The Social Services Agency Human Resources Department was closely involved in the transition to ALCOLINK HRMS, user training, and

implementation. A major focus during this fiscal year is on increasing staff proficiency in using the new ALCOLINK HRMS system; changing business practices, work flow, and forms to tie in with the new system; evaluation of the effectiveness of new procedures; redistribution of duties, responsibilities, and workload of staff to meet the new requirements due to ALCOLINK HRMS; and developing new policies, procedures, and desk manuals.

Staff Development – The Staff Development Team was consolidated this year to include program training and training staff from the Department of Medi-Cal Benefits and Administration and Welfare to Work and the Department of Children and Family Services. Staff development is now responsible for providing training agency-wide in program, technical, and people skills through a combination of staff delivered training and training contracts. A comprehensive Agency-wide Training Needs Assessment was completed and a training curriculum based on that assessment is being revised including supervisory development and Alcohol and Drug Training.

Welfare Fraud Prevention Division (WFPD) – To help ensure that maximum funds are available to eligible clients, WFPD staff made great strides in recouping monies owed to the County. Major systemic changes to how cases are processed have led to an increased efficiency of collection. Additionally, the division is in the process of updating the welfare investigators' Policy and Procedures Manual, to further the goals of protecting clients' rights, and reducing the incidence of welfare fraud in the County.

DEPARTMENT OF ADULT AND AGING SERVICES (SSA)

Adult Protective Services (APS) – APS held twice-monthly meetings with representatives from the District Attorney's office for in-service training on financial elder abuse detection and investigation, to improve coordination of efforts on cases active in both offices. In addition, APS implemented the State of California Policy and Procedures Manual with respect to timelines for designated tasks, participated in Inter-Program Awareness Training for division staff, and initiated screening of all new APS referrals for active In-Home Supportive Services (IHSS) status.

Area Agency on Aging (AAA) -- AAA staff coordinated advocacy efforts with the Advisory Commission on Aging (ACA) with the Annual Senior Rally, the California Senior Legislature (CSL), Measure B Transportation Programs, and through a variety of responses to critical legislative issues affecting elders. The AAA Director provided the lead role for Alameda County in mapping services, setting priorities, and implementing strategies to implement integration/coordination of Long-Term Care (LTC). The mapping process was completed during the first part of the year. This year the LTC Steering Committee developed four main committees: Housing and Transportation, LTC Integration, Community Services, and Training and Education. Each committee has set up short and long-term goals/action steps for improved coordination/integration in Alameda County.

Public Guardian-Conservator (PG) – PG staff modified the interest-crediting policy to conform with the Probate Code, and received approval of the Superior Court. In

addition, staff achieved timely posting of interest by quarter, developed a sustainable method of continued timely posting, and modified court accounting templates to conform with the Probate Code. Finally, PG staff created and operationalized databases for real and personal property tracking and management and for Lanterman-Petris-Short Act and Probate statistical tracking and management.

Public Authority for In-Home Supportive Services (PA) – Through changes in the Rapid Response service delivery mode, adoption of a new provider, and the exclusion of routine household work as a covered service, the Public Authority was able to reduce hourly costs for this service and expand services from Oakland to all of Alameda County. In addition, consumer and provider training were expanded by the provision of a series of classes on First Aid and Home Safety developed in collaboration with the Bay Area Emergency Preparedness Coalition and a series on Back Care and Other Ergonomic Hazards developed in collaboration with the National Institute for Occupational Safety and Health and SEIU Local 616.

Veterans Services Office (VSO) -- The VSO participated in the *East Bay Stand Down* at Camp Parks in Dublin where nearly 500 homeless veterans from Alameda, Contra Costa and San Francisco counties received a wide array of information and services on-site including legal, medical, dental, employment, social services, and housing assistance.

Aging With Dignity Initiative -- The Long Term Care *Aging with Dignity Grant* sponsored by the California Department of Aging for the development of the Network of Care website has been selected as one of six across the nation for innovative services to the elderly by the National Council on Aging (NCOA).

DEPARTMENT OF CHILDREN AND FAMILY SERVICES (SSA)

System Improvements – Through the determined work of all staff and the targeted efforts of the newly implemented Quality Assurance program, the Children and Family Services Department was found in full compliance with all nine review items in the most recent State audit. This was a remarkable turnaround in a short period of time and is due in part to full implementation of CWS/CMS, improved communication with workers about State regulations, as well as better documentation procedures that captured the services provided. The State has extended their congratulations to the department and will continue to be supportive of our efforts to sustain compliance.

Kin-GAP – The Kin-GAP Program continues to provide funding to relative caregivers who assume legal guardianship with financial support equal to foster care payments, and it is allowing many more relatives to offer this form of permanence to the children in their care. In addition, an array of support services is being made available to relative caregivers to help keep these placements stable and prevent re-entry into the foster care system.

Program Development – The long awaited Assessment Center opened its doors this fall to children in need of foster care placement who would normally have to wait in

offices, restaurants, or cars until their placement was secured. Now, children are able to come to a clean, child-friendly, and comfortable environment that is equipped to attend to their immediate health, emotional, and nutritional needs until their placement is secured.

Another Road to Safety – Another Road to Safety (also known as the ARS Program) provides early intervention and prevention services in collaboration with Every Child Counts and community-based organizations in East Oakland and South Hayward. Families referred to the department are triaged using Structured Decision-Making (SDM), a standardized tool which guides risk and safety evaluation. The ARS Program then intervenes with families who are identified to be at risk of child abuse and neglect, but do not meet the full criteria for investigation. This year the agency has received federal funding to support the program in serving a total of 100 families in each of the two communities.

Independent Living Skills Program (ILSP) -- This year ILSP was able to increase the number of rented rooms at Carlos Bee dormitory, near Cal State Hayward, from 4 rooms to 20 rooms to provide emergency housing for emancipating ILSP youth who are without placement or housing. In addition, the department has recently entered into a collaboration with Alameda County Health Care Services Agency to provide immunizations for homeless youth and remains committed to continuing to explore options for addressing the ongoing challenge of housing for emancipated foster youth.

Project Destiny -- Project Destiny has begun to produce outcome data this year indicating that Destiny children are more likely to achieve a positive placement change by moving to a lower level of care and/or obtaining a relative placement, when compared with the control group. There have been over 25 dependency dismissals for Destiny children (10 families stabilized/reunified, six court-ordered terminations, and three emancipations/age of majority) compared to only one dismissal for the control group. Additionally, the average length of hospital stay for the control group was 74 days versus 17 days for the experimental group. Thus, it is clear that Project Destiny is already improving performance measures and will likely improve measures of well-being and safety in the next year.

Adoptions -- In collaboration with the Alameda County Juvenile Court, the department held its Third Annual Adoption Day in the month of November, which is National Adoption Awareness month. Over 300 family members, friends, and dignitaries attended this year honoring the adoptions of 83 children and 55 families. Plans are in place to hold Alameda County's Fourth Annual Adoption Day on National Adoption Day, in 2003.

New Programs – The department has received an Annie E. Casey Foundation planning grant that will help to reconceptualize, redesign, and reconstruct Alameda County's child welfare system in an effort to improve results for children and families involved in the child welfare system. In addition, in collaboration with the Center for the Vulnerable Child (CVC) at Children's Hospital, the department obtained a grant from Alameda County's Every Child Counts to provide child welfare workers with training and consultation on the mental health needs of children from 0 to 5 years of age. Lastly, the

department was selected to join 13 other counties in the implementation of Phase 2 of the Linkages Project, funded by the Stuart Foundation and the California Department of Social Services. The project is a statewide effort to foster better integration of services delivered through County welfare departments.

DEPARTMENT OF MEDI-CAL AND BENEFITS ADMINISTRATION (SSA)

Medi-Cal Center – In 2002, the Medi-Cal program experienced a significant increase in the number of applications. From February 2002 to October 2002, client intake increased from 3,353 to 3,914. Some possible reasons for the increase include: (1) the current economy has worsened forcing employers to eliminate health coverage for their employees; (2) the new Mail-In Medi-Cal Application was implemented; (3) the face-to-face interview was eliminated; and (4) people are becoming more informed regarding eligibility criteria for receiving benefits.

CalWORKs - Implementation of the CalWORKs program continued throughout 2002-2003. In September 2002, active adults receiving CalWORKs cash assistance totaled 10,848 and, as has been seen in the previous few years, there continues to be an overall decline in applications. As of December 31, 2002, Alameda County's current participation rate was 25.9%, which exceeds the required federal participation rate. CalWORKs clients began reaching their time-limits in January 2003 and SSA has continued efforts to contact and work with clients who are approaching time limits.

Food Stamps – The Food Stamp Error Rate continued to decrease in FY 2002, resulting in improved payment accuracy and quality service for our clients. For FY 2002, the Food Stamp error rate was 6.45 percent. For the third consecutive year, this rate was below the Federal Tolerance Level, which in 2001 was 8 percent.

General Assistance – The General Assistance caseload increased slightly over the past year from 3,257 cases in December 2001 to 3,369 in December 2002. The General Assistance grant for a single individual is currently set at \$336 per month.

No Wrong Door Pilot Project – The No Wrong Door Pilot Project is a health care coverage "team approach" that works with clients to help them obtain health care coverage regardless of who pays – Medi-Cal, Healthy Families, or other affordable, low-cost health coverage plans for families with incomes at or below 300% of the Federal Poverty Level. The pilot project centers around enrolling uninsured families in programs for which they are already eligible and fundamentally transforming the way the Social Services Agency does business. Under this plan, the primary strategy is to eliminate barriers to obtaining coverage and create a seamless enrollment process for applicants by changing internal systems and operational structures.

DEPARTMENT OF WORKFORCE AND HUMAN SERVICES (SSA)

Multidisciplinary Team – An innovative interagency multidisciplinary team (MDT) has continued to provide intensive case management services to Welfare to Work participants who have multiple barriers to employment. After its first year of operation,

this team has produced high participant satisfaction and great interest from the Family Resource Center agencies for expanded and increased services of this type.

Workforce Investment Act (WIA) – WIA mandates that the Workforce Investment Board (WIB) develop, coordinate, and improve the local employment and training system to meet employer needs for skilled workers in the global economy. The WIA's two customers are employers and job seekers. During 2002, the WIB was successful in obtaining two competitive grants from the State through partnership with the other WIBs and workforce partners in the East Bay.

DEPARTMENT OF CHILD SUPPORT SERVICES

The Department of Child Support Services has had a number of accomplishments during the fiscal year. To begin the year, the department was established as an independent County department, separate from the District Attorney's Office. All employees became part of the County Civil Service System and impacts to customers were minimized. In addition, the department maintained or increased its Federal Performance Measures, especially in the area of current support distributed as a percentage of current support due, which grew from 54 to 57 percent. In total, the department collected \$102,659,021 for FY 2003, an increase of \$1,445,264. This gain occurred despite the generally poor economy, and in contrast to the results of some jurisdictions which saw decreased collections. Finally, the department passed the State's Performance-Based Audit for the twelfth straight year and also passed the Federal Data Reliability Audit.

2003-04 Proposed Budget	29,992,174	544,046	29,448,128	291.98

Service Impacts

- Welfare Fraud activities will be reduced by approximately 25 percent, resulting in decreased fraud prevention activities. Of the total welfare fraud reduction, approximately 15 percent will impact the District Attorney's Welfare Fraud Unit.
- Reductions in full-time equivalent positions in Agency administration will reduce accounting, office administration, personnel support, training and information technology support for operating departments. In addition, contracted training services for staff will be reduced by half.
- Fewer children and families will gain access to Supplemental Security Income (SSI) services as a result of reductions in contractual support.

The Proposed Budget includes funding for 291.98 full-time equivalent positions at a net county cost of \$29,448,128.

FINAL BUDGET ADJUSTMENTS

Final Budget adjustments in the Agency Administration and Finance budget include:

Board/Final Adjustments	Appropriation	Revenue	Net County Cost Inc/(Dec)	FTE
2003-04 Proposed	29,992,174	544,046	29,448,128	291.98

2003-04 Approved Budget	30,267,908	544,046	29,723,862	294.06

The Final Budget includes funding for 294.06 full-time equivalent positions at a net county cost of \$29,723,862.

FINAL/AMENDED BUDGET ADJUSTMENTS

No adjustments are required.

The Final/Amended Budget includes funding for 294.06 full-time equivalent positions at a net county cost of \$29,723,862.

MAJOR SERVICE AREAS

The Department provides operational support and ensures program integrity. Major divisions include:

FINANCE AND OFFICE SUPPORT

Finance and Office Support is responsible for developing and administering the Agency's budget, processing contracts, providing agency-wide contract training, preparing claims for reimbursement from funding sources, overseeing the distribution of assistance payments to clients, procurement, mailroom services, public service lines, and records retention.

INFORMATION SERVICES

Information Services is responsible for developing, managing, and maintaining the Agency's network systems. This includes managing Internet and Intranet development, coordinating upgrades to the Agency's mainframe Case Data System (CDS), and providing leadership in development of new systems and services.

HUMAN RESOURCES

Human Resources is responsible for providing comprehensive human resources and personnel services for the Agency. This includes payroll, recruiting, testing, and hiring Agency staff; providing advice, consultation, and leadership on employee relations and labor relations issues; managing employee health and wellness, safety, and worker's compensation programs; and employee benefit matters.

STAFF DEVELOPMENT

Staff Development is responsible for developing, implementing, and managing a comprehensive program for all departments in Social Services. This includes program specific training as well as agency-wide career development, and training including: civil rights and diversity, customer service, health and safety, computers and technology, new employee orientation, personal and professional employee development, and supervisory, management, and leadership development.

WELFARE FRAUD PREVENTION DIVISION

Welfare Fraud Prevention Division is responsible for preventing welfare fraud and monitoring program integrity. This includes Income and Eligibility Verification System (IEVS) Review and Overpayment/Overissuance processing, IEVS Investigations, Fraud Early Detection (FRED) Investigations, Appeals, and Appeals Compliance. These units reduce the incidence of fraud and protect the rights of clients.

Goals:

To maximize resources for flexible service delivery;

To reinforce principles of continuous improvement through program planning, evaluation, research, and customer feedback programs;

To develop communication systems to support better information-sharing and dialogue between administration, employees, recipients, and community partners;

To provide computer network and automated case management systems to support direct service delivery and management information;

To competitively recruit, hire, and retain an effective workforce;

To ensure an effective personal and professional development program for employees;

To promote diversity within the Agency; and

To ensure program integrity and accountability.

Objectives:

Finance

- Work with program staff to align expenditures with revenues.
- Develop new accounting system to track claims, payment, and account receivables.
- Train new and existing staff on contract development and invoice processing.
- Upgrade agency-wide contracts databases.

Information Services

- Development of Web-based systems and services including on-line program practice guides.
- Continue upgrading the agency's expanded computer network and communications technology to allow staff to effectively use CWS/CMS, ALCOLINK, e-mail, Intranet communications and Internet services.
- Continue development of the CalWIN implementation and change management plan.
- Continue development of the agency-wide Intranet system to improve communication and information retrieval including monitoring and evaluation for tracking and accountability.
- Implement a secure remote access computer network to allow community partners and management staff to access necessary information.

Human Resources

- Evaluate and realign staff roles and responsibilities resulting from implementation of ALCOLINK HRMS.
- Bring up to date and maintain position control data. Review and revise reports and queries to provide the position control information to the departments.
- Continue partnership with CalWIN project to develop new strategies for effectively attracting applicants and employees in line with the requirements of the CalWIN systems implementation by February 2005.

Staff Development

- Incorporate program and technical training into consolidated staff development.
- Implement a learning agenda for all management staff including senior management which emphasizes leadership and organizational development principles.
- Implement a revised training curriculum which reflects the findings from the agency-wide needs assessment.
- Implement an intern training program which includes all levels from high school to graduate study.

Facilities

- Identify a long-term strategy for opening a Self-Sufficiency Center in North County.

Welfare Fraud Prevention Division

- Continue to ensure speedy benefits verification and reconciliation.
- Continue efforts to reduce caseload backlog.
- Continue efforts to enhance program integrity throughout the agency.
- Continue efforts to reduce welfare fraud in Alameda County.

MISSION STATEMENT

To provide a consumer-focused, accessible, coordinated, and quality service delivery system that protects, supports, and advocates for dependent adults, particularly those with disabilities, and the vulnerable elderly and aging population, and promotes their social, economic, and healthy well-being.

MANDATED SERVICES

Mandated services include direct services through Adult Protective Services, Public Guardian-Conservator, In-Home Supportive Services (IHSS), the Area Agency on Aging, Medi-Cal Long-term Care, and Qualified Medicare Benefits (QMB) programs and through contracted community-based services under the Older Americans and the Older Californians Acts.

DISCRETIONARY SERVICES

Discretionary services, such as municipal senior centers, adult day care, and nutrition programs are provided to the elderly. Other discretionary services, which include the non-elderly, are the Veterans Services Office, which assists veterans and their family members, and the Public Authority, which administers the delivery of services and a registry of service providers to IHSS consumers.

The Final/Amended Budget includes funding for 187.91 full-time equivalent positions at a net county cost of \$23,235,129.

MAJOR SERVICE AREAS

ADULT PROTECTIVE SERVICES (APS)

APS workers intervene and investigate on behalf of elders and dependent adults who are at-risk of or are experiencing physical or mental abuse, financial exploitation, self-neglect as a result of ignorance, illiteracy, incompetence, mental limitation, substance abuse, or poor health. Contributing factors to abuse include inadequate food, shelter or clothing, exploitation of income and resources, or being deprived of entitlements.

Goal:

To successfully intervene and achieve positive outcomes in the lives of elderly and dependent adults at-risk of physical, mental or financial abuse, neglect, self-neglect, or exploitation.

Objective:

- Coordinate and conduct training of local law enforcement agencies with APS to enhance collaboration between APS Social Workers and police officers in the investigation and prosecution of elder abuse cases.
- Advocate for continued state funding support for APS as an essential statewide mandated program.
- In collaboration with the District Attorney's Elder Abuse Unit and Victim Witness Program, seek to improve the coordination of elder abuse reporting and prosecution with local law enforcement agencies countywide, to ensure that criminal charges are filed timely.
- In partnership with the District Attorney's Office and the District Attorney's Elder Abuse Unit, work to develop and operationalize the A.C.T. – F.A.S.T (Alameda County Targeted – Financial Abuse Specialist Team), and the F.A.S.T. consulting/advisory committee.

Workload Measures:

PUBLIC AUTHORITY FOR IN-HOME SUPPORTIVE SERVICES

The Public Authority was established to enhance the IHSS program for consumers and home care workers. The Public Authority is a consumer-directed agency mandated to provide a registry service to help IHSS consumers find and hire screened workers, provide or arrange training for consumers and workers, give consumers a voice in how IHSS services are provided, and serve as employer of record for the IHSS workforce. In addition, the Public Authority provides an emergency worker replacement service, consumer organizing, leadership development, and a problem-solving role to help workers and consumers resolve IHSS problems. The members of the Alameda County Board of Supervisors, acting independently from their role as County Supervisors, serve as the governing body of the Public Authority.

Goal:

To maximize independence and promote quality personal assistance for seniors and people with disabilities receiving In-Home Supportive Services.

Objectives:

- Provide training to consumers and workers to increase their knowledge about home care services and the responsibilities of being an employer or home care worker.
- Assist IHSS consumers with hiring and managing their home care workers through a continuum of services including the Centralized Registry, the Rapid Response Worker Replacement service, and individualized support.
- Provide consumers with a voice in determining how services are delivered.

Workload Measures:

Public Authority for IHSS	FY 2001 Actual	FY 2002 Actual	FY 2003 Estimate	FY 2004 Estimate

IN-HOME SUPPORTIVE SERVICES (IHSS)

IHSS is designed to assist elderly, blind, or persons with disabilities to reside in their homes and avoid institutional care by providing home care workers. Home care workers are authorized for individuals when they are no longer able to safely care for themselves, perform necessary personal care and routine activities of daily living, or manage routine household tasks and chores without assistance. For those clients who are non-self directing and pose a hazard for themselves if left unattended, protective supervision may also be authorized. These individual home care workers are paid \$9.50 per hour effective February 1, 2003 for all services performed through a State payroll system.

Goal:

To provide the delivery of essential and necessary In-Home Supportive Services to clients at risk of institutionalization.

Objectives:

- Provide ongoing case management services for all clients.

- Complete new applications in an accurate and timely manner.

Workload Measures:

In-Home Supportive Services	FY 2001 Actual	FY 2002 Actual	FY 2003 Estimate	FY 2004 Estimate
Total New Applications	2,015	5,324	5,655	5,995

MEDI-CAL LONG-TERM CARE

Long-Term Care (LTC) Medi-Cal is provided to individuals who are aged, blind, or disabled and require care in a Long-Term Care Facility. Coverage may include, if necessary, acute care services, placement in skilled nursing, or intermediate care facilities.

Goal:

To ensure that necessary medical services are available to the aged, blind, and disabled who need care in a Long-Term Care Facility.

Objectives:

- Complete 90 percent of LTC case re-investigations and budget changes within the required 60 days.
- Establish and foster ongoing and timely collaboration with community-based agencies serving the elderly in need of LTC services.

Workload Measures:

Medi-Cal Long-Term Care	FY 2001 Actual	FY 2002 Actual	FY 2003 Estimate	FY 2004 Estimate

Ongoing Cases per Year	2,722	1,442	1,310	1,310

QUALIFIED MEDICARE BENEFICIARY

Persons 65 years or older and the blind and disabled who are low-income are eligible for Qualified Medicare Beneficiary (QMB) Medicare. The Agency assists individuals to complete the Medicare application and follow-up to ensure that they receive their benefits. In certain instances, the Agency is able to pay some or all of the recipient's Medicare expenses. This financial assistance ensures that health care is available to this vulnerable population.

Goal:

To provide the timely benefit of Medicare health coverage for eligible aged, blind, and disabled persons otherwise unable to afford coverage.

Objectives:

- Establish a tracking system to ensure that all annual QMB/MSP re-authorizations are processed within State-mandated timeframes.
- Increase community awareness of the QMB/MSP program by expanding outreach activities to local community-based agencies, senior organizations, and community groups.

VETERANS' SERVICES OFFICE

The Veterans' Services Office provides information and assistance with veterans' benefits to military veterans, their dependents, and beneficiaries, and assists them in filing benefit claims. Veterans' benefits include compensation for service-connected disabilities, pensions for non-service-connected disabilities, and surviving spouse pensions for non-service-connected death of wartime veterans, insurance claims, burial benefits, medical treatment, home loans, and financial assistance for dependents at public colleges in the State of California. The Veterans' Services Officer coordinates countywide services that support the needs of veterans.

Goal:

To expand services and assistance to veterans, their families, and beneficiaries in order to access and increase benefits and entitlements.

Objectives:

- Increase the number of veterans, their dependents, and beneficiaries served by Alameda County over 2003-04.
- Increase community awareness of veterans' services by expanding outreach activities to local community-based organizations, and community groups through staff outstations in all parts of the county.

- Increase effectiveness of claims and award tracking by implementing a computerized database system and establishing access to the U.S. Department of Veteran Affairs database.

Workload Measures:

Veterans Services Office	FY 2001 Actual	FY 2002 Actual	FY 2003 Estimate	FY 2004 Estimate

AREA AGENCY ON AGING

The Alameda County Area Agency on Aging (AAA) is the primary agent for change that ensures and sustains a life free from need and isolation for all older County residents. Through leadership and collaboration, a community-based system of care will provide services that support independence, protect the quality of life of older residents and persons with functional impairments, and promote senior and family involvement in the planning and delivery of services.

AAA plans, administers, and coordinates services primarily for persons over the age of 60 under the Older Americans and the Older Californians Acts. The following services are provided through contracts with community-based organizations and public agencies: Adult and Alzheimer's Day Care, Brown Bag, Caregiver Support Services, Case Management, Congregate and Home Delivered Meals, Disease Prevention and Health Promotion Services, Foster Grandparent Program, Friendly Visitors, Health Insurance Counseling, Health Services, Legal Services, Money Management, Monolingual Information and Assistance, Ombudsman, Personal Care, Senior Centers, Senior Companion Program, and Senior Employment.

Goals:

To develop and support a comprehensive and coordinated system of home and community-based care.

To be a catalyst in providing a forum to focus on health and wellness issues for seniors.

To promote consumer and community participation and responsibility in the planning, delivery, and evaluation of services.

Objectives:

- Focus on evaluation of the new National Family Caregiver Support Program and identify unmet needs.

- Provide leadership in implementing and maintaining a partnership with Independent Living Centers on a statewide basis.
- Update the Long-Term Planning Council 10-year service plan.

Workload Measures:

PUBLIC GUARDIAN-CONSERVATOR

The Public Guardian's Office provides conservatorship and estate administration where protective intervention is needed. The two types of conservatorship, Lanterman-Petris-Short (LPS) and Probate, can only be established by order of the Superior Court. Probate conservatorship involves all aspects of consumers' lives, including financial management, housing, medical care, placement, and advocacy. LPS conservatorship is responsible for directing the mental health treatments and placements of clients. Services provided include annual assessments resulting in financial and medical status reports to the court, management of financial assets, personal service management, placement services, and 24-hour emergency services on behalf of the consumer.

Goal:

To lawfully discharge the duties of taking care of an individual and/or the individual's property by assuming the responsibility to protect, preserve, manage and dispose of the client's estate, acting in the best interests of each consumer.

Objectives:

- Facilitate timely and appropriate Probate referrals by raising public awareness of fiduciary elder abuse and the role of the Public Guardian in safeguarding assets and personal safety of vulnerable elderly and dependent adults.
- Ensure that Public Guardian fiduciary responsibilities for annual and decedent court accountings are consistently performed to conform with requirements of the Probate Code.
- Improve coordination between the Public Guardian and community mental health advocates in facilitating timely mental health treatments and placement of LPS conservatees.

Service Impacts

- Reduction in budgeted amount for special departmental expenses will limit department's ability to respond to unexpected expenses.
- Funding will be reduced for bus passes and travel expenses for biological parents to participate in court mandated services. This will limit options for responding to parents' travel needs and may lead to a delay in reunification with their children.
- Reduction in budgeted amount for professional and specialized services will decrease access to outside child welfare clinicians and experts.
- Community-based provider contract reductions for respite care may affect the recruitment and retention of relative caregivers and emergency foster parents, but are consistent with expectations that existing contractors will pursue alternate sources of funding for these services. However, these reductions could result in fewer placements with relatives, delays in placement, and longer stays in foster care for children.
- Community-based provider contract reduction for child abuse prevention services will decrease the level of this service, but this reduction will be mitigated by the continued funding of such services through contractors selected by the Child Abuse Prevention Task Force.
- Community-based provider contract reduction for drug testing and treatment services will require closer monitoring of these services by Agency staff, and may require the redirection of services to existing contractors.
- Community-based provider contract reduction for emergency response services, which operate during evenings, weekends and holidays, will require that these services be absorbed by Child Welfare staff and by other existing contractors.
- The loss of vacant full-time equivalent Children and Family Services positions will reduce the flexibility to address current and future workload demands. These

vacancies occur in administrative support positions for child welfare services and in line staff positions providing direct services to children and families.

The Proposed Budget includes funding for 593.67 full-time equivalent positions at a net county cost of \$9,109,895.

FINAL BUDGET ADJUSTMENTS

Final Budget adjustments in the Children and Family Services budget include:

FINAL/AMENDED BUDGET ADJUSTMENTS

No adjustments are required.

The Final/Amended Budget includes funding for 590.89 full-time equivalent positions at a net county cost of \$8,705,880.

MAJOR SERVICE AREAS

EMERGENCY CHILD ABUSE

Emergency Child Abuse services are provided through the Emergency Response and Dependency Investigations programs. Emergency Response provides a 24-hour a day child abuse hotline and initial investigation of child abuse reports. Dependency Investigations involve thorough assessments of child abuse allegations and recommendations to the Juvenile Court on the dependency status and placement of abused or neglected children.

Goals:

To assure a safe living environment for children referred to the department for suspected neglect or abuse, and determine as quickly as possible the credibility of the allegations.

To reduce recurrence of child abuse and/or neglect.

Objectives:

- Provide rapid emergency investigations to prevent further abuse and neglect.
- Implement Another Road to Safety to better meet the needs of children at moderate risk of abuse and neglect.
- Provide a continuum of prevention/early intervention services.
- Implement the use of Structured Decision-Making (SDM) Tool to determine the level of family intervention.

Workload Measures:

Emergency Child Abused	FY 2001 Actual	FY 2002 Actual	FY 2003 Estimate	FY 2004 Estimate
Referrals Received	9,629	8,274	8,500	8,500
Referral Rate per 1,000 Children in County	24.6	23.1	27.0	27.0
Investigations Conducted	5,512	4,873	4,100	4,100
Cases Opened for Investigation and/or Services	1,114	1,245	1,300	1,300
Children Declared Dependents of the Court	924	963	950	950

IN-HOME SERVICES

In-Home Services are provided by Family Maintenance workers for up to 12 months to families where child abuse or neglect has occurred, and by Family Preservation workers for up to three months to prevent placing children in foster care or to expedite their safe return from foster care. Services are directed at keeping families intact.

Goal:

To achieve a safe and stable living situation for at-risk children to remain in their family home.

Objectives:

- Offer a strength-based service approach for Family Maintenance and Family Preservation services.

- Reduce the number of children who return to the Child Welfare Services system after dependency has been dismissed.

Workload Measures:

In-Home Services	FY 2001 Actual	FY 2002 Actual	FY 2003 Estimate	FY 2004 Estimate
Family Preservation Children Served	425	425	323	300
Family Maintenance Children Served (Average Caseload at Any Given Time)	1,403	1,319	1,490	1,400

OUT-OF-HOME SERVICES

Out-of-Home Services are provided by Family Reunification and Permanent Placement child welfare workers. Case management and foster care services are provided to children and families after the Juvenile Court declares dependency. During the first 18 months of placement, the goal is to reunify families. For children who cannot return to their families, services include adoption, guardianship, stabilizing relative or foster placements, and independent living skills for teens.

Goal:

For children declared dependents of the Court, to achieve safe reunification with families or other stable living arrangements.

Objectives:

- Increase the number of reunifications that remain stable for one year.
- Implement SDM to increase reunification rates.
- Offer children stable foster care placements while seeking reunification or permanent placement.
- Expand the Kin-GAP program to better support placement with relative guardians.
- Increase the number of participants in the Independent Living Skills Program (ILSP) who find employment or continue their education after transitioning out of foster care to independent living. Expand services to emancipating youth, including housing opportunities and vocational training.
- Maintain full compliance with Division 31 regulations.

Workload Measures:

Out-of-Home Services	FY 2001 Actual	FY 2002 Actual	FY 2003 Estimate	FY 2004 Estimate
Children Served by Family Reunification Program	999	1,016	1,050	1,050
Children Reunified from All Programs	748	755	760	760
Children Served by Permanent Placement Program (Monthly Average)	4,040	4,000	4,129	4,150
Children Placed with Relatives in Kinship Guardian Assistance Payments (Kin-GAP) Program	N/A	177	277	200
Youth Served by Independent Living Skills Program (ILSP) Including Emancipated Youth	816	1,000	1,044	1,100

ADOPTION SERVICES

Adoption Services include freeing children for adoption by terminating rights of parents who have abused or neglected their children and for whom dependency has been declared. Adoption Services also include relinquishments from parents who voluntarily terminate their parental rights. Services are provided for independent adoptions, step-parent adoptions, and post-adoption services for adopted children and families, including after the adopted child has become an adult. Services also include recruiting and assessing prospective adoptive parents, placing freed children in these homes, and finalizing the adoptions. Private adoption agencies and the adoption agencies of other counties are also used.

Goal:

To improve the stability of home life for children whose parents cannot care for them.

Objective:

- Increase the number of successful adoptions finalized in 2003-2004.

Workload Measures:

Adoptions	FY 2001 Actual	FY 2002 Actual	FY 2003 Estimate	FY 2004 Estimate
Children Placed in Adoptive Homes	102	168	193	275
Finalized Adoptions of Court Dependent Children	116	131	181	275

Service Impacts

The elimination of CalWORKs full-time equivalent positions will diminish the agency's ability to administer its basic welfare programs and reduce the effectiveness of efforts to connect welfare recipients to jobs. The impacts of these reductions will include:

- Delays in the timely delivery of benefits to clients;
- Increases in administrative error rates, with the potential for financial sanctions from State and federal governments;
- Elimination of many full-time equivalent positions providing client supports including social workers and client advocates, who help identify clients with barriers to employment and connect them to available supportive services, including mental health, substance abuse, and domestic violence;
- Substantial reductions in the ability to oversee and provide technical assistance to community-based contractors;
- Elimination of GA services in the main Oakland office at 400 Broadway, requiring GA clients to travel to Eastmont Self-Sufficiency Center; and
- Substantial reductions in employment services full-time equivalent positions, resulting in increased caseloads and a reduction in the effectiveness of individual case management, placement, and retention services.

The Proposed Budget includes funding for 528.62 full-time equivalent positions at a net county cost of \$13,177,749.

MAJOR SERVICE AREAS

CALIFORNIA WORK OPPORTUNITY AND RESPONSIBILITY TO KIDS

CalWORKs is California's Temporary Assistance to Needy Families (TANF) block grant program providing time-limited assistance to families with children. CalWORKs is a Work First! model that emphasizes labor market entry as the key to self-sufficiency. With few exceptions, CalWORKs parents must participate in job services, training, education, or community service that leads to self-sufficiency. Services to support the transition to work include childcare, transportation, job retention, career advancement, alcohol or other drug, mental health, and domestic abuse services. Most CalWORKs families also receive Medi-Cal and Food Stamps.

Goal:

To improve the economic stability of needy families while supporting their transition from welfare to work.

Objective:

- Provide accurate and timely benefits to eligible CalWORKs families.

Workload Measures:

CalWORKs	FY 2001 Actual	FY 2002 Actual	FY 2003 Estimate	FY 2004 Estimate
Households Aided per Month	18,358	16,696	16,700	17,500

% of Employed CalWORKs Families Working Full-Time	31%	31%	28%	28%

CAL-LEARN

Cal-LEARN is a State-mandated program that provides case management and supportive financial services for CalWORKs teenage parents. Teen parents who have not already graduated from high school must attend school to earn a diploma or GED. The County's Adolescent Family Life Providers provide services. Teens receive cash incentives for school attendance and high school graduation.

Goal:

To enable and require teen parents to complete high school or equivalent and foster healthy families using the Adolescent Family Life Program model.

Objective:

- Provide ongoing support and services for teen parents to enable them to graduate from high school or receive a GED.

Performance Measures:

Cal-LEARN	FY 2001 Actual	FY 2002 Actual	FY 2003 Estimate	FY 2004 Estimate
Served per Year	390/mo	149/mo	150/mo	155/mo
Progress Incentives per Year	37%	41	43%	45%

MEDI-CAL

Medi-Cal provides medical coverage to promote basic health care for individuals and families. Funding is 100% State and federal. In an effort to improve access to health care, reduce infant mortality, and sustain Managed Care and Healthy Children programs, outreach in community facilities is extensive. About 5% of Medi-Cal recipients also receive Food Stamps.

Goal:

To maximize health care options to eligible recipients at minimal or no cost to the recipient.

Objectives:

- Actively enroll and sustain all eligible persons in Medi-Cal to maximize insurance coverage.
- Systematically advocate for and inform clients of available health care provider and insurance options.

Workload Measures:

Medi-Cal	FY 2001 Actual	FY 2002 Actual	FY 2003 Estimate	FY 2004 Estimate

FOOD STAMPS

Food Stamps provide monthly benefits that help low-income households purchase food. Food Stamps benefits are 100% federally-funded. Individuals who do not qualify for federal Food Stamps due to immigration status may be eligible for State-funded benefits through the California Food Assistance Program (CFAP).

Goal:

To assist low-income individuals and families in meeting their nutritional needs.

Objectives:

- Provide the correct amount of benefits in a timely manner at application intake.
- Transition employable adult Food Stamps recipients into employment with the support of ancillary services.
- Increase access to and awareness of good nutrition.

Workload Measures:

GENERAL ASSISTANCE

General Assistance (GA) provides a safety net for needy adults who do not qualify for other State and federal programs. Benefits are 100% County funds. Most GA recipients receive Food Stamps and County-funded indigent health services. SSI advocacy and FSET services are also provided to GA recipients.

Goal:

To provide economic assistance to eligible persons while supporting their transition from welfare to work or while helping them gain access to other appropriate programs or services.

Objectives:

- Provide accurate and timely benefits to eligible General Assistance recipients.
- Provide the support network to aid in the transition to self-sufficiency.
- Assess and support the transition of eligible recipients into other assistance programs (such as SSI or the new Cash Assistance Program for Immigrants).

Workload Measures:

MISSION STATEMENT

To promote self-sufficiency and stability, provide support to individuals and families, and foster a workforce development system that increases the economic vitality and human potential of communities through public and private sector partnerships.

MANDATED SERVICES

Employment, eligibility, and social services to individuals and families are required by State and federal regulations. Referrals are made to appropriate support services to promote self-sufficiency. Programs include: California Work Opportunity and Responsibility to Kids (CalWORKs) and its key components including employment, transportation, child care, domestic violence services, substance abuse, mental health, homeless and safety net, and refugee employment.

DISCRETIONARY SERVICES

To fully meet the needs of the community, the Department provides the following discretionary services: workforce development services through the Workforce Investment Board (WIB), the Refugee Employment Services program, and safety net services such as food and emergency shelter.

Service Impacts

- CalWORKs community-based provider contract reductions will scale back employment services and restrict availability of funding for community-based providers and others to provide job preparation, placement and retention services. Clients, who increasingly have greater barriers to employment, will have substantially more limited opportunities to access necessary and appropriate services to help them find and keep jobs. Specific service reductions will include job placement, retention and advancement services; outreach to families in sanctioned status; vocational assessment contracts; and transportation contracts.
- Reduction of transportation subsidies will make this support unavailable to clients who are working and have lost cash assistance due to federal time limits.
- Reduction of CalWORKs allocation to the Hayward One-Stop Career Center by 30 percent will reduce the availability of employment assistance services provided to CalWORKs and other clients at the One-Stop Center.
- Elimination of drop-in child care services at Self-Sufficiency Centers will require parents to bring their children with them to appointments, make other child care arrangements or limit their appointments with Social Services Agency staff. More than 8,000 children per year currently utilize this service.

The Proposed Budget includes funding for 538.36 full-time equivalent positions at a negative net county cost of \$10,054,477.

FINAL BUDGET ADJUSTMENTS

Final Budget adjustments in the Workforce and Human Services budget include:

Board/Final Adjustments	Appropriation	Revenue	Net County Cost Inc/(Dec)	FTE
2003-04 Proposed	90,533,334	100,587,811	(10,054,477)	538.36

2003-04 Approved Budget	90,291,747	100,587,811	(10,296,064)	536.36

The Final Budget includes funding for 536.36 full-time equivalent positions at a negative net county cost of \$10,296,064.

FINAL/AMENDED BUDGET ADJUSTMENTS

No adjustments are required.

The Final/Amended Budget includes funding for 536.36 full-time equivalent positions at a negative net county cost of \$10,296,064.

MAJOR SERVICE AREAS

CALWORKS CONTRACTS – PARTNERSHIPS WITH COMMUNITY PROVIDERS

Frequently the County partners with community-based organizations, non-profit agencies, schools, businesses, labor unions, private industry councils, and other governmental entities to ensure a coordinated and comprehensive delivery of services for clients.

The CalWORKs contracts allow the Agency to expand service capacity by building on community assets to better match services to individual needs. The contracts include: community-based Work First! employment, job development and retention, self-employment, neighborhood models, transportation assistance, and domestic violence services. There are over 60 individual organizations involved in this network of providers.

Goal:

To improve the economic stability of needy families while supporting their transition from welfare to work.

Objectives:

- Place adult CalWORKs recipients in employment.
- Provide necessary supportive services to adult CalWORKs recipients to help them obtain and retain employment.
- Provide ongoing support to contractors placing adult recipients of CalWORKs into employment.

Workload Measures:

CalWORKs Contracts	FY 2001 Actual	FY 2002 Actual	FY 2003 Estimate	FY 2004 Estimate
Enrollments per Year	1,934	2,643	2,100	1,900
Placement per Year	772	1,627	1,092	1,330
% of Clients Employed through Community Contracts	40%	62%	52%	70%

STAGE ONE CHILD CARE

Child care is perhaps the most important support service needed by CalWORKs recipients in obtaining and retaining employment. Funding for subsidized child care is provided to CalWORKs recipients by the State through a three-stage system. Stage 1 Child Care is administered by the County, in conjunction with two of the County's privately operated Alternative Payment Providers. Services are provided to CalWORKs recipients as they begin welfare to work activities. Stage 2 Child Care services are administered by seven of the County's Alternative Payment Providers. These child care services are provided to CalWORKs recipients once they have stabilized their employment. Stage 3 Child Care is also administered by Alternative Payment Providers and is provided to former CalWORKs recipients and other working poor families. The subsidy levels and other eligibility requirements for the three stages of child care are determined by the State.

As the number of employed CalWORKs recipients increases, so has the demand for child care. Many of these recipients have achieved stability in their employment and are moving into Stage 2 child care. Thus, while the overall demand for child care has rapidly increased, it has been shifting away from Stage 1 to the later Stages. The Agency expects the level of need for Stage 1 child care to stabilize.

Goal:

To actively participate with the child care community to bring resources and appropriate child care policies to Alameda County.

Objective:

- Facilitate access to quality child care on an ongoing basis.

Workload Measures:

Stage One Child Care	FY 2001 Actual	FY 2002 Actual	FY 2003 Estimate	FY 2004 Estimate
CalWORKs Families Stage I per Month	2,787	1,712	1,821	1,821
Cal LEARN Families per Month	70	70	65	65

REFUGEE EMPLOYMENT SERVICE (RES)

To assist refugees entering our community, the Refugee Employment Services program provides job training, job placements, social adjustment and English-as-a-second language services. These services are provided through local community-based organizations with specific language capacities for the array of ethnic groups residing in Alameda County.

Goal:

To assist refugees in their social adjustment and with becoming economically self-sufficient.

Objectives:

- Provide refugees with social adjustment assistance.
- Place refugees in employment on an ongoing basis.

Workload Measures:

Refugee Employment Services	FY 2001 Actual	FY 2002 Actual	FY 2003 Estimate	FY 2004 Estimate
Social Adjustment Services per Year	520	395	350	300
Employment Services per Year	420	239	185	150
Job Placements per Year	336	179	148	120
% of Refugees Employed through Community Contracts	80%	75%	80%	80%

EMERGENCY HOUSING

The high cost of housing in the Bay Area is a regional problem for low-income families. With the escalation in rental rates, many low-income families are facing difficulties in finding and/or retaining housing. And, with large increases in utility rates, the problem is expected to increase.

As a critical need, the Agency is able to provide a limited amount of housing assistance. The emergency shelter program provides short-term housing assistance to needy individuals and families. The Community Housing and Shelter Services (CHASS) program provides emergency shelter to homeless single adults in the General Assistance program. To strengthen and expand emergency shelter programs, the Agency increased funding to the CHASS shelters to make facility improvements, provided new funding for shelters in North and South County, and continued funding for Continuum of Care planning.

However, these programs are not long-term solutions. The Agency continues to work with other organizations to identify and/or create safe and affordable housing.

Goal:

To work with other organizations in ensuring that adequate and affordable transitional and permanent housing is available to low-income families in Alameda County.

Objective:

- Provide emergency shelter to those in need.

Workload Measures:

Shelter Capacity	FY 2001 Actual	FY 2002 Actual	FY 2003 Estimate	FY 2004 Estimate
# of Shelters	13	12	11	11
Nightly Capacity	n/a	n/a	407	407
Total Bed Nights per Year	n/a	n/a	97,680	97,680

EMERGENCY FOOD ASSISTANCE

The high cost-of-living in the Bay Area is a problem for low-income families. There is also a growing demand for food assistance. To help meet this need, the Community Services budget includes funding for the County's emergency food distribution system. This system provides food assistance to those facing short-term crises and complements the Food Stamp program. The Alameda County Community Food Bank serves as a hub for the system, including procurement of commodities, and distribution to soup kitchens, food boxes, and pantry sites. Volunteer sites supplement emergency food distribution.

Goal:

To actively participate with the local food network to create greater resources and improve access to these resources.

Objective:

- Provide emergency food assistance to those in need.

Workload Measures:

Emergency Food	FY 2001 Actual	FY 2002 Actual	FY 2003 Estimate	FY 2004 Estimate
# of County Sites	10	10	7	7
Families Per Month	4,734	4,734	6,500	6,00
Average # of Monthly Meals	24,105	24,105	33,350	33,350

THE WORKFORCE INVESTMENT BOARD (WIB)

Through the One-Stop Career Centers, the WIB administers: 1) Adult and Dislocated Worker Employment and Training funds; 2) Youth funds; 3) One-Stop Delivery System funds; 4) Welfare to Work Formula funds; and 5) provides some job clubs and post-employment services for some CalWORKs clients. The six One-Stop Career Centers serving the thirteen cities in Alameda County outside of Oakland, one of which is operated by the County, provide a complete array of employment related services.

The WIB strives to ensure that low-income, CalWORKs, dislocated workers, and job seekers are provided with employment services and training to compete successfully in the global market. Relationships with employers in various employment sectors are established to facilitate the placement of clients.

Goal:

To increase the employment, retention, occupational skills and earnings of participants, to improve the quality of the workforce, and reduce welfare dependency.

Objective:

- Place disadvantaged, dislocated, CalWORKs, and other job seekers in employment.

VALUES-BASED BUDGETING ADJUSTMENTS

No adjustments are required.

The Proposed Budget includes funding for 300.10 full-time equivalent positions at no net county cost.

FINAL BUDGET ADJUSTMENTS

No adjustments are required.

The Final Budget includes funding for 300.10 full-time equivalent positions at no net county cost.

FINAL/AMENDED BUDGET ADJUSTMENTS

Increased appropriation of \$1.6 million to pay the County's share of the State child support penalty.

The Final/Amended Budget includes funding for 300.10 full-time equivalent positions at a net county cost of \$1,600,000.

MAJOR SERVICE AREAS

The Alameda County Department of Child Support Services provides services free of charge to custodial and non-custodial parents.

ACCOUNTING SERVICES

The Accounting Unit processes all incoming payments. Payments are processed and distributed within two business days. All payment applications and adjustments are done on-line and in real-time. On average, the office distributes \$8 million per month in current and past-due child support payments.

ENFORCEMENT SERVICES

Enforcement Services monitors all cases with child support accounts and prepares delinquent cases for legal enforcement action as appropriate. Staff in the Enforcement Unit serve wage assignments and assignments for medical insurance, monitor changes in employment, review court orders for possible modification, and monitor cases for compliance with the terms of the court orders as well as with State and federal requirements.

LEGAL SERVICES

The Establishment Team prepares all the documentation needed to obtain a court order to establish paternity, child support, and medical support. This includes verifying wage and asset information on the non-custodial parent, prior aid history (if any) for the children, and all information necessary for legal services. Additional legal services are performed by our Legal Section. In addition to recording judgments, our legal staff prepare, file and pursue a variety of legal actions to establish and enforce child support obligations.

LOCATE SERVICES

The Locate Team is responsible for locating the non-custodial parent's residence and assets.

PUBLIC SERVICE CENTER

Public Service Center staff is available from 8:30 a.m. to 5 p.m. to answer incoming phone calls and see the public. The public is seen on a "drop-in" basis, which means that no appointment is necessary.

PUBLIC OUTREACH

Through the use of staff-produced videos and brochures, interactive presentations, and one-on-one meetings, the Department employs a variety of programs to educate the

public on the importance of establishing paternity and support through a court order, paying child support as well as participating in their children's lives.

Goal:

To increase the number of children receiving current child support payments on a regular basis.

Objectives:

- Review orders to be sure that the level of current child support is appropriate.
- Using a quality assurance team, ensure that all appropriate enforcement tools are utilized within the required time frames.
- Continue to have caseworkers stay in contact with child support customers and develop collaborative relationships.
- Inform potential customers of available services through an increased Public Outreach program.

Performance Measure:

Performance Measure	FY 2001 Actual	FY 2002 Actual	FY 2003 Goal	FY 2004 Goal
# of Current Child Support Cases where Payments are Made	63.9%	74.8%	70%	71%

Goal:

To successfully convert to a new Child Support Computer application (CASES) as mandated by the State, making a transition that will not disrupt the delivery of services to our customers, maintain employee productivity, and increase child support collections.

Objectives:

- Develop project plan and select project manager.
- Evaluate all existing business processes to determine what tasks need to be changed.
- Develop a change agent process whereby task and business redesign will be coordinated at the lowest level of the organization.
- Develop and implement a training program that will address the use of the new computer system with existing and revised business processes.

Performance Measure:

Performance Measure	FY 2001 Actual	FY 2002 Actual	FY 2003 Goal	FY 2004 Goal
Collections per Case	\$1,696	\$1,789	\$1,832	\$2,055

Goal:

To obtain more court orders for children of Alameda County.

Objectives:

- Develop the Department's outreach component to inform potential custodial parents of our services and how to access them.
- Use of Internet resources to locate non-custodial parents.
- Work with Family Law Courts to coordinate the issuance of new court orders through the Department.
- Utilize the new federal case registry information more as a locate tool.

- Use of Fiscal Management Reward Program savings of \$4,146,195 contributed by the following departments:
 - Sheriff - \$4,000,000
 - Public Defender - \$98,011
 - District Attorney - \$48,184

Service Impacts

District Attorney

- Reducing branch operations may impact the District Attorney's ability to staff the smaller branch court facilities.
- Reducing reception services will mean fewer personnel to assist the public when they come into the various offices for assistance and may also make it more difficult to contact attorneys and investigators.
- Eliminates continuous attorney support to the Cold Hit program which coordinates the development and investigation of serious offenses through DNA profile analysis. This lack of legal and factual coordination will result in fewer homicide and sexual assault cases solved and fewer prosecutable cases.
- Elimination of continuous attorney support to the CALICO child abuse center which coordinates investigations and services to abuse victims. Without this legal advisor to ensure legal integrity of forensic interviews or legal support, guidance and direction, criminal child abuse case development will be more difficult. Consequently, cases may be less well developed resulting in more trials and more children required to testify in court.
- A reduction in investigative services results in fewer inspectors available for special investigations involving complex and sensitive crimes as well as trial support. The reduction of investigator support for cases that are to be tried will affect the ability of the District Attorney's Office to successfully prosecute cases. Historically, there have been more than 8,000 felony cases filed. The reduction will result in fewer inspectors available for trial support, including conducting follow-up interviews, completing necessary investigations and serving subpoenas to ensure witness

attendance in court. The remaining inspectors will be required to increase their already overloaded caseload.

Probation

- The reduction of contracts with community-based organizations participating in the Prevention Network will reduce the level of services to at-risk youth. Prevention services include youth service center, case management, and local service area contracts that provide a diverse array of prevention services including counseling, diversion, after-school programming, parenting support/classes, educational support, anger management, drug and alcohol education and gang prevention. These reductions will be used to fund new initiatives, including a Truancy Program, a High-Risk Youth Program, and Intervention and Prevention Programs. Specific reductions in support of these new programs include:
 - A 15% decrease in Youth Service Center contracts that provide crisis intervention counseling and family reunification services, including services to youth that are placed in the crisis receiving home;
 - A 15% decrease in Case Management contracts that provide service; and linkages for families, integrated individualized services, information and referral.
 - A 50% decrease in Local Service Area and related contracts. These contracts provide supportive services to youth and families, including counseling, diversion, tutoring, parenting, and information and referral.
- The Weekend Training Academy program (WETA) provides the Juvenile Court and Probation officers with a sanction alternative for youth engaging in misconduct. The program currently serves an average of 212 youth each month. All WETA services will be eliminated and use of detention at Juvenile Hall may increase as a result.
- The elimination of vacant positions in Juvenile Institutions will reduce opportunities for hiring additional staff, and may hinder the department's ability to comply with mandated staffing ratios for Juvenile Hall. In addition, it may lead to increased overtime costs to assure the maintenance of mandated staffing ratios during all shifts.
- The capacity of Camp Sweeney will be reduced from 80 to 45 minors. Camp will remain as a placement option, but will accommodate fewer minors. To the extent they are available, alternative placement options may be more highly utilized as a result. Such alternatives will likely be more distant from the homes of probationers, reducing their contact with families during placement, and may lead to increased costs for placements. In addition, the loss of this option may also lead to longer stays at Juvenile Hall for youth awaiting placement.
- The reduction of janitorial services at Juvenile Hall will require the resumption of programs to involve detained minors in the maintenance of this facility. Juveniles will assume daily facility maintenance duties for detention units, including sweeping,

mopping, dusting, and sanitizing bathrooms. This change may degrade the overall cleanliness of Juvenile Hall.

- The redirection of Juvenile Justice Crime Prevention Act revenues to support gender-specific services will enhance service levels for girls under Probation supervision.
- Increased revenues for Targeted Case Management will allow the department to claim expenses related to case management for Medi-Cal eligible individuals and improve access to health insurance.

Public Defender

- Eliminating vacant positions will hamper the department's ability to hire support staff and to flexibly staff positions.
- Reducing branch operations may impact the Public Defender's ability to staff the smaller branch court facilities.
- Eliminating the attorney handling on-campus recruitment and interviewing will impact ability to meet affirmative action goals.

Sheriff

- Increase in revenue anticipated from the inmate booking fee increase effective July 1st. This is the fee charged to jurisdictions for placing inmates in the county jail.
- Reducing Sheriffs Technician support to various Santa Rita Jail programs will impact the ability of the Maximizing Opportunities for Mothers to Succeed (MOMS) program to track graduates; hamper the tracking of staff training; interfere with the scheduling of out-of-county prisoner pick-up; delay processing of inmates in and out of custody and getting inmates to court; and reduce support at the Community Re-entry Center (CRC).
- Reducing funded vacant positions will permanently shift some duties to other staff and reduce staffing flexibility.
- Eliminating the midnight front lobby shift at Santa Rita will close the desk during those hours causing the public and bail bonds staff to wait until the morning shift to conduct business.
- Eliminating the detective support on the Alameda County Regional Auto Theft Task Force will restrict the ability to take a regional approach to preventing and solving these types of crimes.
- Reducing the Parking/Abandoned Vehicle Enforcement Unit will shift duties to patrol units and will reduce citation, fine, and vehicle release revenue.

- Reducing Technician support to the Eden Township Substation Telephone Reporting Unit which takes citizen reports both on the phone and at the front desk, will shift tasks to patrol staff. These positions are currently vacant.
- Eliminating Prisoner Pick-up/Warrant Service Unit, which handles retrieval of inmates from other jurisdictions based on Alameda County warrants, will shift this function to Santa Rita.

Trial Court Funding

- Reduce available funding for court facilities lease increases or facilities projects.

The Final Budget includes funding for 2,806.60 full-time equivalent positions at a net county cost of \$169,093,839.

FINAL/AMENDED BUDGET ADJUSTMENTS

No adjustments are required.

The Final/Amended Budget includes funding for 2,806.60 full-time equivalent positions at a net county cost of \$169,093,839.

MAJOR ACCOMPLISHMENTS IN 2002-2003**DISTRICT ATTORNEY**

- Established a High Tech-Identity Theft Unit to investigate and prosecute cases of stolen identities as well as high tech crimes.
- Re-constituted the Restitution Unit, which tracks the amount of restitution owed by a defendant and aggressively advocates for court-ordered restitution.
- Provided Victim-Witness support in the Civil Restraining Order Courts throughout the County, that issued civil protective orders for victims of domestic violence, stalking and elder abuse. The Victim-Witness Advocate assisted victims of these crimes in a Civil Court where they would be representing themselves against the perpetrator of the criminal behavior.

FIRE DEPARTMENT

- Added Lawrence Berkeley National Laboratory as a service contract agency with one engine company and 12 firefighters.
- Completed construction of two new City of San Leandro fire stations.
- Completed construction of two new City of Dublin stations.
- Put into operation State Certified Heavy Rescue Vehicle.
- Regional Dispatch Center at Lawrence Livermore National Laboratory became operational.
- Assumed first responder responsibilities at Alameda County Fair Grounds.
- Continued to encourage local, State, and federal agency cooperation and response to terrorism threat.

PROBATION**Administration**

- Held monthly forums with community services providers, which provided ongoing communication to solicit and develop methods for the Department to respond to client needs that present obstacles to rehabilitation.
- Nearing completion of a multi-year project for a new Management Information System, to replace the current 20-year-old JUVIS System.

- Upgraded all computers in the Juvenile Services Unit to meet the system requirements to run our new Management Information System.
- Succeeded in achieving substantial compliance in the Standards and Training for Corrections Program.

Adult Services

- Expanded the number of clients assigned to the Mentally Ill Offender Crime Reduction Program caseload by 30 (200%). The program, which provides enhanced services to seriously mentally-ill probationers is a collaborative with the Sheriff's Office and Behavioral Health Care Services.
- Designated a Deputy Probation Officer to a newly developed caseload that provides comprehensive services to at-risk male offenders, 18 -25 years old, who reside in specified Oakland zip code area.
- Expanded efforts to collect court-ordered restitution.
- Increased the number of clients enrolled and receiving life skills and educational training in the SKILLS Shop by five percent.
- Received a Department of Health and Human Services Agency (DHHSA) \$10,000 mini-grant. As lead agency, the Department will develop domestic violence training for East Bay probation departments.

Juvenile Services

- Expanded the Community Probation Program to include three Deputy Probation Officers assigned to assess and partner with community providers to deliver gender-specific services to juvenile female offenders.
- Created a Truancy Unit to partner with the District Attorney, the Juvenile Courts, and school districts in Alameda County to address the growing problem of at-risk youth not attending school. The Deputy Probation Officers in the unit conduct truancy mediation with the District Attorney, refer youth and families to school/community resources, and follow up on their participation, conduct home/school visits, and track case outcomes.
- Provided division-wide training to investigation and supervision staff in children's educational rights to increase probation officers' ability to support and advocate for academic success for juvenile offenders.
- Hosted a two-day summer summit for girls on probation, entitled "Sister 2 Sister: Mind, Body and Soul." The design of the summit was created to help instill a sense of self-worth, self-awareness, sisterhood, and unity in the participants. The summit included an evening banquet and fashion show, and a day of educational workshops

and networking with various federal, State, and community agencies to provide increased support for young women on probation.

Juvenile Institutions

- Partnered with Alameda County Office of Education and Alameda County Library to increase participation in “Write To Read,” a program designed to increase literacy skills and improve chances for future success by exposing detained youth to various authors who facilitated workshops and provided the youth with books and other literature for their use.
- Collaborated with the Alameda County Office of Education to institute an Orientation and Assessment class in Juvenile Hall Intake, to ensure that all minors brought into detention are tested to identify learning levels and any special education needs.
- In partnership with the Alameda County Office of Education, increased academic achievements as shown by 21 minors achieving high school graduation requirements, including 19 earning GEDs, and 69 minors progressing one grade level in Reading/English during the first 60-day period after commitment to Camp.
- Increased volunteer-sponsored programs to include a Life Skills weekly class presented by Catholic Charities Detention Ministry, Mothers Against Murder and Aggression (MAMAs) counseling program, Beat Within writing program, God Squad religious counseling, Playmaking Project for minors to write plays for Berkeley Repertory actors to act out, Cornerstone Foundation for Education Advancement program for minors to learn about architecture and building construction, and Youth Radio, which was featured in a film for public television entitled “California Connected,” including Camp minors.
- Installed a secondary perimeter fence around the Juvenile Hall facility.
- Participated in and facilitated Comprehensive Study of the Alameda County Juvenile Justice System, an ongoing effort to develop a strategic approach towards services for at-risk and delinquent youth.
- Contributed to completion of Environmental Impact Report/Environmental Impact Study for construction of a new Juvenile Justice Facility, to be built adjacent to the current Juvenile Hall site.

PUBLIC DEFENDER

- In August, 2002, the Public Defender took occupancy of new office space in Oakland accommodating combined attorney, investigator and support staff consolidated from Berkeley, Alameda and Oakland branch offices, Juvenile West, and Dependency units. The new Oakland offices are within close proximity to court facilities at 661 Washington Street and 400 Broadway.

- The Public Defender continues to meet with senior staff in the legal and investigator divisions at regular intervals to discuss, update, and/or establish policies relating to investigative practices. Efforts in FY 2002-2003 culminated in mandatory office-wide training for attorneys and investigators, covering issues and policies relating to investigative practices as directed by attorney staff and executed by investigative staff.

SHERIFF'S DEPARTMENT

- In July, the Commission on Accreditation for Law Enforcement Agencies (CALEA) awarded the Sheriff's Office its second reaccreditation. CALEA's overall purpose is to improve the delivery of law enforcement services, through a law enforcement agency accreditation program that is organized and maintained in the public interest. The Alameda County Sheriff's Office is the only Sheriff's Office in the State of California that is accredited by CALEA.
- During the Christmas Holiday Season, the Sheriff's Office participated in a pro-active drunk driving enforcement program called "Avoid the 21." Avoid the 21 program is comprised of law enforcement agencies from Alameda County. The program is intended to keep our roadways safe by arresting drunk drivers before they cause injury to themselves or other motorists.
- Members of the Alameda County Sheriff's Office Special Response Unit participated in the "2002 High Sierra Echo Challenge" organized by the Federal Bureau of Investigation. This competitive challenge is physically demanding and stresses teambuilding and problem solving. Each law enforcement team was tasked with navigating a 45-mile course on foot and problem solving at eighteen different checkpoints. Members of the Alameda County Sheriff's Office Special Response Unit finished with the fastest time of all the participating teams. The Special Response Unit enables the Sheriff's Office to resolve critical incidents such as hostage situations and barricaded suspects.
- Sheriff Deputies and County Zoning Officials worked together in the unincorporated areas of the County to remove unsightly and potentially hazardous vehicles to improve the quality of our neighborhoods.

MISSION STATEMENT

To investigate, charge and prosecute all criminal violations of the laws of California within the County on behalf of the people of the State of California.

MANDATED SERVICES

The District Attorney is mandated by the California Constitution and the Government Code to investigate, charge, and prosecute criminal violations of the laws of California. They also provide psychosocial and other support services to victims of crime and process claims to the State Restitution Fund on their behalf. The District Attorney's Office represents the People of the State of California. In addition to prosecuting criminal matters, the District Attorney's Office has the responsibility of:

- Prosecuting actions in the Juvenile Justice system involving conduct that if committed by an adult, would be a criminal matter.
- Bringing civil actions involving consumer fraud, including real estate fraud, insurance fraud and financial fraud against elders and dependent adults.
- Legal actions to ensure environmental protection.

DISCRETIONARY SERVICES

Investigative services are essential to effective prosecution. The level of service is dependent in part upon the amount of investigative assistance received from local police or other agencies. Grant-funded programs provide services which enhance mandated prosecution by enabling a team approach to investigation and prosecution of

select offenses, such as domestic violence, stalking, drug trafficking, career criminals, sex crimes against minors, insurance fraud, and victim/witness assistance.

SUMMARY OF CHANGES

MAINTENANCE OF EFFORT FUNDING ADJUSTMENTS

The Maintenance of Effort Budget includes funding for 372.51 full-time equivalent positions at a net county cost of \$42,532,614. Maintenance of Effort Budget adjustments necessary to support programs in 2003-2004 result in a net county cost increase of \$7,707,434 and 26.09 full-time equivalent positions.

- Use of Fiscal Management Reward Program savings of \$48,184.

Service Impacts

- Reducing branch operations may impact the District Attorney's ability to staff the smaller branch court facilities.
- Reducing reception services will mean fewer personnel to assist the public when they come into the various offices for assistance and may also make it more difficult to contact attorneys and investigators.
- Eliminates continuous attorney support to the Cold Hit program which coordinates the development and investigation of serious offenses through DNA profile analysis. This lack of legal and factual coordination will result in fewer homicide and sexual assault cases solved and fewer prosecutable cases.
- Elimination of dedicated attorney support to the CALICO child abuse center which coordinates investigations and services to abuse victims. Without this legal advisor to ensure legal integrity of forensic interviews or legal support, guidance and direction, criminal child abuse case development will be more difficult. Consequently, cases may be less well developed resulting in more trials and more children required to testify in court.
- A reduction in investigative services results in fewer inspectors available for special investigations involving complex and sensitive crimes as well as trial support. The

reduction of investigator support for cases that are to be tried will affect the ability of the District Attorney's Office to successfully prosecute cases. Historically, there have been more than 8,000 felony cases filed. The reduction will result in fewer inspectors available for trial support, including conducting follow-up interviews, completing necessary investigations and serving subpoenas to ensure witness attendance in court. The remaining inspectors will be required to increase their already overloaded caseload.

The Proposed Budget includes funding for 341.09 full-time equivalent positions at a net county cost of \$39,960,403.

FINAL BUDGET ADJUSTMENTS

Final Budget adjustments in the District Attorney budget include:

Board/Final Adjustments	Appropriation	Revenue	Net County Cost Inc/(Dec)	FTE
2003-04 Proposed	47,499,109	7,538,706	39,960,403	341.09

The Final Budget includes funding for 341.09 full-time equivalent positions at a net county cost of \$39,960,403.

FINAL/AMENDED BUDGET ADJUSTMENTS

No adjustments are required.

The Final/Amended Budget includes funding for 341.09 full-time equivalent positions at a net county cost of \$39,960,403.

MAJOR SERVICE AREAS

CRIMINAL PROSECUTION

Within Criminal Prosecution, the District Attorney's Office has created several specialized units which handle the most sensitive, complicated and unique cases involving vulnerable victims.

- The Sexual Assault Unit handles many of the sexual assault crimes committed against children under the age of 18.

- The Domestic Violence Unit prosecutes crimes of interfamilial violence and often times involve relocation of the victim and children for their safety.
- The Gang Unit works closely with law enforcement and prosecutes legally and factually complicated crimes committed by gangs.
- The Narcotics Unit investigates and prosecutes the most complicated, high level narcotics cases.
- The High Tech/Identity Theft Unit prosecutes computer and identity theft crimes.
- The Elder Abuse Unit handles crimes of abuse, neglect and financial fraud committed against elders and dependent adults.
- The Stalking Unit prosecutes criminal activity of a stalking nature, including repeated, unwarranted and threatening contact by the stalker. Further, the Stalking Unit Investigators and Victim-Witness Advocate provide safety planning for victims of domestic violence and stalking and provide threat management support for victims of stalking.
- Other units include the Law and Motion Division, the Capital Case Prosecution Team, the Career Criminal Unit, the general Felony and Misdemeanor Teams and other trial support teams, such as the Case Charging Teams and the Certification Teams.

The District Attorney's Office is constitutionally and statutorily responsible for prosecuting crimes committed within the County jurisdictional boundaries. These include felonies (those crimes that carry a potential state prison sentence), and misdemeanors (those that carry a potential County jail sentence). The felony prosecutions include homicide. The number of homicides has increased, resulting in an increase in the prosecution of those crimes. A homicide case, from charging to completion (a resolution of the case including sentencing of the defendant), can take a substantial amount of time.

Goal:

To reduce the amount of time a homicide case is pending in the criminal justice system.

Objectives:

- To increase staffing resources to address the increased homicide rates in Alameda County.
- To advocate to the Court for the expeditious processing of homicide cases through the criminal justice system in Alameda County.

- To keep the surviving family members or connected persons informed of the status of the pending case by assigning a Victim-Witness Consultant to every case.

Performance Measures:

Criminal Prosecution	FY 2001 Actual	FY 2002 Actual	FY 2003 Goal	FY 2004 Goal

Note: New measures in FY 2002.

CHILD SEXUAL ASSAULT

Within Criminal Prosecution there are several sub-units to address specific types of crime. One of these is the Child Sexual Assault Unit which prosecutes sexual assault cases where the victim is under the age of 18. This unit utilizes the "True Vertical Prosecution" method, which means that the same prosecutor, investigator and victim-witness advocate are assigned to the case from arraignment through final disposition. By doing so, any residual trauma to the child will be reduced or eliminated. A rapport will have been established between the prosecution team and the child resulting in a stronger feeling of trust and safety on the part of the child. Also, the child will not have to meet a different prosecutor or prosecution team member at the various stages of the proceedings, enhancing the child's ability to move forward from the sexual assault.

Goal:

To reduce any residual trauma to a child, under the age of 18, who has been the victim of a sexual assault, sexual molest or unlawful sexual intercourse case.

Objectives:

- To have the Child Sexual Assault Unit handle a majority of the Child Sexual Assault cases utilizing the True Vertical Prosecution method of prosecution.
- To the extent possible, all child victims of sexual assault or abuse shall be interviewed at the CALICO Center by a trained forensic interviewer.
- Where appropriate, the prosecutor shall advocate for Child Sexual Assault cases to be handled expeditiously.

WELFARE FRAUD

The Welfare Fraud Division investigates and prosecutes individuals who obtain public assistance through fraud. Public assistance can include, but is not limited to, food stamps, financial assistance, public housing and child care funds. Child Care funds to the County are limited. Child Care money that is obtained fraudulently by one effectively denies another who is a legitimate and needy recipient of those funds.

In the last calendar year, the Welfare Fraud Unit successfully investigated and prosecuted 1,515 cases. As a result of the prosecution, the court ordered restitution of more than \$8.7 million. The Welfare Fraud Unit has aggressively engaged in the collection of the ordered restitution by collecting nearly \$2 million in payments and obtaining approximately \$.5 million in grant adjustments.

Goal:

Through investigation and prosecution, cease the on-going distribution of child care funds to recipients who are receiving those funds by fraudulent means, leaving child care funds available to those who are legitimately and legally entitled to the benefit. Prosecute those individuals who obtained child care funds through fraud.

Objectives:

- Implement an effective protocol for referral of suspected child care fraud.
- Increase the number of referrals of suspected child care fraud.
- Increase the number of effectively prosecuted cases alleging child care fraud.
- Implement a protocol of fiscal integrity to prevent child care fraud in the future.

CONSUMER FRAUD AND ENVIRONMENTAL PROTECTION

In addition to prosecuting crimes, the District Attorney's Office has the responsibility of investigating and prosecuting illegal actions committed against consumers through the Consumer and Environmental Protection Division. The Division also prosecutes crimes of Insurance Fraud, Workers Compensation Fraud and Urban Auto Fraud. Illegal acts resulting in harm to the environment are also investigated and prosecuted.

The Office responds to complaints by consumers of alleged fraud or who have been victims of unfair business practices. Currently, a consumer contacts the District Attorney's Office and lodges a verbal complaint. The Staff mails a Consumer Fraud Complaint Form to the consumer who completes it and returns it by mail with supporting documentation. The Investigative staff initiates and completes an investigation, presenting it to a Deputy District Attorney for action.

Goal:

To create a process by which consumers can access the District Attorney's Office Website and obtain a complaint form online. The consumer can complete the form and return it with documentation. This will reduce the cost of mailing as well as reduce the amount of time that passes between the act of wrongdoing and the filing of a consumer complaint.

Objectives:

- Increase public access to the District Attorney's Office Website.
- Create a Consumer Fraud and Environmental Protection sub-page of the District Attorney's Office Website in order to disseminate consumer information and education.
- Reduce the amount of time between the consumer complaint and the initiation of the consumer fraud investigation.
- Decrease the cost of mailing Consumer Fraud Complaint Form.

Performance Measures:

VICTIM-WITNESS

The District Attorney has a Victim-Witness Division which has multiple functions. The Victim-Witness Division provides psycho-social support as well as court accompaniment services for victims and witnesses of crimes. They also process claims on behalf of victims and witnesses of crime to the Victim's Compensation Board. These claims include, but are not limited to, burial expenses in homicide cases, counseling services in sexual assault and child sexual assault cases, lost wages and relocation funds for victims of domestic violence, sexual assault and other serious crimes where the victim or witness's safety may be in jeopardy.

A Victim-Witness Consultant is assigned to every serious felony case. In fiscal year 2001-2002, new victims of crime were served through the Victim-Witness Division. Of those, nearly 100 were identified as victims with special needs, such as victims with disabilities, and elderly victims. By way of example, services were provided to victims and/or witnesses in 197 homicide cases, 211 adult sexual assault victims, and 182 child sexual assault victims. More than 20,000 services were provided to victims and witnesses of crime. The Victim-Witness Claims Division both processes and advocates on behalf of the victims of crime for restitution and other services.

INVESTIGATIVE DIVISION

The District Attorney has an Investigative Division that works with and supports the Deputy District Attorney working on charged, and in some circumstances, uncharged cases. Further, the Special Investigation Unit conducts independent investigations including cases referred by other law enforcement agencies that are particularly sensitive or involve a potential conflict for the law enforcement agency, as well as other types of sensitive investigations, such as voter fraud. The Investigative Division liaisons with local law enforcement, who have the responsibility of investigating crimes before they are charged by the District Attorney, so that the process of investigation to prosecution is seamless.

MISSION STATEMENT

To provide the highest level of service to the communities by valuing our members, promoting positive leadership, and dedicating ourselves to excellence.

MANDATED SERVICES

As set forth in the State Health and Safety Code and the Uniform Fire Code, the County has responsibility to provide fire protection, fire prevention, and arson investigation services to all the unincorporated areas. The Alameda County Fire Department, a dependent special district under the governance of the Alameda County Board of Supervisors, has been designated to carry out these mandated functions and, in addition, to act as the sworn agent for the State Fire Marshal. The Uniform Fire Code and local ordinances, as adopted by the County, provide unincorporated area residents and businesses with the same degree of fire and life safety services as those found in surrounding cities.

DISCRETIONARY SERVICES

While the presence of the Fire Department is mandated, the specific functions, operations, and service levels are discretionary, thereby providing the Department with the flexibility to address essential safety and health service demands within the communities it serves. The Department provides first-responder paramedic services on a 24-hour, 365 days per year basis throughout the unincorporated areas of the County as well as to its contract cities of Dublin and San Leandro. Through automatic aid, mutual aid, and contractual agreements, the Department and surrounding jurisdictions are ensuring the highest level of emergency fire and medical response in the event of local or regional disasters.

MAJOR SERVICE AREAS

The Fire Department is responsible for providing emergency fire and medical response, as well as fire prevention services to all residents of the unincorporated areas of Alameda County, exclusive of the Fairview area. In addition, fire and emergency services are provided under contractual agreements with the cities of Dublin and San Leandro and the University of California Lawrence Berkeley National Laboratory. The Department's total service area encompasses approximately 464 square miles and has

a daytime population of 256,475. The area contains a number of major roadways, highways, and interstates that carry thousands of private and commercial vehicles on a daily basis; large suburban and commercial centers; agricultural and wild land areas; and lakes and marinas.

The geography and demography of the unincorporated area, which encompasses 434 square miles and a population of 138,900, pose significant operational challenges. It is served by nine stations. The eastern and southern areas include large portions of wildland, grazing land, and rural farmlands. The majority of the population is centered in the western area which is heavily urbanized with a mix of residential, commercial, and light industrial.

The Department staffs three stations that serve the City of Dublin. The City has a population of 33,250 and encompasses 14 square miles. The residential, commercial, and industrial growth of the City in recent years, together with its westerly and easterly wildland interface, presents the Department with many opportunities and challenges.

The Department staffs five stations that serve the City of San Leandro. The City has a population of 81,325 and encompasses 15 square miles. While primarily residential, the City has a sizable commercial and industrial base as well as a large marina complex, which results in the Department responding to a variety of fire, medical, hazardous materials and water emergencies.

The Department staffs one station that serves the University of California Lawrence Berkeley National Laboratory. The Laboratory is located in the Berkeley hills on a 200 acre site. The site has 187 buildings and structures and as many as 3,000 full-time and part-time employees.

The Department has a contract with the Veteran's Administration for service to its medical facility in East County. The Department also has contractual agreements with a number of other agencies to optimize service delivery to unincorporated areas of the County.

ORGANIZATION

The Alameda County Fire Department is comprised of two organizational divisions that meet the operational and support service needs of the Department. The Fire Chief provides overall leadership and is responsible for the effective management, coordination, and service delivery of all aspects of the Department. Each of the two organizational divisions report to a Deputy Chief who has primary responsibility for ensuring the overall day-to-day readiness of all aspects of the organization.

OPERATIONS DIVISION

The Operations Division is responsible for emergency response and incident mitigation for fires, medical emergencies, hazardous materials, urban search and rescue, and other emergencies. This includes the maintenance and repair of emergency vehicles

and essential equipment. The Operations Division is charged with ensuring that personnel meet established training guidelines so that the Department is capable of meeting any emergency response challenge.

Goal:

To contribute to the safety of the citizens of Alameda County by safely providing emergency response and incident management for fires, rescues, medical emergencies, hazardous materials incidents, and disasters.

Objectives:

- Respond to all calls for service within the cities of Dublin and San Leandro and unincorporated Alameda County and the Lawrence Berkeley National Laboratory.
- Ensure that personnel are trained and in a state of readiness for emergency response at all times.

Workload Measures:

Operations Division	FY 2001 Actual	FY 2002 Actual	FY 2003 Estimate	FY 2004 Estimate
# of Emergency Calls in City of Dublin	1,610	1,666	1,873	1,990

SUPPORT SERVICES DIVISION

The Support Services Division is responsible for a broad array of administrative, financial, and programmatic service areas that are essential for maintaining operational readiness. These areas include Fire Prevention, Emergency Medical Services, Public Education and Community Relations, Urban Wildland Interface, Disaster Preparedness, Reserve Section, and Administrative/Finance.

The primary responsibilities of Fire Prevention for the unincorporated areas of the County are the enforcement of all applicable State and local fire codes and standards and fire investigations. Code enforcement is accomplished through the review and

approval of building and facility plans, inspection of completed work, and certification of occupancy.

Goal:

To administer support service activities and programs to ensure that local, State and federal mandated and discretionary service levels are maintained within the communities served.

Objectives:

- Provide continuing education, which meets the State-mandated minimum requirements for Emergency Medical Technicians and Paramedics.
- Enforce State and local fire codes and standards through the timely review and approval of building and facility plans.
- Maintain and coordinate public education and events as well as disaster operations activities with County agencies and departments, contract cities and the communities served.

MISSION STATEMENT

Through the dedication and excellence of our employees, to serve and protect our diverse community and to offer rehabilitative opportunities to offenders.

In compliance with the lawful orders of the Court, and as a partner in the criminal justice system, the Probation Department will provide services to the Courts, local government, offender clientele and the people of Alameda County. To accomplish this, the Department will implement cost-effective services in adherence to State and local laws and standards.

MANDATED SERVICES

The Probation Department responds to both statutory and judicial mandates. The level of service provided by the Department is determined either by specific statute or by the determination of the Chief Probation Officer. The office of the Chief Probation Officer is mandated by Penal Code Sections 1203.5 and 1203.6, Welfare & Institutions Code Section 270 and by County Charter.

DISCRETIONARY SERVICES

The Probation Department provides the following discretionary services:

Community Probation Program is funded by the Juvenile Justice Crime Prevention Act for the Probation Department to collaborate with police agencies and community-based organizations (CBOs) to provide services throughout the County in the communities where youth live.

Camp Wilmont Sweeney is a residential program with a capacity of 80 minors who are ordered by the Juvenile Court to be committed to the Camp.

Prevention Services are funded by Temporary Assistance to Needy Families (TANF), which enables the Department to provide services to at-risk youth. The Department routes these funds to CBOs that serve at-risk youth described as status offenders. Serving in an advisory capacity to the Chief Probation Officer, the County's Local Planning Council reviews and plans for the development of contracts with CBOs to provide services. Contracts are subject to the approval of the Chief Probation Officer.

Weekend Training Academy (W.E.T.A.) is a citizenship and training program designed to instill individual responsibility in minors placed on probation.

Seeking Knowledge to Improve Learning and Life Styles (SKILLS) Shop is an employment-focused program offering job-readiness services including computer assisted learning to adult probationers.

Special Services/Training Unit is a staff development program that coordinates training for Department staff and ensures compliance with the Board of Corrections Standards and Training for Corrections (STC).

Volunteers in Probation (VIP) Program recruits volunteers from all walks of life to assist Deputy Probation Officers in serving adult and juvenile probationers.

SUMMARY OF CHANGES**MAINTENANCE OF EFFORT FUNDING ADJUSTMENTS**

The Maintenance of Effort Budget includes funding for 752.65 full-time equivalent positions at a net county cost of \$61,703,089. Maintenance of Effort Budget adjustments necessary to support programs in 2003-2004 result in a net county cost increase of \$10,952,332 and 6.00 full-time equivalent positions.

Service Impacts

- The reduction of contracts with community-based organizations participating in the Prevention Network will reduce the level of CBO funding for services to at-risk youth. Prevention services include youth service center, case management, and local service area contracts that provide a diverse array of prevention services including counseling, diversion, after-school programming, parenting support/classes, educational support, anger management, drug and alcohol education and gang prevention. Funds will be redirected to support new initiatives for at-risk youth, including a Truancy Program, a High-Risk Youth Program, and Intervention and Prevention Programs. CBO reductions in support of these new youth programs include:
 - A 15% decrease in Youth Service Center contracts that provide crisis intervention counseling and family reunification services, including services to youth that are placed in the crisis receiving home;
 - A 15% decrease in Case Management contracts that provide service; and linkages for families, integrated individualized services, information and referral.
 - A 50% decrease in Local Service Area and related contracts. These contracts provide supportive services to youth and families, including counseling, diversion, tutoring, parenting, and information and referral.
- The Weekend Training Academy program (WETA) provides the Juvenile Court and Probation officers with a sanction alternative for youth engaging in misconduct. The program currently serves an average of 212 youth each month. All WETA services will be eliminated and use of detention at Juvenile Hall may increase as a result.
- The elimination of vacant positions in Juvenile Institutions will reduce opportunities for hiring additional staff, and may hinder the department's ability to comply with mandated staffing ratios for Juvenile Hall. In addition, it may lead to increased overtime costs to assure the maintenance of mandated staffing ratios during all shifts.

- The capacity of Camp Sweeney will be reduced from 80 to 45 minors. Camp will remain as a placement option, but will accommodate fewer minors. To the extent they are available, alternative placement options may be more highly utilized as a result. Such alternatives will likely be more distant from the homes of probationers, reducing their contact with families during placement, and may lead to increased costs for placements. In addition, the loss of this option may also lead to longer stays at Juvenile Hall for youth awaiting placement.
- The reduction of janitorial services at Juvenile Hall will require the resumption of programs to involve detained minors in the maintenance of this facility. Juveniles will assume daily facility maintenance duties for detention units, including sweeping, mopping, dusting, and sanitizing bathrooms.
- The redirection of Juvenile Justice Crime Prevention Act revenues to support gender-specific services will enhance service levels for girls under Probation supervision.

Increased revenues for Targeted Case Management will allow the department to claim expenses related to case management for Medi-Cal eligible individuals and improve access to health insurance.

The Proposed Budget includes funding for 718.94 full-time equivalent positions at a net county cost of \$55,761,125.

FINAL BUDGET ADJUSTMENTS

Final Budget adjustments in the Probation Department budget include:

Board/Final Adjustments	Appropriation	Revenue	Net County Cost Inc/(Dec)	FTE
2003-04 Proposed	79,609,552	23,848,427	55,761,125	718.94

2003-04 Approved Budget	79,620,286	23,859,161	55,761,125	712.36

Service Impacts

- The restoration of Camp Sweeney capacity by 15 beds to 60 beds total, will allow for accommodation of increased numbers of minors and may reduce the use of alternative placement options. It may also lead to shorter stays at Juvenile Hall than would have occurred in the absence of this restoration.

- The restoration of TANF funding for CBO contracts will eliminate decreases in Youth Service Center and Case Management contracts, and reduce the level of cuts to Local Service Area contracts from 50% to 35%. This will allow for smaller reductions to Prevention Network services than previously planned.
- The elimination of vacant funded positions and reduction of Discretionary Services & Supplies will limit the ability of the Probation Department to address current workload levels and will reduce available funding for administrative expenditures.

The Final Budget includes funding for 712.36 full-time equivalent positions at a net county cost of \$55,761,125.

FINAL/AMENDED BUDGET ADJUSTMENTS

No adjustments are required.

The Final/Amended Budget includes funding for 712.36 full-time equivalent positions at a net county cost of \$55,761,125.

MAJOR SERVICE AREAS

ADMINISTRATION

California Welfare and Institutions Code Section 270 mandates that a Probation Officer shall be appointed in every county. Serving as the Department Head, the Chief Probation Officer provides direction to all Departmental operations.

Administrative Services, Financial Management, Human Resources, Information Technology, and Training are under the Administration umbrella. They are responsible for providing Department-wide administrative and management support services, including secretarial and clerical services; information systems management; data processing and automation support; budget development and analysis; fiscal management; purchasing of goods and services; payroll and employee services; and staff development.

ADULT SERVICES

The California Penal Code defines probation and the legally-mandated duties of the Deputy Probation Officer for Adult Services. Staff provide pre-sentence investigations on all persons convicted of a felony as mandated by Section 1203 of the Penal Code (PC). Section 1202.8 mandates supervision of all adults placed on probation. Programs and services include:

- Speedy Diversion – Specialized programming including weekly reporting and drug testing for pre-convicted felons arrested for use and/or possession of controlled substances.

- Mentor Diversion – Counseling, educational and job readiness services for young adults arrested for the sale of controlled substances.
- Drug Court – Specialized programming including weekly reporting and drug testing for felons convicted of use and/or possession of controlled substances.
- Proposition 36 – In collaboration with Behavioral Health Care Services, specialized treatment-focused services, in lieu of incarceration, for misdemeanants and felons convicted of drug use and/or possession.
- Maximum Supervision – Monthly face-to-face monitoring of probationers who are a maximum risk to the community in order to enforce conditions of probation and provided case management services to the client.
- SKILLS Shop – Job-readiness services and computer-assisted training in reading, math, and life skills to assist clients needing employment.
- Specialized Caseloads
 - Enforcement-focused services provided in collaboration, with other law enforcement agencies, including gang violence suppression, narcotics, police and corrections activities, sexual assault, and vehicle theft task forces.
 - Victim-focused services provided through a restitution caseload.
 - Coordinated comprehensive services provided in collaboration with the Sheriff's Office and Behavioral Health Care Services Department to dual-diagnosed probationers with severe and chronic mental health and substance abuse issues.

Goal:

To provide community protection and safety by enforcing compliance with court-ordered probation while also offering rehabilitation opportunities to adult probationers.

Objective:

- Continue participation on law enforcement task forces organized to apprehend law violators, recidivists, and probationers in warrant status.

Workload Measures:

JUVENILE SERVICES

Staff provide intake and investigation services for youth who are arrested by the police and delivered to Juvenile Hall or referred to the Department by a notice to appear. Minors who are placed on probation and remain in the community are supervised to ensure compliance with the court-ordered conditions of probation and to receive services aimed at reducing continued delinquency. Minors most at risk of removal from the community and placement in foster or group homes receive intensive supervision from the Family Preservation Unit. If placement out of the home becomes necessary, Deputy Probation Officers maintain regular face-to-face contact with the minor with family reunification being the goal if possible.

Goal:

To provide community protection and safety by enforcing compliance with court-ordered probation while also offering rehabilitative opportunities to juvenile offenders, thereby reducing recidivism.

Objectives:

- Improve services by accurately assessing the risk and needs of minors delivered to Juvenile Hall for law violations.
- Increase public safety and assist law enforcement by implementing new procedures to identify minors.
- Increase intensive, community-based services and supervision for juvenile offenders by involving the minor's family, schools, local law enforcement, and the community.
- Increase family reunification for juveniles in foster care by reducing the time of confinement in Juvenile Hall.

Performance Measures:

JUVENILE HALL

Juvenile Hall is a 24-hour secure detention facility with a rated capacity of 299 juveniles ordered detained by the Juvenile Court. Juvenile Hall staff are responsible for the care, custody, and control of minors awaiting court action or pending release to out-of-home placements or the community. Services provided include education, physical exercise, and health care as mandated by the State Board of Corrections. Mental health treatment services are provided through partnerships with Behavioral Health Care Services, Alameda County Office of Education, and Juvenile Justice Health Services. Home supervision and electronic monitoring offer detention alternatives to Juvenile Hall.

Goal:

To securely detain juvenile delinquents and provide education and services to the minors in accordance with the law and State Board of Corrections standards.

Objectives:

- Reduce the number of incidents, which negatively impact the daily operations of the facility.

- Develop effective policy and provide staff training in the use of force.
- Implement alternative work schedules for staff.
- Assess practices, policies, and procedures to attain conformance with American Corrections Association Standards.
- Increase services to minors with mental health needs.

CAMP WILMONT SWEENEY

Camp Wilmont Sweeney is an alternative to Group Homes and California Youth Authority placements. Camp Sweeney is a residential treatment program for male minors who are ordered by the Juvenile Court to be committed to the Camp to complete a six-to nine-month rehabilitation and educational program.

Camp Wilmont Sweeney is by law an open setting, as opposed to a locked facility, where minors are offered an opportunity to make the right choices and decisions to abide by laws and rules. The Camp can accommodate 80 male youth ages 15 through 18. The Camp is a community that consists of residents who are entitled to a safe environment where they are expected to treat others with respect and courtesy, and where everyone is permitted to maintain their dignity and pride. Home visits with family are the major incentive rewards. Reunification with families is an integral part of the Camp program. Educational and vocational programs are provided by the Alameda County Office of Education. Substance abuse and psychological counseling are provided through contracts with Guidance Clinic Counselors and the Thunder Road Program. Anger management is an ongoing program for all residents.

Goal:

To increase public safety and reduce juvenile crime by providing in-Camp rehabilitation and education for the young male offenders so that family reunification and community reintegration is successful.

Objectives:

- Provide programs for the minors to change behavior and achieve reunification with family and reintegration into the community.
- Provide incentive activities to reward acceptable behavior as a member of the Camp community.

Workload Measures:

MISSION STATEMENT

To provide a fully-competent, effective and ethical defense for each client whose cause has been entrusted to the department, to provide all mandated legal services in a cost-effective and efficient manner and to conduct that representation in a manner that promotes fairness in the administration of justice.

MANDATED SERVICES

The Public Defender is the primary defense attorney for all indigent persons within Alameda County accused of crimes or otherwise facing potential loss of liberty. For these persons, legal representation at public expense is mandated by statute and County Charter, as well as the State and federal Constitutions.

When the Public Defender is unable to provide defense of indigents due to conflict of interest or for other valid reasons, cases are referred to the Alameda County Bar Association for appointment of attorneys. The contract for these services is administered by the County Administrator's Office. Funding for this contract is reflected in this budget summary in order to reflect the total cost for indigent defense.

DISCRETIONARY SERVICES

The Public Defender provides no discretionary services.

- Use of Fiscal Management Reward Program savings of \$98,011.

Service Impacts

- Eliminating vacant positions will hamper the department's ability to hire support staff and to flexibly staff positions.
- Reducing branch operations may impact the Public Defender's ability to staff the smaller branch court facilities.
- Eliminating the attorney handling on-campus recruitment and interviewing will impact ability to meet affirmative action goals.

The Proposed Budget includes funding for 194.00 full-time equivalent positions at a net county cost of \$33,056,544.

FINAL BUDGET ADJUSTMENTS

Final Budget adjustments in the Public Defender budget include:

The Final Budget includes funding for 194.00 full-time equivalent positions at a net county cost of \$33,056,544.

FINAL/AMENDED BUDGET ADJUSTMENTS

No adjustments are required.

The Final/Amended Budget includes funding for 194.00 full-time equivalent positions at a net county cost of \$33,056,544.

MAJOR SERVICE AREAS

INDIGENT DEFENSE

The Public Defender is responsible for:

- Defense of indigent persons accused of misdemeanor crimes in all judicial districts in the County;
- Defense of indigent persons accused of felony crimes through preliminary hearing in all judicial districts and in jury trials conducted in North and South County;
- Defense of juvenile offenders prosecuted under Welfare and Institutions Code Section 602, including those subject to direct prosecution in adult court;
- Representation of children and parents involved in child dependency proceedings under Welfare and Institutions Code Section 300;
- Representation of persons subject to involuntary mental hospitalization and conservatorship proceedings in both Mental Health and Probate Courts;
- Defense of inmates in various proceedings to extend incarceration beyond the prescribed term of punishment, including "sexual predator" under Welfare and Institutions Code Section 6600, "insanity commitment" extensions under Penal Code Section 1026, "dangerous prisoner" under Penal Code Section 5300, "mentally disordered offender" under Penal Code Section 2970 and "youthful offender" under Welfare and Institutions Code Section 1800; and

- Defense of indigent persons before the Appellate Division of the Alameda County Superior Court, the Court of Appeal of the State of California and the Supreme Court of the State of California, in matters relating to pending litigation in the Superior Court.

Goal:

To continue to develop and implement strategies for the most effective allocation of attorneys and legal support staff to branch offices, units, and court assignments to meet variable workload demands, with particular emphasis on serious felony charges.

Objectives:

- Utilize computer and video communication technology to the fullest extent for case tracking, legal research, and more frequent client contacts.
- Continue professional recruitment to attract and maintain a diverse pool of qualified legal staff.

Goal:

To continue and expand staff training including mandatory continuing legal education for attorneys.

Objectives:

- Add a management training component for senior attorneys.
- Develop a course in legal/court procedures and train support staff.
- Continue and expand the current efforts to develop an intensive, special case-related training to enhance the ability of criminal litigators to handle the growing caseload of sexual predators, mentally-disordered offenders, and other extension-of-confinement cases.

DEPENDENCY SERVICES

Goal:

To complete negotiations with the Superior Court for a three-year Memorandum of Understanding relating to services in dependency proceedings, increasing the scope of those services and providing a training component.

Objectives:

- Increase unit attorney staff to eight.

- Add case workers to monitor levels of medical care provided to clients.
- Provide social worker training to attorney staff in areas of effective communications with mentally-ill or developmentally-disabled clients and home visitation.

MISSION STATEMENT

To protect life and property and to enforce civil and criminal laws while respecting the rights of all; recognizing the diversity of the community served; identifying and maintaining a high level of professionalism, integrity, and readiness; and delivering consistent and humane treatment to those under our care and custody.

MANDATED SERVICES

California Government Code, Section 24000, identifies the Sheriff as an elected officer of the County and defines the qualifications required to hold office. California Government Code, Section 26600 outlines the duties of the Sheriff and states that the Sheriff shall preserve peace, arrest all persons who attempt to commit public offenses, be the authority to keep the county jail and the prisoners in it, and serve all process and notices in the manner prescribed by law. In addition to being a Constitutional Officer of the County, the Sheriff also acts as the Coroner, Public Administrator, Director of Emergency Services and an officer of the courts. The level of services is determined by specific statute or judicial mandate.

DISCRETIONARY SERVICES

The following services are discretionary within the Sheriff's Department: dispatch services, contract police services, crime laboratory services and programs designed as alternatives to incarceration, such as community re-entry, electronic surveillance, and the weekender programs. The services provided by the crime prevention unit such as the school resource officers and D.A.R.E. programs are also discretionary.

- Use of Fiscal Management Reward Program savings of \$4,000,000.

Service Impacts

- Increase in revenue anticipated from the inmate booking fee increase effective July 1st. This is the fee charged to jurisdictions for placing inmates in the county jail.
- Reducing Sheriffs Technician support to various Santa Rita Jail programs will impact the ability of the Maximizing Opportunities for Mothers to Succeed (MOMS) program to track graduates; hamper the tracking of staff training; interfere with the scheduling of out-of-county prisoner pick-up; delay processing of inmates in and out of custody and getting inmates to court; and reduce support at the Community Re-entry Center (CRC).
- Reducing funded vacant positions will permanently shift some duties to other staff and reduce staffing flexibility.

- Eliminating the midnight front lobby shift at Santa Rita will close the desk during those hours causing the public and bail bonds staff to wait until the morning shift to conduct business.
- Eliminating the detective support on the Alameda County Regional Auto Theft Task Force will restrict the ability to take a regional approach to preventing and solving these types of crimes.
- Reducing the Parking/Abandoned Vehicle Enforcement Unit will shift duties to patrol units and may reduce citation, fine, and vehicle release revenue.
- Reducing Technician support to the Eden Township Substation Telephone Reporting Unit which takes citizen reports both on the phone and at the front desk, will shift tasks to patrol staff. These positions are currently vacant.
- Eliminating Prisoner Pick-up/Warrant Service Unit, which handles retrieval of inmates from other jurisdictions based on Alameda County warrants, will shift this function to Santa Rita.

The Proposed Budget includes funding for 1,393.40 full-time equivalent positions at a net county cost of \$120,662,661.

MAJOR SERVICE AREAS

SHERIFF'S MANAGEMENT SERVICES

Sheriff's Administration/Management Services provides Department-wide administrative support services including: budget preparation; payroll and accounting functions; human resources; staff recruitment and selection; hiring; background investigations; and training. In addition, the division includes the Planning and Research Unit, the Central Identification Bureau, CAL-ID, and the Special Operations Groups (Bomb Squad, Special Response Unit, and Hostage Negotiation). Sheriff's Administration is also responsible for all internal and administrative investigations.

Goal:

To provide law enforcement services that enhance the quality of life for the citizens of the County.

Objectives:

- Hire and develop professional and sworn staff that reflect the integrity and professionalism required of a law enforcement agency and the diversity of the community it serves.
- Provide trained personnel equipped to handle the law enforcement needs of an urban population.

Workload Measures:

Administration	FY 2001 Actual	FY 2002 Actual	FY 2003 Estimate	FY 2004 Estimate
# of Deputies Hired/Number of Deputy Applications Received	96/1,045	71/1,388	50/1,500	100/1,500

MISSION STATEMENT

The Superior Court of California, County of Alameda, is a part of the judicial branch of State government. Its power and authority is vested in the California Constitution. Its purpose, procedures, and jurisdiction are framed by statutory mandates and California and local rules of court. Its mission is to provide mandated judicial services for the public which maximizes the public's access to the court; to create and maintain a quality of service that promotes confidence and generates support from both within and outside the criminal justice system; and to interpret and enforce existing statutes in a way that provides due process, fair treatment, and individual justice to all.

The Courts are the forum in which citizens and the community seek redress for a myriad of issues involving every aspect of daily life. The courts must safeguard the due process rights of all individuals involved in a matter. Many of the major issues facing the County, cities, and the citizenry are ultimately brought to court for resolution.

Court Security – Provides for the safety and security of Alameda County Trial Court personnel, citizens attending court sessions, and the in-custody persons appearing in County courts; works in cooperation with the County Trial Courts toward expeditious processing of matters brought before them; and responds promptly to the changing needs of the Courts. These services are provided to the Court by the Sheriff's Department and the costs are reimbursed by the Superior Court. The full-time equivalent positions reflected in the budget are Sheriff's personnel providing security functions for the Superior Court.

In addition, this budget contains the County's statutorily required Maintenance of Effort payment to the State, and funding to maintain court facilities as required by the Lockyer-Isenberg Trial Court Funding Act of 1997.

Discretionary services include funding for the court's financial hearing officers and a contract for pre-trial services.

MISSION STATEMENT

To serve the needs of residents living in unincorporated Alameda County and to enhance their quality of life by providing a full complement of municipal services.

MAJOR SERVICE AREAS

Unincorporated Alameda County encompasses over 375 square miles and has a population in excess of 138,000 residents. The area has six distinct communities: Castro Valley, Sunol, Fairview, Ashland, Cherryland and San Lorenzo. Under the policy direction of the Board of Supervisors, five County departments and agencies have primary responsibility for the provision of municipal programs and services throughout the unincorporated areas. They are: Community Development Agency, Fire Department, County Library, Public Works Agency and Sheriff's Department. The County does not have a single budget unit for unincorporated area services. Each of the five departments or agencies provides an estimate of their total revenues and expenditures attributable to the provision of services to the unincorporated area. The budget information presented in this section is a consolidation of the estimates provided by the departments and agencies.

The services and programs provided in the Unincorporated Area include:

Community Development services include managing the County's demographic and census program; zoning, neighborhood preservation and other code enforcement activities; building and plan reviews; land use planning and redevelopment activities;

housing services to low-income and disabled persons; pest detection and agricultural management services; and inspection of commercial weighing and measuring devices.

Fire services include fire; medical and hazardous materials response; fire prevention and inspection services; water rescue; code enforcement; community education and outreach; arson investigation; code enforcement; disaster preparedness; and urban search and rescue.

Library services include operation of two branch libraries as well as senior outreach, literacy, and bookmobile services.

Public Works services include road and infrastructure maintenance and repair; surveying and building inspection services; school crossing guards; traffic speed surveys; flood and storm water pollution control; and individualized local services within designated County Service Areas.

Sheriff's services include street patrol; animal control services; crime prevention and investigation; community policing; narcotic and vice suppression; and school resource services.

In addition to the services and programs provided to unincorporated area residents by these five County departments and agencies, it also should be noted that each provides a variety of other services that benefit the quality of life of all residents throughout the County. See the respective department/agency sections for further details.

MAJOR FUNDING AREAS

Programs and services to the unincorporated area are funded from a variety of sources including the County General Fund, dedicated property tax revenues, federal and State revenues, supplemental special assessments, and grants and special program revenues. There are two additional sources of revenue which assist in meeting the funding requirements. They are the Utility Users Tax and Business License Tax. The Utility Users Tax was authorized by the Board of Supervisors and approved by the voters in 1992, 1996, and again in 2000 for an eight-year period. The Business License Tax was authorized by the Board in 1991 to mitigate State budget cuts and approved by the voters in 2002. The 2003-2004 recommended allocation of the Utility User tax and Business License Tax is as follows:

Department	Utility User	Business License	Total
Sheriff	\$5,433,028	\$1,976,940	\$7,409,968
Community Dev. Agency	\$1,271,559	\$393,813	\$1,665,372
Library	\$2,187,438	\$342,617	\$2,530,055
Fire	\$0	\$0	\$0
Public Works Agency	\$0	\$0	\$0
Total	\$8,892,025	\$2,713,370	\$11,605,395

DEPARTMENT HIGHLIGHTS

The Maintenance of Effort Budget for unincorporated area programs and services includes funding for 696.14 full-time equivalent positions at a net county cost of \$14,629,354.

- After Values-Based Budget reductions, the Proposed Budget for unincorporated area programs includes funding for 681.64 full-time equivalent positions at a net county cost of \$13,288,151.

COMMUNITY DEVELOPMENT AGENCY SERVICES

Major Accomplishments in 2002-2003

- Responded to approximately 1,575 citizen complaints regarding zoning violations and blighted conditions in residential neighborhoods and commercial areas.
- Began construction of the first phase of improvements on East 14th Street to underground utility lines and construct a planted median, widen sidewalks, new street lighting, intersection bulb-outs, and enhanced bus stops.
- Initiated planning for an extensive sidewalk improvement program in Cherryland.
- Established an agreement between the County Redevelopment Agency and the County Librarian to fund a portion of the Castro Valley library construction project; and initiated discussions regarding a replacement library in San Lorenzo.
- Serviced and removed 549 instances of graffiti on private properties within the redevelopment project area boundaries.
- Provided a full-time Planner to address issues relating to the rural community (e.g. agriculture open space, resource management) to be stationed at the new agriculture/rural focused permitting center being built on Greenville Road in Livermore.
- Completed five specific plans or area studies, 151 development applications, processed 320 zoning applications, and completed 22 major environmental reviews for residents in the unincorporated area.
- Began construction of the Agricultural Resource Center that will provide office and meeting space for the various agricultural related services in the Livermore-Amador Valley.
- Developed nine units of ownership housing (six of which are first-time homebuyers) and purchased land for the development of senior housing to be occupied in 2004 using funds generated by Redevelopment Project Areas.

2003-2004 Community Development Agency Unincorporated Area Initiatives

- Complete a new version of the Eden Area Plan and initiate review of the Castro Valley Area Plan and the Castro Valley Central Business District Specific Plan, as part of the ongoing update of the General Plan.
- Continue construction of the first phase of improvements on East 14th Street; including the undergrounding of all utility lines and the construction of a planted median, widened sidewalks, and new street lighting and Initiate design of utility undergrounding for Phases II & III of the E. 14th Street/Mission Boulevard improvement project.
- Initiate construction of the Ashland/Bayfair Transit Center project; including the construction of sidewalk, lighting, landscaping and a pedestrian bridge between East 14th Street, the Bayfair BART Station, and the Bayfair Mall.
- Continue to offer free graffiti abatement services within the County's Redevelopment Project Areas.
- Complete construction of the Agricultural Resource Center providing local office and meeting space for various agricultural services in the Livermore-Amador Valley.
- Develop and construct a one-stop permit center at the Winton Avenue Building in Hayward, with the Building Inspection Department of the Public Works Agency, Fire Department, Environmental Health and other Agencies.
- Expand the number of affordable housing units available to low and moderate-income people.
- Continue to inspect for and insure prevention or control of Glassy-winged Sharpshooter and other pests throughout the County.

FUNDING HIGHLIGHTS - COMMUNITY DEVELOPMENT AGENCY**MAINTENANCE OF EFFORT FUNDING ADJUSTMENTS**

The Community Development Agency's Maintenance of Effort Budget for the unincorporated area includes funding for 46.01 full-time equivalent positions at a net county cost of \$3,594,284. Maintenance of Effort Budget adjustments necessary to support programs in 2003-2004 result in a \$538,806 increase in net county cost, an increase of 4.00 full-time equivalent positions and include:

Service Impact

Values-Based Budgeting adjustments for the Community Development Agency will delay or eliminate the hiring of administrative support for the Planning Department while the Agency evaluates anticipated changes in State funding. The Agency will use a staged approach towards the Castro Valley Plan Update and will delay the start of that effort until later in the fiscal year. Also delayed will be the development of site and mitigation policies for day care facilities, child care facilities, convalescent hospitals rehabilitation centers and other similar uses in the unincorporated County. The resulting impact will make it more difficult to address community concerns arising in relation to these issues and hindering the siting of these facilities.

The Proposed Budget for the unincorporated area includes funding for 45.01 full-time equivalent positions at a net county cost of \$3,400,675.

FIRE SERVICES

Major Accomplishments in 2002-2003

- Placed Heavy Rescue Vehicle in service and available to respond 24/7 as needed.
- Regional Dispatch Center (Lawrence Livermore National Laboratory, City of Alameda, County Emergency Medical Services Agency, Camp Parks and County Fire) became fully operational for fire and medical emergencies only.
- Successfully completed a Fire Training Academy graduating 12 new fire fighters.
- Continued to be one of the lead agencies in coordinating local and regional responses to terrorism threats.
- Assumed first responder responsibilities at County Fair Grounds.
- Responded to 10,586 calls for assistance.
- Conducted 2,776 business and residential inspections.
- Conducted 785 building plan reviews.
- Trained 180 individuals in neighborhood emergency response.

2003-04 Fire Department's Unincorporated Area Initiatives

- Ensure that personnel are trained and in a state of readiness for emergency response 100% of the time.
- Ensure the safe operation and use of apparatus and rescue equipment while responding to and operating at the scene of an emergency 100% of the time.
- Provide continuing education for Emergency Medical Technicians and Paramedics which meet State-mandated minimum requirements.
- Enforce State and local fire codes and standards through the timely review and approval of building and facility plans.
- Maintain and coordinate disaster operation activities with County agencies and departments, cities and the communities served.

LIBRARY SERVICES

Major Accomplishments in 2002-03

- Completed second round grant application to the State for Library Construction Bond Act to build the proposed new Castro Valley Library.
- Began developing a site plan and conceptual plans for a new or remodeled and expanded San Lorenzo Library.
- Completed bid process and selected a vendor for a new bookmobile scheduled for delivery in 2003-04.

2003-04 Library's Unincorporated Area Initiatives

- Ensure that all libraries are open for service 100% of the scheduled hours.
- Continue to work on planning for the new Castro Valley Library, contingent on State approval of grant funds for the project.
- Continue to plan for a new San Lorenzo Library based on the Needs Assessment.

PUBLIC WORKS SERVICES

Major Accomplishments in 2002-03

- Modified the building ordinance to include appendix chapter 31 on flood resistant construction which contributes to Alameda County maintaining its standing in the Community Rating System, resulting in a 15% reduction in insurance premiums paid for flood insurance by residents of unincorporated Alameda County. In addition, all properties located in the floodplain have a hold noted in permit plan, allowing the Building Department to know at the time that an application is made that a property is located in the floodplain, and that special measures will be required as a part of the construction.
- Improved Building Inspection services by installing the Interactive Voice Response system for scheduling inspections, retrieving inspection results and checking on progress of permit applications; and re-aligning fees for Building Department services to more equitably charge users only for the services they will use for any given project.
- As part of the Agency's creeks and fisheries restoration program, completed the Palomares Creek Restoration Project; completed the San Lorenzo Creek Fisheries

Assessment; completed Phase 1 of the Lower Alameda Creek Levee Reconfiguration Project; and the U.S. Army Corps of Engineers completed the Preliminary Restoration Report for the Alameda Creek Fisheries project which is the first step in the 1135 funding program.

- Public Works Inspectors responded to 43 hazardous material incidents on 27 County roads and 16 flood channels; and restored a failed flood control wall in Zone No. 2.
- Completed the East Castro Valley Boulevard guard rail project for improved safety in the Palomares Hills area; completed chip sealing of 60 miles of roadways in the unincorporated areas of Alameda County which provides a safe and smooth road surface for the traveling motorist.
- Advertised six projects for \$3 million to rehabilitate various roadways and construct new sidewalks, pathways and guardrails using federal, state and local funds; submitted 12 funding applications for Transportation Projects including Safe Routes to School & Transportation for Livable Communities; and implemented Traffic Calming Program on ten community roadways. The program continues to grow as constituents become more actively involved in neighborhood livability and quality of life issues.

2003-04 Public Works Agency's Unincorporated Area Initiatives

- Develop, guide, and support pollution control activities that protect and improve the quality of water flowing through Alameda County creeks and channels flowing to San Francisco Bay to make the bay fishable and swimmable.
- To preserve the quality of life of Alameda County residents, enhance commerce, encourage the restoration of natural creeks, provide for better wildlife habitat by reducing the incidence and potential for flooding and erosion through flood control planning, designing, funding, and implementation of the flood control capital improvement program.
- To preserve, enhance, and maintain the mobility and quality of life of Alameda County residents and commerce through transportation planning of the road network, improvements to and maintenance of neighborhood streets, and implementation of the road capital improvement program.
- Guide and support residential and commercial building construction which is safe, durable, and of the highest utility for its intended use by the citizens of Alameda County.

FUNDING HIGHLIGHTS – PUBLIC WORKS AGENCY**MAINTENANCE OF EFFORT FUNDING ADJUSTMENTS**

The Public Works Agency's Maintenance of Effort Budget for the unincorporated area includes funding for 217.30 full-time equivalent positions at a net county cost of \$204,494. Maintenance of Effort Budget adjustments necessary to support programs in 2003-2004 result in a \$7,865 increase in net county cost, a reduction of 8.70 full-time equivalent positions and include:

SHERIFF'S DEPARTMENT SERVICES**Major Accomplishments in 2002-03**

- In July, the Commission on Accreditation for Law Enforcement Agencies (CALEA) awarded the Sheriff's Office its second reaccreditation. CALEA's overall purpose is to improve the delivery of law enforcement services, through a law enforcement agency accreditation program that is organized and maintained in the public interest. The Alameda County Sheriff's Office is the only Sheriff's Office in the State of California that is accredited by CALEA.
- During the Christmas Holiday Season, the Sheriff's Office participated in a pro-active drunk driving enforcement program called "Avoid the 21." Avoid the 21 program is comprised of law enforcement agencies from throughout Alameda County. The program is intended to keep our roadways safe by arresting drunk drivers before they cause injury to themselves or other motorists.

- Members of the Alameda County Sheriff's Office Special Response Unit participated in the "2002 High Sierra Echo Challenge" organized by the Federal Bureau of Investigations. This competitive challenge is physically demanding and stresses teambuilding and problem solving. Each law enforcement team was tasked with navigating a 45-mile course on foot and problem solving at eighteen different checkpoints. Members of the Alameda County Sheriff's Office Special Response Unit finished with the fastest time of all the participating teams. The Special Response Unit enables the Sheriff's Office to resolve critical incidents such as hostage situations and barricaded suspects.
- Sheriff Deputies and County Zoning Officials worked together in the unincorporated areas of the County to remove unsightly and potentially hazardous vehicles to improve the quality of our neighborhoods.

2003-04 Sheriff's Unincorporated Area Initiatives

- Establish a Marine Patrol Unit to protect our coastal waterways in Alameda County against any potential terrorist threats. The Marine Patrol Unit will assist the Coast Guard and all cities that have direct access to our waterways.
- Identify and maintain a high level of professionalism, integrity and readiness to meet the growing demands of our citizens.
- Continue to respect the rights of all, while recognizing the cultural diversity of the community we serve.

Service Impacts

Values-Based Budgeting adjustments for the Sheriff's Department will decrease the recovery of stolen vehicles and the investigation of auto-theft related crimes, abatement of abandoned vehicles, and enforcement of parking related violations. Patrol staff will be reassigned to public contact duties at the Eden Township substation and there will be potential delays in handling emergency calls for service.

The Proposed Budget includes funding for 209.33 full-time equivalent positions at a net county cost of \$9,682,982.

COUNTY ADMINISTRATOR'S OFFICE

Susan S. Muranishi, County Administrator

Donna Linton, Assistant County Administrator

June 16, 2003

Honorable Board of Supervisors
Administration Building
Oakland, CA 94612

Dear Board Members:

SUBJECT: 2003-04 FINAL BUDGET ADJUSTMENTS

RECOMMENDATION:

That your Board approve the final adjustments detailed in the Attachment and authorize the Auditor-Controller to make other technical adjustments, including the use of additional Fiscal Management Reward Program savings based on your Board's final deliberations.

DISCUSSION/SUMMARY:

This letter transmits recommendations for final budget adjustments, including items approved by your Board subsequent to development of the Maintenance of Effort budget and other technical adjustments.

The Attachment includes adjustments which result in increased appropriations and revenue in the General/Grant Funds of \$6,882,213 with **no change in net county cost** and an increase of 9.51 full-time equivalent positions. The increase in appropriation and revenue is primarily due to an adjustment in Behavioral Health for the Telecare contract augmentation for a Crisis Stabilization Unit and Short Term Rehabilitation Unit approved by your Board on June 3, 2003 and grant fund increases. The Library Fund adjustments result in a decrease of \$306,705 with no change in net county cost, and a decrease of 3.67 full-time equivalent positions. The changes reflect increased funding for annualized Board-approved adjustments and technical budget adjustments. The total budget for all funds increases from \$1,911.8 million to \$1,918.4 million.

Changes to Internal Service Funds include decreased appropriations and revenue of \$1,564,856, with no change in net county cost and an increase of 0.14 full-time equivalent positions. Special District Funds include increased appropriation and revenue of \$974,145 and 10.25 full-time equivalent positions.

	<u>Appropriation</u>	<u>Revenue</u>	<u>Net</u>	<u>FTE</u>
General/Grant Funds	\$6,882,213	\$6,882,213	\$0	9.51
Library Fund	(\$306,705)	(\$306,705)	\$0	(3.67)
Other Funds	<u>(\$590,711)</u>	<u>(590,711)</u>	<u>\$0</u>	<u>10.39</u>
Total All Funds	\$5,984,797	\$5,984,797	\$0	16.23

FINANCING:

These adjustments do not increase net county costs.

Very truly yours,

/s/

Susan S. Muranishi
County Administrator
